Call out the Cadets Mar 17 2021 “May God forgive me for the order,” Confederate Maj. Gen. John C. Breckinridge remarked as he ordered young cadets from Virginia Military Institute into the battle lines at New Market, just days after calling them from their academic studies to assist in a crucial defense. Virginia’s Shenandoah Valley had seen years of fighting. In the spring of 1864, Union Maj. Gen. Franz Sigel prepared to lead a new invasion force into the Valley, operating on the far right flank of Ulysses S. Grant’s Overland Campaign. Breckinridge scrambled to organize the Confederate defense. When the opposing divisions clashed near the small crossroads town of New Market on May 15, 1864, new legends of courage were born. Local civilians witnessed the combat unfold in their streets, churchyards, and fields and aided the fallen. The young cadets rushed into the battle when ordered—an opportunity for an hour of glory and tragedy. A Union soldier saved the national colors and a comrade, later receiving a Medal of Honor. The battle of New Market, though a smaller conflict in the grand scheme of that blood-soaked summer, came at a crucial moment in the Union’s offensive movements that spring and also became the last major Confederate victory in the Shenandoah Valley. The results in the muddy fields reverberated across the North and South, altering campaign plans—as well as the lives of those who witnessed or fought. Some never left the fields alive; others retreated with excuses or shame.

Some survived, haunted or glorified by their deeds. In *Call Out the Cadets*, Sarah Kay Bierle traces the history of this important, yet smaller battle. While covering the military aspects of the battle, the book also follows the history of individuals whose lives or military careers were changed because of the fight. New Market shined for its accounts of youth in battle, immigrant generals, and a desperate, muddy fight. Youth and veterans, generals and privates, farmers and teachers—all were called into the conflict or its aftermath of the battle, an event that changed a community, a military institute, and the very fate of the Shenandoah Valley.

Brigadier General Henry A. Wise, C.S.A. And The Western Virginia Campaign Of 1861

Jul 29 2019 This thesis examines Brigadier General Henry A. Wise’s involvement in the Western Virginia Campaign of 1861. This Confederate defeat resulted in the Federal occupation of a large, strategically important section of the Confederacy in the first year of the Civil War. The author presents the reasons for this capitulation and, against the backdrop of Wise’s political career, evaluates the General’s performance as a military commander. This paper discusses the personal conflict which ensued between Henry Wise and John B. Floyd in the Kanawha Valley as a reason for the Confederate failure in western Virginia. The author presents the results of this capitulation to demonstrate how Wise, a popular ex-Governor of Virginia, significantly

affected the course of the Civil War. *The Shenandoah Valley Campaign of 1864* Aug 02 2022 Generally regarded as the most important of the Civil War campaigns conducted in the Shenandoah Valley of Virginia, that of 1864 lasted more than four months and claimed more than 25,000 casualties. The armies of Philip H. Sheridan and Jubal A. Early contended for immense stakes. Beyond the agricultural bounty and the boost in morale a victory would bring, events in the Valley also would affect Abraham Lincoln’s chances for reelection in the November 1864 presidential canvass. The eleven original essays in this volume reexamine common assumptions about the campaign, its major figures, and its significance. Taking advantage of the most recent scholarship and a wide range of primary sources, contributors examine strategy and tactics, the performances of key commanders on each side, the campaign’s political repercussions, and the experiences of civilians caught in the path of the armies. The authors do not always agree with one another, yet, taken together, their essays highlight important connections between the home front and the battlefield, as well as ways in which military affairs, civilian experiences, and politics played off one another during the campaign. West Virginia and the Civil War Mar 29 2022 A comprehensive account of the state's creation, its citizens, and their contributions to the war effort—whether supporters of the Union or Confederacy. The only state born as a result of the Civil War, West Virginia was the most divided state in the nation. About forty thousand of its residents served in the combatant forces about twenty thousand on each side. The Mountain State also saw its fair share of battles, skirmishes, raids and guerrilla warfare, with places like Harpers Ferry, Philippi and Rich Mountain becoming household names in 1861. When the Commonwealth of Virginia seceded from the Union on April 17, 1861, leaders primarily from the northwestern region of the state began the political process that eventually led to the creation of West Virginia on June 20, 1863. Renowned Civil War historian Mark A. Snell has written the first thorough history of these West Virginians and their civil war in more than fifty years.

Valley Thunder May 31 2022 An "exciting and informative" account of the Civil War battle that opened the 1864 Shenandoah Valley Campaign, with illustrations included (Lone Star Book Review). Charles Knight's Valley Thunder is the first full-length account in decades to examine the combat at New Market on May 15, 1864 that opened the pivotal Shenandoah Valley Campaign. Lt. Gen. Ulysses S. Grant, who set in motion the wide-ranging operation to subjugate the South in 1864, intended to attack on multiple fronts so the Confederacy could no longer "take advantage of interior lines." A key to success in the Eastern Theater was control of the Shenandoah Valley, an agriculturally abundant region that helped feed Gen. Robert E. Lee's Army of Northern Virginia. Grant tasked Maj. Gen. Franz Sigel, a German immigrant with a mixed fighting record, and a motley collection of units numbering some 10,000 men to clear the Valley and threaten Lee's left flank. Opposing Sigel

was Maj. Gen. (and former US Vice President) John C. Breckinridge, who assembled a scratch command to repulse the Federals. Included in his 4,500-man army were Virginia Military Institute cadets under the direction of Lt. Col. Scott Ship, who'd marched eighty miles in four days to fight Sigel. When the armies faced off at New Market, Breckinridge told the cadets, "Gentlemen, I trust I will not need your services today; but if I do, I know you will do your duty." The sharp fighting seesawed back and forth during a drenching rainstorm, and wasn't concluded until the cadets were inserted into the battle line to repulse a Federal attack and launch one of their own. The Union forces were driven from the Valley, but would return, reinforced and under new leadership, within a month. Before being repulsed, they would march over the field at New Market and capture Staunton, burn VMI in Lexington (partly in retaliation for the cadets' participation at New Market), and very nearly capture Lynchburg. Operations in the Valley on a much larger scale that summer would permanently sweep the Confederates from the "Bread Basket of the Confederacy." Valley Thunder is based on years of primary research and a firsthand appreciation of the battlefield terrain. Knight's objective approach includes a detailed examination of the complex prelude leading up to the battle, and his entertaining prose introduces soldiers, civilians, and politicians who found themselves swept up in one of the war's most gripping engagements.

Richard Henry Brooks of Blakely, Georgia, enlisted in the Confederate Army for the duration of the war, serving in Longstreet's Corps. He would see his wife and family only once in the next three years. He would suffer hardship and deprivation, become hospitalized, participate in one of the grandest Confederate victories of the war, and be captured and held prisoner for almost a year. He wrote his wife Telitha regularly. He told her repeatedly to save all his letters, which she did, and they are published in this book. These letters give considerable insight into Confederate homelife in southwest Georgia during the war. Brooks gives Telitha advice on the daily details of running the household. He tells her who to go to for help, how to obtain enough corn and pork for the winter, how to handle their slaves, and what supplies to send him in the field. He advises her on the children and directs the children to behave. These glimpses into the homelife of Confederate Georgia grant us a clearer understanding of how people far from the battlefields were still affected by the war.

The Battle of Lewisburg: May 23, 1862 Sep 10 2020 The early morning hours of May 23, 1862 brought the horror of war to the residents of the small, mountain town of Lewisburg, Virginia (now West Virginia). A brigade of Union troops, commanded by Colonel George Crook, had occupied the heavily Confederate leaning town less than two weeks earlier. Now, Lewisburg felt the fury of a battle waged in her streets. Bullets flew in every direction. Cannon

balls whistled overhead and occasionally struck the homes and other buildings of the town. Confederate soldiers, some of whom grew up in Lewisburg, fought and died in their hometown. A few hours later, 240 Confederates were killed, wounded, or taken prisoner. The victorious Union troops suffered the loss of 93 men killed, wounded, and captured.

Confederate Brigadier General Henry Heth, with a superior force, now found himself forced to retreat in complete disarray. Colonel George Crook would soon be promoted to brigadier general, largely because of his conduct at Lewisburg. This carefully researched book by historian and author Richard L. Armstrong contains 248 pages, 34 images, and 13 maps (including a detailed map of the town the day after the battle by Captain Hiram F. Devol of the 36th Ohio Infantry). The cover features the beautiful painting of Lewisburg in the 1850s by renowned landscape artist Edward Beyer. Lewisburg, now a part of the state of West Virginia, is the county seat of Greenbrier County, and is named for Revolutionary War period General Andrew Lewis. A previous winner of the "Coolest Small Towns in America" award, the town offers many quaint shops, restaurants, galleries, and other attractions. Walking tour brochures, including one focused on the Battle of Lewisburg, are available at the Greenbrier Valley Visitors Center, located downtown on the corner of Washington and Court Streets.

Grant's River Campaign Dec 14 2020 In Tennessee in the early months of 1862, Ulysses S. Grant captured forts Henry and Donelson and opened the Tennessee and Cumberland rivers to military and commercial shipping. In April the first of many terrible battles of the Civil War was fought near Pittsburg Landing on the Tennessee River around a decrepit meeting-house known as Shiloh. This costly victory established Federal control over much of central Tennessee. These early Union victories gave the Federals control of two of the major rivers in the region--the highways of the period--opening large areas of the Confederacy to Federal invasion. Other important results were the end of the Confederate threat to control Kentucky and possibly close off the Ohio River. These victories also were a major factor in

forcing the abandonment of a key Confederate fort on the Mississippi River at Columbus, Kentucky. This book describes not only the actual fighting that took place but how important political and economic factors influenced the overall military strategy in the region.

Bland County Feb 02 2020 Bland County is one of the smallest counties of the Old Dominion, yet it is filled with spectacular, unspoiled, scenic vistas that rival any rural area on the North American continent. Bland County is a tree-covered paradise with no incorporated towns, and about one-third of the county's 369 square miles are included in the Jefferson National Forest. The history of Bland County after the arrival of European settlers includes stories of patriotism, independence, as well as struggles against incredible odds. The Virginia General Assembly formed Bland County on March 30, 1861. The county has always been for progress, with lumber companies arriving in the late 19th century to harvest the county's vast timber resources and the railroad following at the start of the 20th century. Bland County was also home to a huge Civilian Conservation Corps camp in the 1930s. From communities like Ceres to No Business and Hicksville to Bland, the entire county has a great story to tell.

Douglas S. Freeman's Pulitzer Prize-winning four-volume study on Robert E. Lee remains the most thorough history of the man. After spending so many years with his subject, Freeman claimed he knew where Lee was every day of his life, from West Point until his death. In fact, there are many gaps in Freeman's Lee, and hundreds of sources have been discovered in the decades since that have changed many of the accepted "facts" about the general. In *From Arlington to Appomattox: Robert E. Lee's Civil War, Day by Day, 1861-1865* author Charles Knight does for Lee and students of the war what E. B. Long's *Civil War Day by Day* did for our ability to understand the conflict as a whole. This is not another Lee biography, but it is every bit as valuable as one, and perhaps more so. Lost in all of the military histories of the war, and even in most of the Lee biographies, is what the general was doing when he was out of history's "public" eye. We know Lee rode out to meet the survivors of Pickett's Charge and accept blame for the defeat, that he tried to lead the Texas Brigade in a counterattack to save the day at the Wilderness, and took a tearful ride from Wilmer McLean's house at Appomattox. But what of the other days? Where was Lee and what was he doing when the spotlight of history failed to illuminate him? Focusing on where he was, who

he was with, and what he was doing day by day offers an entirely different appreciation for Lee. Readers will come away with a fresh sense of his struggles, both personal and professional, and discover many things about Lee for the first time using his own correspondence and papers from his family, his staff, his lieutenants, and the men of his army. General Lee intended to write a history of the Army of Northern Virginia but died before he could complete his work. Based on hundreds of first-person accounts, *From Arlington to Appomattox* recreates, as far as such a thing is now possible, a Lee-centric study of what the man experienced on a daily basis. It is a tremendous contribution to the literature of the Civil War.

Lee's Bold Plan for Point Lookout Jan 15 2021 In July 1864, while hemmed in by Grant at Richmond, General Robert E. Lee conceived a bold plan designed not only to relieve Lynchburg and protect the Confederate supply line but also to ultimately make a bold move on Washington itself. A major facet of this plan, with the addition of General Jubal Early's forces, became the rescue of the almost 15,000 Confederate prisoners at Point Lookout, a large Union prison camp at the confluence of the Potomac River and Chesapeake Bay. With international recognition hanging in the balance for the Confederacy, the failure of Lee's plan saved the Union and ultimately changed the course of the war. This work focuses on the many factors that contributed to this eventual failure, including Early's

somewhat inexplicable hesitancy, a significant loss of time for Confederate troops en route, and aggressive defensive action by Union General Lew Wallace. It also discusses various circumstances such as Washington's stripped defenses, the potential release of imprisoned Southern troops and a breakdown of Union military intelligence that made Lee's gamble a brilliant, well-founded strategy. *Shenandoah 1864* Jul 01 2022 For three years of war the Union and the Confederacy had battled over the picturesque Shenandoah Valley of Virginia. Nestled between the Blue Ridge Mountains to the east and the Ridge-and-Valley Appalachians to the west, the valley served as the granary for the Army of Northern Virginia. It provided bread and beef to feed this shield of the Confederacy and remounts for its cavalry. This beautifully illustrated study explores one of the major campaigns of the Civil War in 1864, which saw a decisive victory for the Union forces under Sheridan and featured some of the most famous commanders of the war, including Philip Sheridan, Jubal Early, George Armstrong Custer, John B. Gordon and George Crook.

In Memory of Self and Comrades Nov 24 2021 Thomas W. Colley served in one of the most active and famous units in the Civil War, the 1st Virginia Cavalry, which fought in battles in the Eastern Theater, from First Manassas/Bull Run to the defense of Petersburg. Colley was born November 11, 1837, outside Abingdon, Virginia, and grew up knowing the daily

demands of life on a farm. In May 1861, along with the other members of the Washington Mounted Rifles, he left his home in Washington County and reported to camp in Richmond. During the war, Colley received wounds on three different occasions: first at Waterloo Bridge in 1862, again at Kelly's Ford in 1863, and finally at Haw's Shop in 1864. The engagement at Haw's Shop resulted in the amputation of his left foot, thereby ending his wartime service. The first modern scholarly edition of Colley's writings, *In Memory of Self and Comrades* dramatizes Colley's fate as a wounded soldier mustered out before the war's conclusion. Colley's postwar reflections on the war reveal his struggle to earn a living and maintain his integrity while remaining somewhat unreconciled to his condition. He found much of his solace through writing and sought to advance his education after the war. As one of an estimated 20,000 soldiers who underwent amputation during the Civil War, his memoirs reveal the challenges of living with what many might recognize today as post-traumatic stress disorder. Annotations from editor Michael K. Shaffer provide further context to Colley's colorful and insightful writings on both his own condition and the condition of other veterans also dealing with amputations. Book jacket.

Washington County, Virginia, in the Civil War Jul 21 2021 The citizens of Washington County, Virginia gave up their sons and daughters to the Confederate cause of the Civil War. Contributing six Confederate generals as

well as Union officers, the region is emblematic of communities throughout the nation that sacrificed during the war. Though the sounds of cannon fire and gunshots were only heard at a distance, Washington County was the breadbasket for Confederate armies. From the fields surrounding Abingdon to the coveted salt works in Saltville, Union Generals were constantly eyeing the region, resulting in the Saltville Massacre and the burning of Abingdon's famous courthouse. Historian Michael Shaffer gives a detailed narrative of Washington County during the Civil War, painting vivid images of heroism on and off the battlefield.
