Luckenbach, MA, DD, associate minister and author of *I Only Walk On Water When It Rains* The grief that accompanies the loss of a loved one is crippling. In *Feeling Left Behind*, author Kim Murdock relates and empathizes with that pain because she's been there. She knows what it feels like to be woefully blindsided by music or at the grocery store, to reconsider the future alone, and to connect with a person who is no longer alive. You will relate to her chapters as she describes: • The crushing desire to freeze time and isolate yourself • The unstable phase of "firsts"? first holidays, birthdays, anniversaries • The anger and sadness at seeing other couples • The loss of self, empathy, security, and tolerance • The heartbreaking sadness of getting rid of their belongings • And so much more This is not a step-by-step guide on how to grieve. Kim outlines every detail of her experience as well as the experiences of her widow/widower friends to show you that you are not alone. You are normal. And you deserve as much time as possible to figure out how to survive in your own way. Voices of Lament Jul 27 2019 Our culture wants you to be happy. It rewards those who smile through the pain, who pretend

everything's fine, who compartmentalize grief and get on with life. But everything's not fine. And God does not expect us to pretend it is. He wants all of us--including our pain. Perhaps nowhere in Scripture do we get as full a picture of the heights and depths of the human experience as in the Psalms. The outpourings of emotion never shy away from the darkest moments of life, and yet they also point toward the light--toward the God in whom we place our hope. Inspired by Psalm 37, *Voices of Lament* is a powerful collection of reflections from Christian Women of Color on themes of injustice, heartache, and deep suffering. Their essays, prayers, poems, and liturgies lay bare the experiences of the oppressed even as they draw us into deeper intimacy with God and a more fulsome understanding of each other. For anyone who longs to better express and understand the beauty of lament held in holy tension with hope and love, this extraordinary collection presents both well-known and new voices from various ethnic and people groups and different generations, putting God's faithfulness on full and glorious display.

The Widowed Self Jun 05 2020 How do older women come to terms with widowhood? Are they vulnerable or courageous,

predictable or creative in dealing with this life challenge? Most books about widows usually focus on younger women; this book interweaves the voices of older widows their experiences and insights to show how they have come to terms with widowhood and have recreated their lives in new, unsuspected ways. The widows speak about how they relate to their children, their friends, to men. With powerful emotions they describe their husbands' final illnesses and deaths, and the challenging early days of widowhood. Disputing stereotypes about older women and widows, *The Widowed Self* allows the reader to visualize the impact of losing one's life partner and offers a new way of thinking about widowhood. This new book by Deborah Kestin van den Hoonaard fills a void in previous work on widowhood. Rather than seeing these women as unfortunate, passive victims of life, the reader will come to appreciate the strength and creativity with which these women face one of life's greatest challenges, a challenge that affects more than half of all women over the age of sixty-five. Widows and their families, scholars, social workers and other professionals who work with older adults will all be interested in reading *The Widowed Self: The Older Woman's Journey through Widowhood*.

Life After Death Jan 01 2020 Lisa Wilson traces the experiences of widows in a society that was developing a new ideology of proper female behavior. Using wills, court records, almshouse registers, correspondence, and diaries to explore the lives of widows during this period, Wilson alters our understanding of the diversity of women's experiences and adds a new dimension to the "separate spheres" explanation of gender roles. For this group of early American women, family concerns rather than the dictates of femininity lay at the core of their lives. The focus of this study, Chester County and Philadelphia between 1750 and 1850, provides a backdrop from which many types of widowed women can be observed. Philadelphia during this time was a growing urban center. With this growth came economic change and the beginning of industrialization. In Chester County, the traditional, family-centered farms remained crucial to the community, and yet small towns were beginning to emerge in the countryside. This study focuses on both city and country to better understand the circumstances of widows in two unique economic and social environments. Wilson contends that, despite the dictates of their gender, women had an active role to play within their families and within marriage. Her research shows that some women were involved in financial planning and management throughout their marriages and that their husbands' wills reveal an expectation of trust that their wives would exercise good judgment in maintaining the family property. While carrying on business activities outside the home challenged prevailing ideas of femininity, Wilson demonstrates that, for a widow, this concern was often secondary to the primary needs of her family.

The Titanic and the City of Widows it left Behind Aug 08 2020 When Titanic foundered in April 1912, the world's focus was on the tragedy of the passengers who lost their lives. Ever since, in films, dramatisations, adaptations and books, the focus has mostly continued to be on the ones who died. The Titanic and the City of Widows it Left Behind focuses on another group of people – the widows and children of the crew who perished on board. Author Julie Cook's great-grandfather was a stoker who died on Titanic. Her great-grandmother had to raise five children with no breadwinner. This book focuses on Emily and the widows like her who had to fight for survival through great hardship, whilst still grieving for the men they loved who'd died on the ship. Lifting the Taboo Oct 29 2019 Illuminated by a profound yet humorous vision, Lifting the Taboo explores the specific relationship women of many colors, cultures, ages, and sexual orientations have to their own deaths, their attitudes towards loss, and their

disposition to their role as primary care-givers to the dying. Specifically, the book weighs the implications of breast cancer and examines in detail Alzheimer's Disease which, contrary to popular myth, can in several significant ways be perceived as a women's disease. Investigating mothers' responses to children's deaths, Sally Cline establishes that women's relationships to death are intricately connected to the experience of giving birth. They are, she argues, therefore psychologically and emotionally different from those of men. Cline goes on to examine women's roles and responses to AIDS and suicide, women's sexual relationships while dying, how society views widows as leftover lives, and women's radical work in hospices and death therapy, as well as their roles as female funeral directors.
