making approach to the material. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers.

Teeter Totter Accounting focuses primarily on journal entries that can be viewed graphically in the form of a Teeter Totter. This should help users obtain a mental picture of the process. This mental picture is believed to be the key to unlocking the mystery behind the double entry accounting system. The book assumes the reader has a working knowledge of basic accounting including the accounting equation $\text{Assets} = \text{Liability} + \text{Owner's Equity}$.
