Diep werk Dec 13 2020 In 'Diep werk' wijst Cal Newport op de noodzaak van geconcentreerd werken om maximaal te kunnen presteren, een vaardigheid die we langzaam zijn kwijtgeraakt. Newport gebruikte de term 'diep werk' voor het eerst op zijn populaire blog. Hij raakte een zenuw: Newport's artikelen over dit onderwerp werden honderdduizenden keren gelezen en overgenomen. De meeste mensen laten zich gemakkelijk onderbreken en besteden een groot deel van de dag aan oppervlakkige werkzaamheden. Dit boek bevat talloze inspirerende verhalen en praktische adviezen over hoe je je werk anders kunt organiseren om diep werk een vaste plek te geven. Want alleen door iets met volle aandacht te doen, ontwikkel je je denkkraft en bereik je meer in minder tijd.

Reflecting on Social Work - Discipline and Profession Aug 28 2019 Social work has always been a contested activity and its status as an academic discipline remains uncertain. There is currently renewed interest in the theoretical and research dimensions of social work, at a time when significant changes in the broad social, political and economic context in which practice takes place require a re-evaluation of social work's role and a re-examination of its identity. This timely book brings together leading social work academics to examine the state of social work at the beginning of the 21st century. With their focus on the relationships between research, theory and practice, they reflect critically on the nature of social work as a discipline in higher education and the importance of this to the profession as a whole. The book represents an exploratory conversation among social work academics about the current

state and future aspirations of the discipline and the profession. It aims to stimulate wider debate about the dominant constraints and opportunities for social work in the 21st century.

*Faculty Work and the Public Good* May 18 2021 At a time when faculty roles are under great scrutiny and faculty work itself has an uncertain future, this book offers a new approach to examining academic professionalism. This collection of essays applies a philanthropic lens to contemporary debates and considers academic work completed out of a moral responsibility to the public good. It provides a counterpoint to narrow conceptions of appropriate faculty work as limited to the production of credit hours and research dollars and offers evidence that faculty can have a wider role both within and beyond the "ivory tower." By examining faculty members' many contributions, not only to students but to society-at-large, *Faculty Work and the Public Good* provides an alternate perspective on America's colleges and universities that will help preserve and expand professorial contributions to the public good. Although not all faculty are philanthropically inclined, highlighting those who are will help preserve valuable aspects of faculty work and encourage more such contributions to society. This volume is an essential read for higher education policymakers, trustees, and administrators; students and scholars of higher education and philanthropy; and individual faculty concerned about their profession. Contributors: Ann E. Austin, J. Herman Blake, Dwight F. Burlingame, Denise Mott DeZolt, Sean Gehrke, Audrey J. Jaeger, Adrianna Kezar, Jia G. Liang, Elizabeth Lynn, Michael Moody, Emily L. Moore, Thomas F. Nelson-Laird, Jason F. Perkins, William M. Plater, Gary Rhoades, R. Eugene Rice, John Saltmarsh, Lorilee R. Sandmann, Paul Shaker, Marty Sulek, William G. Tierney, Richard C. Turner "The contributors to this volume provide unique insights into this under-appreciated but significant dimension of academic work and culture." –Jack H. Schuster, professor emeritus, education and public policy, senior research fellow, Claremont Graduate University "Provides a powerful rationale for broadening the definition of what are the valued contributions faculty members can make to their institutions, disciplines, and the public at large" –Judith M. Gappa, professor emerita, Purdue University

*Sociological Social Work* Aug 01 2022 Sociological social work is a lifelong social work practice which is animated by a sociological perspective. Social workers' shorthand orientations such as 'strengths perspective', 'task centred' or 'humanistic' (to name but a few), as a way to identify their philosophical and theoretical approaches in professional life. Whilst some texts have examined sociology for social work, this text instead proposes that sociological social work is a legitimate and theoretically rich orientation, and this book demonstrates what sociological social work looks like in our rapidly changing world. This text will equip students and practitioners with a way to think sociologically, not just while they are studying, but as an ever present reference for making sense of social work purpose and how this is realised in a transforming world. This follows an established tradition in social work literature, but this book elevates and names the importance of this approach, which we argue is critically needed if social work is to achieve its agenda in transformative social, political economic and environmental contexts. The current landscape in which we live is one that is characterised by rapid changes which have implications for the life experiences of those with whom social workers work, social justice advocacy agendas, and for fulfilling the purpose of social work more generally. This book is essential reading for those looking to keep up with these changes.

This fourth edition incorporates much-needed additional techniques to address the mental health assessments of the elderly. It also incorporates an evaluation of the family system, family roles, and family development in this assessment. Interventions at the individual, family, group, and community levels are discussed. *The Enlightenment of Work: Revealing the Path to Happiness, Contentment and Purpose in your Job* Apr 04 2020 *The Enlightenment of Work* is about ending the suffering when we feel anger, misery and unhappiness with unenlightened work. This book is essential for anyone wishing to: Transform your suffering at work: Suffering can come in many ways. It can

come through feeling aimless and bored where the only reason for being there is to collect a salary each month. It can come through stress, overwork and burnout. This book offers a simple philosophy: suffering happens - but we can transform that suffering. Realise their innate gifts, talents and purpose: Most work disconnects us from knowing our authentic self - our essence or soul. Trust your courage, ideas, intuition, and discover your true self. Reclaim their time: Time is your most precious resource and one you cannot afford to waste. However, many of us work in busy environments that leave little time for real thinking or reflection, or for doing anything very new or interesting. Busy and idle minds can get locked into different forms of anxiety about the past and the future. The changing world of work demands emotional and spiritual intelligence. No one has to stay with work that oppresses the spirit. This new world is about choice.

*Social Work & Received Ideas* Sep 21 2021 First published in 1989. Routledge is an imprint of Taylor & Francis, an informa company.

*Taakgerichte Hulpverlening in Social Work* Sep 02 2022 TGH is een methodiek van maatschappelijk werk, of liever van social work. De internationale herkomst ervan garandeert dat ook andere dan maatschappelijk werkers ervan kunnen profiteren: de jeugdwerker, de reclasseringswerker, de sociaal pedagogisch werker, de buurtwerker, de opvangwerker, de pedagogisch werker, de gezinswerker en zo meer. Het is een instrument dat in vaak complexe hulpverleningssituaties houvast en structuur biedt, ook aan cliënten en derden. Werker en vooral de cliënt spannen zich samen in om een specifiek probleem te verminderen, waarvoor zij beiden 'taken' verrichten. Een groot deel van de hulpverleningsgesprekken is gericht op het helpen voorbereiden van en motiveren tot cliënttaken.

*Social work.* Nov 04 2022 Wetenschappelijke boeken over maatschappelijk werk zijn in Nederland schaars, terwijl in de Verenigde Staten en Groot-Brittannië zeer veel interessante studies over dit onderwerp gepubliceerd worden. Om hiervan ook in Nederland te kunnen profiteren, is besloten het boek *Constructive Social Work. Towards a new practice* van Nigel Parton en Patrick O'Byrne te vertalen. Het boek is een voorbeeld van een constructieve benadering van het maatschappelijk werk. Deze stroming is ook in Nederland de laatste jaren sterk in opgang. Met de term 'constructief' willen de auteurs benadrukken dat het maatschappelijk werk in hun ogen een opbouwende activiteit is die erop gericht is mensen te helpen om opnieuw betekenis te geven aan hun leven. Deze constructieve benadering is vooral gericht op de dialoog tussen maatschappelijk werkers en hun cliënten.

*Women, Work, and Globalization* Jan 26 2022 Women increasingly make up a significant percentage of the labor force throughout the world. This transformation is impacting everyone's lives. This book examines the resulting gender role, work, and family issues from a comparative worldwide perspective. Working allows women to earn an income, acquire new skills, and forge social connections. It also brings challenges such as simultaneously managing domestic responsibilities and family relationships. The social, political, and economic implications of this global transformation are explored from an interdisciplinary perspective in this book. The commonalities and the differences of women's experiences depending on their social class, education, and location in industrialized and developing countries are highlighted throughout. Practical implications are examined including the consequences of these changes for men. Engaging vignettes and case studies from around the world bring the topics to life. The book argues that despite policy reforms and a rhetoric of equality, women still have unique experiences from men both at work and at home. *Women, Work, and Globalization* explores: Key issues surrounding work and families from a global cross-cultural perspective. The positive and negative experiences of more women in the global workforce. The spread of women's empowerment on changes in ideologies and behaviors throughout the world. Key literature from family studies, IO, sociology, anthropology, and economics. The changing role of men in the global work-family arena. The impact of sexual trafficking and exploitation, care labor, and transnational migration on women. Best practices and policies that have benefited women, men, and their families. Part 1 reviews the research on gender in the industrialized and developing world, global changes that pertain to women's gender roles, women's labor market participation, globalization, and the spread of the women's movement. Issues that pertain to women in a globalized world including gender socialization, sexual trafficking and exploitation, labor migration and transnational motherhood, and the complexities entailed in care labor are explored in Part 2. Programs and policies that have effectively assisted women are explored in Part 3 including initiatives instituted by NGOs and governments in developing countries and (programs) policies that help women balance work and family in industrialized countries. The book concludes with suggestions for global initiatives that assist women in balancing work and family responsibilities while decreasing their vulnerabilities. Intended as a supplemental text for advanced undergraduate and/or graduate courses in *Women/Gender Issues, Work and Family, Gender and Families, Global/International Families, Family Diversity, Multicultural Families, and Urban Sociology* taught in psychology, human development and family studies, gender and/or women's studies, business, sociology, social work, political science, and anthropology. Researchers, policy makers, and practitioners in these fields will also appreciate this thought provoking book.

*Social Work and Social Development* Mar 16 2021 Social workers have been involved in social development for many years, but it is only recently that these ideas have been explicitly applied to social work practice. The result is that a new and distinctive approach to social work practice known as developmental social work has emerged. Developmental social work emphasizes the role of social investment in professional practice. These investments meet the material needs of social work's clients and facilitate their full integration into the social and economic life of the community. Developmental social workers believe that client strengths and capabilities need to be augmented with public resources and services if those served by the profession are to live productive and fulfilling lives. Although developmental social work is inspired by international innovations, particularly in the developing countries, it is highly relevant to practice in the United States and other Western nations. In the first book to lay out a clear framework for developmental social work practice, chapters will focus on the traditional fields of social work practice, showing how social investment strategies can be adopted by social workers in their daily practice with populations including families and children, people with mental illness, homeless youth, people with disabilities, the elderly, and those in

the correctional system. By facilitating clients' full social and economic participation through a variety of strategies, such as microenterprise or asset-building programs, practitioners can help bring about meaningful changes in clients' lives and throughout their communities. The editors and contributors offer a highly original exposition of developmental social work theory and practice, providing a definitive guide to an emerging and exciting new approach to practice.

*Queer Sex Work* Apr 28 2022 Sex work is a subject of significant contestation across academic disciplines, as well as within legal, medical, moral, feminist, political and socio-cultural discourses. A large body of research exists, but much of this focuses on the sale of sex by women to men and ignores other performances, practices, meanings and embodiments in the contemporary sex industry. A queer agenda is important in order to challenge hetero-centric gender norms and to develop new insights into how gender, sex, power, crime, work, migration, space/place, health and intimacy are understood in the context of commercial sexual encounters. *Queer Sex Work* explores what it might mean to 'be', 'do' and 'think' queer(ly) in the study and practice of commercial sex. It brings together a multiplicity of empirical case studies – including erotic dance venues, online sex working, pornography, grey sexual economies, and BDSM – and offers a variety of perspectives from academic scholars, policy practitioners, activists and sex workers themselves. In so doing, the book advances a queer politics of sex work that aims to disrupt heteronormative logics whilst also making space for different voices in academic and political debates about commercial sex. This unique and multidisciplinary volume will be indispensable for scholars and students of the global sex trade and of gender, sexuality, feminism and queer theory more broadly, as well as policymakers, activists and practitioners interested in the politics and practice of sex work in local, national and international contexts.

*Work and Family in a Changing America* May 06 2020

*Studies of Work and the Workplace in HCI* Oct 23 2021 This book has two purposes. First, to introduce the study of work and the workplace as a method for informing the design of computer systems to be used at work. We primarily focus on the predominant way in which the organization of work has been approached within the field of human-computer interaction (HCI), which is from the perspective of ethnomethodology. We locate studies of work in HCI within its intellectual antecedents, and describe paradigmatic examples and case studies. Second, we hope to provide those who are intending to conduct the type of fieldwork that studies of work and the workplace draw off with suggestions as to how they can go about their own work of developing observations about the settings they encounter. These suggestions take the form of a set of maxims that we have found useful while conducting the studies we have been involved in. We draw from our own fieldwork notes in order to illustrate these maxims. In addition we also offer some homilies about how to make observations; again, these are ones we have found useful in our own work. Table of Contents: Motivation / Overview: A Paradigmatic Case / Scientific Foundations / Detailed Description / Case Study / How to Conduct Ethnomethodological Studies of Work / Making Observations / Current Status

*Work and the Image: v. 2: Work in Modern Times - Visual Mediations and Social Processes* Apr 16 2021 This title was first published in 2000. Published in two volumes, "Work and the Image" addresses a critical theme in contemporary social and cultural debates whose place in visual representation has been neglected. Ranging from Greek pottery to contemporary performance, and exploring a breadth of geo-national perspectives including those of France, Britain, Hungary, Soviet Russia, the Ukraine, Siberia and Germany, the essays provide a challenging reconsideration of the image of work, the meaning of the work process, and the complex issues around artistic activity as itself a form of work even as it offers a representation of labour. With a shared focus on the 20th century, the era of modernity and its postmodern aftermath, the essays in this volume examine the diverse ways in which the social relations of work in industrial societies from both capitalist and socialist regimes were publicly and privately mediated by changing forms of visual representation. The authors discuss traditional analyses of the image of the worker in the light of contemporary critical theories that address the question of the subjectivity of the worker in relation to class, gender, nationhood and the concept of modernity.
