"... vor dem Papyrus sind alle Gleich!" Sep 30 2019 Die Zeitschrift Archiv für Papyrusforschung und verwandte Gebiete ist das älteste papyrologische Fachorgan der Welt. Sie unterscheidet sich von anderen papyrologischen Zeitschriften hauptsächlich durch ihre Referate (literarische Papyri, christliche Texte, Urkundenreferat, juristisches Referat, koptische Texte und Urkunden, Demotica Selecta sowie Darstellungen und Hilfsmittel). Die Beihefte zu der Zeitschrift vereinen sowohl Monographien als auch Sammelbände; im Zentrum stehen Neueditionen von Papyrustexten griechischer, lateinischer, koptischer, demotischer oder arabischer Sprache, die neue Erkenntnisse zu verschiedenen Bereichen des Altertums vermitteln: zu Philologie, Literatur, Philosophie, Religion, Politik und Sozialgeschichte, zu Militär- und Rechtsgeschichte, zu Geographie und Landeskunde, zu Schul- und Gesundheitswesen und zum Alltagsleben; kurzum, zur antiken Kulturgeschichte überhaupt.

Age as Disease Jun 27 2019 Age as Disease explores the foundations of gerontology as a discipline to examine the ways contemporary society constructs old age as a disease-state. Framed throughout as 'gerontological hygiene', this book examines contemporary regimes, strategies and treatment protocols deployed throughout Australia, the United States, and the United Kingdom. The book deploys critical cultural theories such as biopolitics, somatechnics, ethics, and governmentality to examine how anti-aging technologies operate to problematise the aging body as always-already diseased, and how these come to constitute a movement of abolition, named here as 'gerontological hygiene'.

Design and Analysis for Quantitative Research in Music Education Aug 29 2019 In recent years, academics and professionals in the social sciences have forged significant advances in quantitative research methodologies specific to their respective disciplines. Although new and sophisticated techniques for large-scale data analyses have become commonplace in general educational, psychological, sociological, and econometric fields, many researchers in music education have yet to be exposed to such techniques. Design and Analysis of Quantitative Research in Music Education is a comprehensive reference for those involved with research in music education and related fields, providing a foundational understanding of quantitative inquiry methods. Authors Peter Miksza and Kenneth Elpus update and expand the set of resources that music researchers have at their disposal for conceptualizing and analyzing data pertaining to music-related phenomena. This text is designed to familiarize readers with foundational issues of quantitative inquiry as a point of view, introduce and elaborate upon issues of fundamental quantitative research design and analysis, and expose researchers to new, innovative, and exciting methods for dealing with complex research questions and analyzing large samples of data in a rigorous and thorough manner. With this resource, researchers will be better equipped for dealing with the challenges of the increasingly

information-rich and data-driven environment surrounding music education. An accompanying companion website provides valuable supplementary exercises and videos.

Automotive FDI in Emerging Europe Jan 15 2021 This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European (CE) nations of Czechia, East Germany, Hungary, Poland, and Slovakia from 1989 onwards. Enticed by relatively lower-wage labour and significant government incentives, the world's largest automakers have launched more than 20 passenger car assembly complexes in CE nations, with production accelerating dramatically since 2001. As a result, the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015, and alternatively in the CEE it increased by nearly 170% during this period. Drawing on case studies of 25 current and former foreign-run assembly plants, the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift. This book will expand the knowledge of policy-makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business, economic history, political science, and development.
