Tools for Decision Making Jan 24 2022 Known for encouraging step-by-step problem solving and for connecting techniques to real-world scenarios, David Ammons' *Tools for Decision Making* covers a wide range of local government practices—from the foundational to the advanced. Brief and readable, each chapter opens with a problem in a hypothetical city and then introduces a tool to address it. Thoroughly updated with new local government examples, the second edition also incorporates chapters devoted to such additional techniques as sampling analysis, sensitivity analysis, financial condition analysis, and forecasting via trend analysis. Numerous tables, figures, exhibits, equations, and worksheets walk readers through the application of tools, and boxed features throughout each chapter present other uses for techniques, helpful online resources, and common errors. A handy guide for students and an invaluable resource and reference for practitioners.

Managing Automotive Businesses: Strategic Planning, Personnel and Finances

Jul 26 2019 The success of any organization most often depends on the execution and management of such strategic issues as business development, personnel and fiscal operations. This new book introduces readers to the duties and practices assigned to service managers in the successful operation of an automotive service facility.

Coverage begins with a general discussion of the management structure and the service manager's role in facility operations. Consideration is then given to navigation of the personnel process from the recruitment of workers to supervision of their performance. The financial business practices of a service manager familiarizes readers with the importance of fiscal responsibility in the operation of a lucrative automotive service business.
