The Mystery of Edwin Drood Jul 01 2022 'Where is my nephew?', asked Mr Jasper, wildly. 'Where is your nephew?' repeated Neveille. 'Why do you ask me?' 'I ask you,' retorted Jasper, 'because you were the last person in his company, and he is not to be found.' The Mystery of Edwin Drood, Dickens's last novel, lay unfinished at his death. Speculation remains rife as to its probably conclusion; evidence suggests that, fascinated as Dickens was by details of the plotting, his basic concern was for character and appropriate setting, in particular the character of the hero-villain, Jasper. The ancient city of Cloisterham, its cathedral a reminder of mortality, human frailty, and the lawful life, is an effective background for what Dickens daughter called a tale of 'the tragic secrets of the human heart'. Humour is provided by a host of characters ranging fro Mr Grewgious, the admirable though eccentric lawyer, and Miss Twinkleton, guardian of the Young Ladies' Seminary, to Durdles, the hard-drinking stonemason, and Deputy, the irreverent lodging-house boy. This edition contains Dickens's working plans for the novel, and the text is that of the authoritative Clarendon edition. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

There are too many things that don't add up. In the hopes of being able to leave Bath and begin their honeymoon, Amy and William once again take things into their own hands. The Mystery of Three Quarters Mar 17 2021 The world's most beloved detective, Hercule Poirot—the legendary star of Agatha Christie's *Murder on the Orient Express* and most recently *The Monogram Murders* and *Closed Casket*—returns in a stylish, diabolically clever mystery set in the London of 1930. “We Agatha Christie fans read her stories--and particularly her Poirot novels--because the mysteries are invariably equal parts charming and ingenious, dark and quirky and utterly engaging. Sophie Hannah had a massive challenge in reviving the beloved Poirot, and she met it with heart and no small amount of little grey cells. I was thrilled to see the Belgian detective in such very, very good hands. Reading *The Monogram Murders* was like returning to a favorite room of a long-lost home.” — Gillian Flynn, author of *Gone Girl* Hercule Poirot returns home after an agreeable luncheon to find an angry woman waiting to berate him outside his front door. Her name is Sylvia Rule, and she demands to know why Poirot has accused her of the murder of Barnabas Pandey, a man she has neither heard of nor ever met. She is furious to be so accused, and deeply shocked. Poirot is equally shocked, because he too has never heard of any Barnabas Pandey, and he certainly did not send the letter in question. He cannot convince Sylvia Rule of his innocence, however, and she marches away in a rage. Shaken, Poirot goes inside, only to find that he has a visitor waiting for him — a man called John McCrodden who also claims also to have received a letter from Poirot that morning, accusing him of the murder of Barnabas Pandey... Poirot wonders how many more letters of this sort have been sent in his name. Who sent them, and why? More importantly, who is Barnabas Pandey, is he dead, and, if so, was he murdered? And can Poirot find out the answers without putting more lives in danger?

The Mystery of John the Baptist and John the Evangelist at the Turning Point of Time May 31 2022 Thus spoke Rudolf Steiner in his "Last Address" to members of the Anthroposophical Society. This was his first and only indication of the connection between John the Baptist and John the Evangelist. As Prokofieff points out, Steiner intended to develop and bring to full clarity the short comment reproduced above, but his terminal illness prevented him from doing so. In this brief, enlightening book, Prokofieff addresses the mystery of the "two Johns." solving many unanswered questions. In particular, he throws light on issues of "incarnation and incorporation," the nature of John the Baptist's and John the Evangelist's respective initiations, the significance of their mutual work at the "Turning Point of Time," and its relevance to our present day.

Story Behind the Book Over the twenty years since its publication, many couples have told me that they've read my book aloud to each other. This always amazes me and gives me great joy. I'm also amazed that many single people have read it. Either way, my goal is for hearts to be warmed by the mystery of divine love. I want couples to enter into deeper intimacy by thinking together about the mystery of marriage -about how their love, besides being a gift of God, reflects the very love He has for Himself in the Trinity. For God is not a bachelor, and throughout the Bible marriage is a supreme picture of the nature of God's love and of His kingdom. I want people who read my book to feel so soaked in these wonderful, divine mysteries that it deepens their reverence for marriage and inspires them to greater love

The Phantom of the Opera & The Mystery of the Yellow Room (Mystery Classics) Jul 09 2020 This carefully crafted ebook: "The Phantom of the Opera & The Mystery of the Yellow Room (Mystery Classics)" is formatted for your eReader with a functional and detailed table of contents: "The Mystery of the Yellow Room" is one of the first locked-room mystery crime fiction novels. It is the first novel starring fictional detective Joseph Rouletabille, and concerns a complex and seemingly impossible crime in which the criminal appears to disappear from a locked room. Leroux provides the reader with detailed, precise diagrams and floorplans illustrating the scene of the crime. The emphasis of the story is firmly on the intellectual challenge to the reader, who will almost certainly be hard pressed to unravel every detail of the situation. "The Phantom of the Opera" is a story inspired by historical events at the Paris Opera during the nineteenth century. Opera singer Christine triumphs at the gala on the night of the old managers' retirement. Her old childhood friend, Raoul, hears her sing and recalls his love for Christine. At this time, there are rumours of a phantom living at the Opera and he makes himself known to the managers through letters and malevolent acts. Sometime after the gala, the Paris Opera performs Faust, with the prima donna Carlotta playing the lead, against the Phantom's wishes. During the performance, Carlotta loses her voice and the grand chandelier plummets into the audience... Gaston Leroux (1868-1927) was a French journalist and author of detective fiction. In the English-speaking world, he is best known for writing the novel *The Phantom of the Opera* (*Le Fantôme de l'Opéra*, 1910), which has been made into several film and stage productions of the same name.

The Mystery of Mind Oct 31 2019 The Mystery of Mind is a systematic and critical introduction to the philosophy of mind. At issue is what is known as the mind-body problem. How does a body support a mind with its brain? Pivotal to the book is the author's working out of an adverbial concept of mind that is user-friendly to the materialist cause. It is upon the strength of this adverbial concept that the author has come to hold that the conceptual gap between the neurobiological and the psych-cognitive could in fact be bridged. It is also the author's contention that despite shortcomings of other materialist approaches that have been taken in our time, an intelligible case for the truth of materialism could still be made in the form of a biological emergent two-aspect scenario, i.e., when the adverbial concept of mind he advocates is also brought to bear. All in all, what The Mystery of Mind offers is a systematic introduction to one of the living philosophical issues that have engaged the human intellects for more than two thousand years. This is also the central issue that has motivated research in artificial intelligence, cognitive psychology, neuroscience, and the philosophy of mind in our time.
