Technically Wrong: Sexist Apps, Biased Algorithms, and Other Threats of Toxic Tech Jan 30

2020 "An entertaining romp that tells us where and why the tech industry, once America's darling, went wrong, and what it might do to recover its good graces." —Tim Wu, author of The Master Switch Buying groceries, tracking our health, finding a date: whatever we want to do, odds are that we can now do it online. But few of us realize just how many oversights, biases, and downright ethical nightmares are baked inside the tech products we use every day. It's time we change that. Unanticipated Gains Jun 28 2022 Social capital theorists have shown that some people do better than others in part because they enjoy larger, more supportive, or otherwise more useful networks. But why do some people have better networks than others? Unanticipated Gains argues that the practice and structure of the churches, colleges, firms, gyms, childcare centers, and schools in which people happen to participate routinely matter more than their deliberate "networking." Exploring the experiences of New York City mothers whose children were enrolled in childcare centers, this book examines why a great deal of these mothers, after enrolling their children, dramatically expanded both the size and usefulness of their personal networks. Whether, how, and how much the mother's networks were altered--and how

useful these networks were--depended on the apparently trivial, but remarkably consequential, practices and regulations of the centers. The structure of parent-teacher organizations, the frequency of fieldtrips, and the rules regarding drop-off and pick-up times all affected the mothers' networks. Relying on scores of in-depth interviews with mothers, quantitative data on both mothers and centers, and detailed case studies of other routine organizations, Small shows that how much people gain from their connections depends substantially on institutional conditions they often do not control, and through everyday processes they may not even be aware of. Emphasizing not the connections that people make, but the context in which they are made, *Unanticipated Gains* presents a major new perspective on social capital and on the mechanisms producing social inequality.

*The Yard* Mar 02 2020 As Jack the Ripper's reign of terror in London comes to an end, a new era of depravity sets the stage for the first gripping mystery featuring the detectives of Scotland Yard's Murder Squad. "If Charles Dickens isn't somewhere clapping his hands for this one, Wilkie Collins surely is."—*The New York Times Book Review* Victorian London—a violent cesspool of squalid sin. The twelve detectives of Scotland Yard's Murder Squad are expected to solve the thousands of crimes committed in the city each month. Formed after the Metropolitan Police's spectacular failure in capturing Jack the Ripper, they suffer the brunt of public contempt. But no one can anticipate the brutal murder of one of their own... A Scotland Yard Inspector has been found stuffed in a black steamer trunk at Euston Square Station, his eyes and mouth sewn shut. When Walter Day, the squad's new hire, is assigned to the case, he finds a strange ally in Dr. Bernard Kingsley, the Yard's first forensic pathologist. Their grim conclusion: this was not just a random, bizarre murder but in all probability, the first of twelve. The squad itself it being targeted and the devious killer shows no signs of stopping. But Inspector Day has one more surprise, something even more shocking than the crimes: the murderer's motive.

Running in Darkness Jan 12 2021 A subtly powerful collection of poetry which celebrates the shape and details of a full life - from youth through middle age to old age - and begins to face the prospect of its loss. With the sure hand of a veteran poet, Robert Currie has created a book of commemoration, of reading into the permanent record, his life, its events, and the beloved people in it - parents, partners and children, writers, teachers, and students. And the people who have begun to leave it. His sweep is all encompassing, from his own imagined conception to - vicariously through his parents demise - his own imagined end. The poems are full of fondness, humour and no little irony, as he looks back at his younger self, and the sometimes, but not always, painful loss of innocence. The final section, deals with the loss of his parents, and the illnesses and untimely death of friends. This life, so full of emotion and event, is drawing near its close. Technique is not the subject here, is not the point. It stands quietly in service of the story being told. Each poem is a small step through this life, but they keep coming, they pick up speed, and you suddenly realize they are walking on your heart. And after the bursts of laughter, bursts of tears, bursts of love, and bursts of years, Robert Currie delivers us a warning with his own startled realization - It goes so fast.
