against ruthless, Mafia-style extortion and violence. Moments earlier, she'd discovered another victim of the brutal syndicate she works for. It's the third case she's encountered in two weeks, and she knows that she must draw a line in the sand. Just days ago, one of her acquaintances was murdered for not paying the protection money the mob demanded. She knows that her bosses are a cruel gang of criminals in the Caribbean, exploiting AIDS patients. Despite the feeble protection of laws designed to stop just this sort of abuse, the people she works for assume themselves to be above those laws. Silvia decides to take a stand against corruption, against violence, against the hopelessness these men spread like a virus among the island's weakest residents. But first, she needs to know who these crime lords are. She and two friends embark on a wild and dangerous hunt for the criminals. It leads her and her friends through hidden corners of Santo Domingo and through jungles, cities, remote towns, and mysterious churches and convents in Venezuela. Can Silvia uncover the truth before her dangerous enemies bury her?

South African writer J. M. Coetzee presents a coherent, unorthodox analysis of censorship from the perspective of a writer who has lived and worked under its shadow. Widely acclaimed for his many novels, Coetzee is also a brilliant literary critic and essayist. The essays collected here attempt to understand the passion that plays itself out in acts of silencing and censoring. Subscribing neither to the myth of the writer as a moral giant nor to that of the writer as persecuted innocent, Coetzee argues that a destructive dynamic of belligerence and escalation tends to overtake the rivals in any field ruled by censorship. From Osip

Mandelstam commanded to compose an ode in praise of Stalin, to Breyten Breytenbach writing poems under and for the eyes of his prison guards, to Aleksandr Solzhenitsyn engaging in a trial of wits with the organs of the Soviet state, *Giving Offense* focuses on the ways authors have historically responded to censorship. It also analyzes the arguments of Catharine MacKinnon for the suppression of pornography and traces the operations of the old South African censorship system. Finally, Coetzee delves into the early history of apartheid and criticizes the blankness of contemporary political science in its efforts to address the deeper motives behind apartheid.
