Chick and Other Stories Sep 01 2022 'Vanity takes no more obnoxious form than the everlasting desire for approval.' This collection of 12 short mystery stories includes titles such as 'Chick', 'For One Night Only', 'A Writ of Summons', 'Spotting the Lady', and 'A Lesson in Diplomacy among others'. The title story 'Chick' tells of an office boy who unexpectedly inherits the title of Marquis. As well as dealing with this unexpected elevation in his status, and learning how to behave as a member of the aristocracy he also has to protect his newly inherited estate from clever con men who try to convince him that there is oil on his land. Each of the other short stories stand out as intriguing and mysterious pieces of short-form literature as only Wallace could write it. If you love Wallace's amazing universe, this is a great collection of stories to help you dive deeper into the mind of the genius behind 'King Kong'. Edgar Wallace (1875-1932) was an English writer so prolific, that one of his publishers claimed that he was behind a quarter of all books sold in England. An author, journalist, and poet, he wrote countless novels, short stories, screenplays, stage plays, historical non-fiction, etc. Today, more than 160 films have been made from his works. He died suddenly in Hollywood in 1932, during the initial drafting of his most famous work, 'King Kong'. The most popular movie of recent times based on Wallace's work is the blockbuster 'King Kong' (2005) starring Naomi Watts, Jack Black and Adrien Brody.

The Dark Side 3 Jun 25 2019 This third collection of outstanding contributions from the Critical Management Studies (CMS) Division of the Academy of Management (AOM) continues to challenge business practice in ways not tackled by other more typical business case studies. There is a critical need for business educators to expose students and managers to the multifaceted phenomena of doing business in the twenty-first century; to support critical, reflective moral development; and to reflect and understand the complexities of organizational life. Is the system broken? Is there need for more systemic change? The cases explore a number of critical issues at some of the largest industries and companies in the world, including

wealth creation and human rights in mining, the CSR approaches at Coca-Cola, the palm oil industry, and the supply chain at Apple Inc. Online Teaching Notes to accompany each chapter are available on request with the purchase of the book.

New Forms of Worker Organization Jun 05 2020 Bureaucratic labor unions are under assault. Most unions have surrendered the achievements of the mid-twentieth century, when the working class was a militant force for change throughout the world. Now trade unions seem incapable of defending, let alone advancing, workers' interests. As unions implode and weaken, workers are independently forming their own unions, drawing on the tradition of syndicalism and autonomism—a resurgence of self-directed action that augurs a new period of class struggle throughout the world. In Africa, Asia, the Americas, and Europe, workers are rejecting leaders and forming authentic class-struggle unions rooted in sabotage, direct action, and striking to achieve concrete gains. This is the first book to compile workers' struggles on a global basis, examining the formation and expansion of radical unions in the Global South and Global North. The tangible evidence marshaled in this book serves as a handbook for understanding the formidable obstacles and concrete opportunities for workers challenging neoliberal capitalism, even as the unions of the old decline and disappear. Contributors include Au Loong-Yu, Bai Ruixue, Shawn Hattingh, Piotr Bizyukov, Irina Olimpieva, Genese M. Sodikoff, Aviva Chomsky, Dario Bursztyjn, Gabriel Kuhn, Erik Forman, Steven Manicaster, Arup Kumar Sen, Verity Burgmann, Ray Jureidini, Meredith Burgmann, and Jack Kirkpatrick.

Signal Processing for Ge... Aug 08 2020 Increasingly sophisticated techniques are available for obtaining seismic sections that give an accurate description of subsurface heterogeneities. These techniques continue to benefit from the progress made in research by signal processing specialists. The aim of this book is to familiarize geologists and geophysicists with the basic concepts of signal processing used in seismic surveys. It shows the value of using a combination of tools to solve a given problem. Many of the examples in this book come from the latest research. Its goal is to improve understanding of the most common signal processing algorithms and to suggest a methodology for testing them. Sometimes, modeling with simple, well-known functions is a very useful way to understand the behavior of a transformation. In this way, we seek to provide the specialist with a critical approach for handling these algorithms. This book will encourage the exchange of information among geologists, geophysicists and signal processing researchers, and will provide them with invaluable technical know-how.

Kranti Nation Aug 27 2019 In the seventy years of its independence, India has leapfrogged to become a high-growth economy fuelled by advanced business and consumer technologies. Since smartphones and cloud computing became popular five years ago, the fourth industrial revolution has been creeping into almost all sectors of the Indian economy. Technologies like artificial intelligence, the Internet of Things (IoT), 3D printing, advanced robotics and neuroscience are transforming businesses faster than we realize. *Kranti Nation: India and the Fourth Industrial Revolution* is the first book to chronicle, through more than fifty examples, how visionary leadership in Indian industry is deploying these technologies. From water pumps to railway coaches, chai shops to burger chains, and telecom towers to warehouses, economic analyst Pranjali Sharma profiles organizations that have transformed their processes, products and services while delivering the best to consumers.

The Theory of Citrasutras in Indian Painting Jan 01 2020 The study of technical treatises in Indian art has increasingly attracted much interest. This work puts forward a critical re-examination of the key Indian concepts of painting described in the Sanskrit treatises, called citrasutras. In an in-depth and systematic analysis of the texts on the theory of Indian painting, it critically examines the different ways in which the texts have been interpreted and used in the study of Indian painting, and suggests a new approach to reading and understanding their concepts. Contrary to previous publications on the subject, it is argued that the intended use of such texts as a standard of critique largely failed due to a fundamental misconceptualization of the significance of 'text' for Indian painters. Isabella Nardi offers an original approach to research in this field by drawing on the experiences of painters, who are considered as a valid source of knowledge for our understanding of the citrasutras, and provides a new conceptual framework for understanding the interlinkages between textual sources and the practice of Indian painting. Filling a significant gap in Indian scholarship, Nardi's study will appeal to those studying Indian painting and Indian art in general.

Indian Architectural Theory Jun 17 2021 In this ground-breaking study the traditional Indian science of architecture and house-building, Vastu Vidya, is explored in terms of its secular uses, at the levels of both theory and contemporary practice. Vastu Vidya is treated as constituting a coherent and complete architectural programme, still of great relevance today. Chakrabarti draws on an impressive amount of textual material, much of it only available in Sanskrit, and presents several extremely valuable illustrations in support of the theories expounded. Each chapter deals with one architectural aspect, and chapters are divided into three sections. For each aspect, the first section explains the prescriptions of the traditional texts; the second section deals with the rather arbitrary use of that aspect by contemporary Indian architects trained in the western manner but striving to relate to Indian roots; while the last section in each chapter explores the selected use of that particular aspect by contemporary Vastu pundits, with their disregard for architectural idiom

The Vākāṭakas Nov 30 2019 Illustrations: 48 b/w and 1 colour plate and 3 maps Description: For now more than half a century, scholars of the history of Western art have become familiar with the idea that art is embedded in a social and cultural context which imbues it with meaning and as such may be viewed as a source which generates knowledge concerning this context; this again may result in a better understanding of the artefact itself. This synthetic method of investigation, known under the name of 'iconology,' has proved to be of great value in the research of the history of culture. The present book is an essay in which the 'classical age' of India is studied by exploring textual as well as archaeological sources that relate to the kingdom of the Vakatakas, the southern neighbours of the Guptas in the fourth and fifth centuries AD. A great number of inscriptions and Hindu sculptures have been discovered and published during the last two decades, giving a new dimension to our appreciation of the culture of the Vakatakas, who formerly were mainly renowned for the artistic achievements of the Buddhist monuments in Ajanta. Among these inscriptions the one found in the Kevala-Narasimha Temple on Ramtek Hill (Ramagiri) deserves special mention as it throws a flood of light on the political history of the Vakatakas and their relationship with the Guptas. This book draws on the new sculptural and epigraphical evidence in presenting a history of the Vakataka kingdom. The (Hindu) sculptures found in the eastern Vakataka realm are brought together for the first time in an illustrated catalogue, their findspots are surveyed, their iconography is studied and their link with Ajanta is pointed out. A scrutiny of contemporaneous Sanskrit texts underpins the sometimes extraordinary iconography of the images; in combination with the political history of the Vakatakas this results in a fascinating picture of the (religious) culture of a fourth- and fifth-century elite of Central India.

VASTU - DISCRIMINATE-OBSOLETE-FRADULENT Mar 03 2020 The word Vastu has become synonym for the intellectual degradation of Indian mind. Vastushastra which was in oblivion for thousands of years was salvaged to lime light a few decades ago. The Vastushastra which is descriminitive at its roots , obsolete in time and fraudulent in practice became contagious spreading from metropolitan cities to remote villages. It is very saddening that Vastushastra is thriving through the nurturing of the well educated class of India under the guise of ancient building science which was developed by great seers& sages to lead fruitful life on earth. Each and every success and failure , joys and pains of an individual are recognized through Vastu compliance of his/her house. The basic life experiences which provided the courage and inspiration to face the vagaries of one's life are condemned and taken over by Vastu compliance. In this age of science Vastushastra has devoured both literate and illiterate , uraban and rural population without any difference. The print and electronic media have become the vehicles of pseudoscience of Vastushastra bringing the fear that Indians may be losing their rationality. At this if juncture if we do not bring back the rationality of thinking , the life of common man will be in hands of Vastu pandits and experts mocking the intellectual maturity of Indian mind. In this book Author has shown in detail how Vastushastra is discriminative through its interwoven Varna (caste) system in building houses and obsolete for modern living. The fraudulent way of using Vastu by conman by pseudoscientific explanations to fleece the gullible public is highlighted. The evolution of Indian temples independent of Vastuhastra , the contrast between modern Architecture , Civil engineering are discussed in elaborate in the book.

In the Crucible of Chronic Lyme Disease Nov 03 2022 Following completion of his medical training and a one-year stint as attending physician on Howard Champion's Surgical Critical Care Service and MedStar Unit at Washington Hospital Center in the District of Columbia, Kenneth Liegner, M.D. returned to Westchester County, home of his Alma Mater, New York Medical College, to start a private practice. Unwittingly, he had 'plunked himself down' in the heart of a burgeoning epidemic of Lyme disease. His patients confronted him with puzzling syndromes that defied 'tidy' formulations of the illness and thrust him in to a Maelstrom of medical controversy. Lyme disease, a new poorly understood disease, emerged hand in hand with the rise 'managed care'. Physicians caring for persons with Lyme disease, loyal to the Hippocratic Oath and serving what they saw as patients' best medical interests, found themselves on a collision course with a new Corporate Medical Ethic dedicated to maximizing profit. One practitioner's work over 25 years is presented here along with correspondence with many principals in the field. Documentational in nature and not written as a narrative, the materials, nonetheless, convey the intensity of the struggle to characterize the nature of Lyme disease and the desperate fight for proper diagnosis and treatment upon the outcome of which patients' very lives depended. The volume includes protocols useful as reference materials for patients and practitioners alike, as well as photographic images of many persons important in the history of Lyme disease. Foreword by Pam Weintraub, Senior Editor of aeon digital magazine and author of award-winning book Cure Unknown: Inside the Lyme Epidemic. Preface by Paul W. Ewald, Professor of Evolutionary Biology at the University of Louisville and author of Plague Time.
