Trade and Regional Integration in South Asia Aug 28 2019 Gathering contributions from leading academics and international trade experts from South Asia, this book is dedicated to the late Dr. Saman Kelegma, whose untimely death in June 2017 left a huge void in the field of regional economic cooperation. Keeping in mind his enduring legacy regarding regional cooperation in South Asia, it covers issues related to the challenges of deeper regional integration in South Asia and proposes strategies to address these

challenges. It also offers an up-to-date, rigorous academic analysis of various issues related to low intra-regional trade in South Asia; prevalence of tariff barriers; incidence of a range of non-tariff measures; challenges of weak-trade-related infrastructure and the need for trade facilitation; the political economics of regional integration, highlighting how bilateral political relations affect the integration process; low level of intra-regional investment; South Asia's pattern of integration with the global and regional value chains; pattern and dominance of informal trade; and alternative regional integration initiatives in South Asia, such as the bilateral, regional, and sub-regional trade agreements within and countries outside this region.

Intended primarily for researchers and students of international trade, and policymakers from South Asia and beyond, the book is also a valuable supplementary reference resource for researchers and students. Furthermore, the pragmatic analysis of the policy options presented offers guidance for policymakers in South Asia wanting to implement effective policies and strategies for deeper regional integration.

How to Write Social Sciences Research Paper: For Students and Professionals Aug 01 2022 In a research project, the most critical part is writing the report in a way which presents not just our findings, but the process through which we arrived at these findings. It demands honesty about our research design and our perspectives, so that others can understand not just the research we have produced, but something about the way in which we have produced it. When carrying out research it is all too easy to become embroiled in our own research questions and objectives, so that when it comes to presenting our research we forget about situating it within the wider body of knowledge. For the lack of proper knowledge, many people find it difficult to writing up their paper. This book is intended to help you organize and write a quality research paper for Social Sciences. This book also gives you the idea about research design.

A Universal Template for Research Position and Life Experience Papers Sep 02 2022 The self-descriptive title, A Universal Template For Research Position and Life Experience Papers, implies that there is a position that writers take in even the simplest of essays. As such, Template provides an opportunity to accomplish two tasks at once: consider the definitive differences between Research, Position, and Experience papers, and explore the issues that impound and empower contemporary urban education. Dale Benjamin Drakeford provides an interactive workshop to guide student writing on any social science subject. Agreeing with many scholars that public and free pedagogy is indispensable, the author also argues that there is no wrong or right in scholastic debate, only correct presentation of objective thoughts or non-objective attitudes. This the author says, is what is sometimes forgotten in the heat of getting ideas on paper. Hence, Template provides structure for planning papers, and in-process cues for staying on task to complete them with proper formality.
