Upsy Downsy Bella Ballerina Oct 21 2021 " Bella Ballerina is a "brown eyed beauty" and she is the center of attention in her family. Curious and very demanding like most toddlers, Bella Ballerina is a "fashionista," by her own right. Her favorite wardrobe selection would be her ballet outfit (especially the "tutu") on any given day. Her Mommy allows her to wear it several days a week. That is after she purchased a backup outfit, in case of an emergency (spill or tear) Bella feels at home in almost all settings, she is a toddler magnet, making new friends easily. However, the only thing she wants more than her pink tutu is "Down Hair." Bella wants her "kinky curly puff-balls" to somehow look like Mommy and her big Sissy's. Down hair as she calls it. Getting Mommy to realize what "down hair" for Bella Ballerina is her only real frustration. So read, smile, laugh and just imagine how at three years old you would have described your ideal hair do."

Girls, Texts, Cultures Mar 14 2021 This book focuses on girls and girlhoods, texts for and about girls, and the cultural contexts that shape girls' experience. It brings together scholars from girls' studies and children's literature, fields that have traditionally conducted their research separately, and the collaboration showcases the breadth and complexity of girl-

related studies. Contributors from disciplines such as sociology, literature, education, and gender studies combine these disciplinary approaches in novel ways with insights from international studies, postcolonial studies, game studies, and other fields. Several of the authors engage in activist and policy-development work around girls who experience poverty and marginalization. Each essay is concerned in one way or another with the politics of girlhood as they manifest in national and cultural contexts, in the everyday practices of girls, and in textual ideologies and agendas. In contemporary Western societies girls and girlhood function to some degree as markers of cultural reproduction and change. The essays in this book proceed from the assumption that girls are active participants in the production of texts and cultural forms; they offer accounts of the diversity of girls' experience and complex significances of texts by, for, and about girls.
