Dictionnaire G é ographique, etc. Nouvelle é dition ... augment é e ... par le citoyen Leclerc Nov 21 2021 New Actors and Alliances in Development Jun 16 2021 This collection brings together an interdisciplinary group of scholars exploring how development financing and interventions are being shaped by a wider and more complex platform of actors than usually considered in the existing literature. The contributors also trace a changing set of key relations and alliances in development - those between business and consumers; NGOs and celebrities; philanthropic organizations and the state; diaspora groups and transnational advocacy networks; ruling elites and productive capitalists; and between ' new donors ' and developing country governments. Despite the diversity of these actors

and alliances, several commonalities arise: they are often based on hybrid transnationalism and diffuse notions of development responsibility; rather than being new per se, they are newly being studied as engaging in practices that are now coming to be understood as 'development'; and they are limited in their ability to act as agents of development by their lack of accountability or pro-poor commitment. The articles in this collection point to images and representations as increasingly important in development 'branding' and suggest fruitful new ground for critical development studies. This book was originally published as a special issue of *Third World Quarterly*.

The SAGE Encyclopedia of Alcohol Aug 26 2019 Alcohol consumption goes to the very roots of nearly all human societies. Different countries and regions have become associated with different sorts of alcohol, for instance, the "beer culture" of Germany, the "wine culture" of France, Japan and sake, Russia and vodka, the Caribbean and rum, or the "moonshine culture" of Appalachia. Wine is used in religious rituals, and toasts are used to seal business deals or to celebrate marriages and state dinners. However, our relation with alcohol is one of love/hate. We also regulate it and tax it, we pass laws about when and where it's appropriate, we crack down severely on drunk driving, and the United States and other countries tried the failed "Noble Experiment" of Prohibition. While there are many encyclopedias on alcohol, nearly all approach it as a substance of abuse, taking a clinical, medical perspective (alcohol, alcoholism, and treatment). *The SAGE Encyclopedia of Alcohol* examines the history of alcohol worldwide and goes beyond the historical lens to examine alcohol as a cultural and social phenomenon, as well—both for good and for ill—from the earliest days of humankind.

Folklore Studies of Traditional Chinese House-Building Aug 19 2021 This book provides extensive information on craftsmen-built houses in China. Though some inroads have been made in studying this folk custom, this work represents the first comprehensive and systematic monograph. The book examines the topic at the two main levels of "history" and "theory". Combining historical textual research, contemporary textual research, and field study, the book presents systematic information on the folk custom of craftsmen-built houses in China. At the level of theoretical research, it puts forward some original opinions on the major theoretical issues, such as the folk custom of religious belief, the boundary between superstition and religion, and the relationship between oral literature and ritual. The book provides a guide to help readers systematically understand the folk custom of craftsmen-built houses in China. Sharing valuable insights into Chinese architectural history, as well as religious studies, cultural anthropology, and folklore, it will appeal to researchers in the fields of folklore, cultural anthropology, and architecture and can also serve as a popular science book for understanding Chinese architectural culture.

Financial and Managerial Accounting May 16 2021 Needles/Powers/Crosson's FINANCIAL AND MANAGERIAL ACCOUNTING, 10e, International Edition continuously evolves to meet the needs of today's learner. This edition's new structure is based on research about how to deliver content to students and how to mirror the way instructors have told us they teach. The authors have organized this edition into a new three-section approach: 1. The CONCEPTS section focuses on the overarching accounting concepts that require consistent reiteration throughout the course. 2. The ACCOUNTING APPLICATIONS section helps students apply the accounting procedures with features such as "Apply It!" and a new transaction analysis model. 3. The BUSINESS APPLICATIONS section illustrates how concepts and procedures are used to make real-world business decisions. As students walk through the new three-section approach, they gain extra practice with new corresponding TriLevel Problems within CengageNOW. These problems mirror the three sections in each chapter—Concepts, Accounting Applications, and Business Applications—to foster a complete understanding of each section. These substantial changes make students more efficient learners and prepare them to face a business world that is increasingly complicated by ethical issues, globalization, and technology.

Being Aug 07 2020 Miriam Knibbeler maakt al langer furore met haar intrigerende wassen beelden van dieren en mensenfiguren. Haar bijna altijd kwetsbare wezens roepen zowel ontroering als vervreemding op en laten het publiek zelden onberoerd. Ook de museale wereld heeft haar originele kwaliteiten ontdekt. Zo kocht Museum More twee werken van haar hand, waaronder het beeld Ortus,

een vier meter lange, liggende babyneushoorn. Deze uitgave is een hybride vorm van een documentaire presentatie in een kunstenaarsboekachtige verschijningsvorm: eigenwijs van vorm (een gebrocheerd boek met meegenaaide schutbladen in plaats van een normaal kapt en een ruwe ?blote? rug) en indeling (geen traditionele volgorde maar een verzameling van aspecten en afbeeldingen die een geheel eigen sfeer creëren rond haar werk) . Duidelijk geregisseerd door de maker zelf met haar eigen opvatting over hoe ze haar werk aan het publiek wil laten zien.

Routledge Library Editions: George Eliot Sep 07 2020 This set reissues 5 books on George Eliot originally published between 1963 and 1989. This set will be of particular interest to students of literature.
