## **Maritime Sri Lanka: Historical And Contemporary Perspectives**

Oct 31 2019

Being an island nation, the ocean is never too far from Sri Lanka. Situated right at the center of the world's busiest sea lanes of communication, the geography connects the country with the Indian Ocean, and its destiny is linked to this strategic body of water. For centuries, the Indian Ocean has been part of Sri Lanka's strategic, security, and political narratives. However, over the years, the country's involvement in the affairs of the Indian Ocean has retracted due to domestic and regional circumstances. Its consciousness of its ocean identity declined when it took an inward orientation which gave greater visibility to its South Asian identity, and its own imagination began to pivot towards the Indian hinterland. However, with the rising importance of the Indian Ocean in geopolitics, and with the end of the civil war, Sri Lanka's consciousness of its ocean identity has grown. Successive governments have formulated policies that would have paved its way to become the hub of the Indian Ocean, making the ocean the center of its economic development, maritime security, and defense relations. Amidst this backdrop, this book explores historical and contemporary perspectives on Sri Lanka's relations with the Indian Ocean.

[The Challenge of Youth Employment in Sri Lanka](#) Jan 03 2020 Sri Lanka has long been regarded as a model of a successful welfare state in a low-income setting, yet it has not succeeded in creating a sufficient number of good jobs for the increasing number of young people. Hence, young Sri Lankans perceive their country as an unjust and unequal society, in which mainstream institutions have failed to address inequalities in the distribution of resources, as well as of benefits deriving from economic growth. Against this background, 'The Challenge of Youth Employment in Sri Lanka' aims to identify ways to improve the opportunities available to new job market

entrants by addressing existing inequalities and to help young people more fully realize their potentials. Drawing from original research and a review of existing studies, the authors use the 4Es conceptual framework to analyze four key aspects of labor markets employment creation, employability, entrepreneurship, and equal opportunity identifying main issues and results, current trends, and possible new approaches.

#### **Estimating Sri Lanka's Potential Output**

May 07 2020 In this paper we present various techniques to estimate Sri Lanka's potential output and output gap, including statistical and model-based approaches. Compared to conventional statistical filters that rely exclusively on information in a single series, the model-based approaches allow potential output estimates to incorporate information contained in observable data series including inflation, actual output, unemployment and capacity utilization. The estimation results suggest that Sri Lanka's potential output has risen slightly in the last few years.

#### **Mumkin Bukra: Memoirs of a Sri Lankan Housemaid**

Sep 10 2020 Raised by her widowed mother in a Tamil village in the Eastern Province of Sri Lanka, "Sandy," born Pooranam Elayathamby, grew up in poverty with her five sisters. Married at sixteen, she had three children before twenty and was widowed by age thirty. In the middle of a frightening twenty-year civil war that claimed the lives of tens of thousands of people and left her family destitute, Sandy had no choice but to accept a housemaid job in the Middle East,

working in Kuwait and Saudi Arabia for nearly fifteen years, to send money home. She was one of the thousands of Sri Lankan women who risked being bullied, humiliated, and beaten by joining the workforce serving Middle Eastern households. Mumkin Bukra -- Arabic for "perhaps tomorrow" -- recounts Sandy's struggle to save her family, her home, and herself through several decades shaped by poverty, severe cultural adversities, and the horrors of a frightening civil war. In this candid true story that will leave readers astounded by the human will, Sandy recounts the events that defined and shaped her life as a worker with little rights abroad. Hers is a story of courage, personal risk, and an unwavering faith and belief in herself and in God's help for those who choose to endure. It is also the story of a mother who does anything she can to support her children and improve their lives.

Jun 07 2020 **Status and future direction of water research in Sri Lanka: proceedings of the National Conference held at the BMICH, Colombo, Sri Lanka, 4-6 November 1998.** Feb 25 2022 The papers in this volume were presented at the first National Workshop on the Status and Future Directions of Research pertaining to the water sector in Sri Lanka, held at the Bandaranaike Memorial International Conference Hall, Colombo, Sri Lanka during 4-6 November, 1998. The aim of the conference was for policy makers and senior water managers in Sri Lanka to share and discuss the findings, implications and uses of current research dealing with any aspect of water, and to prioritize future research needs, develop a national water research strategy and initiate a network of water researchers in Sri Lanka and abroad to carry out relevant research in the future. In selecting papers for the conference, priority was given to those authored by persons who had limited opportunities to disseminate their research findings or share empirical experiences. Although the main language of the conference was English, authors were specifically encouraged to present papers in either Sinhala or Tamil.

#### **Sri Lankan Housemaids in Lebanon**

Oct 12 2020 This study unravels the real dynamics at stake within the Lebanese Madame/Sri Lankan housemaid relationship. Unraveled in this book are the real dynamics at stake in the Madame/housemaid relationship. While cases of extreme physical abuse by the Lebanese women who hire housemaids - Madames - are an exception, what has become normalised are more insidious patterns of domination used to control each and every aspect of their employees' lives. For their part, Sri Lankan housemaids are not merely passive victims. Away from direct provocation and first-hand repercussions, they try to deflect what Pierre Bourdieu has called 'symbolic violence'. These attempts at 'everyday forms of resistance', as defined by James Scott, can help loosen their employers' grip. Yet, as this unprecedented study shows, the Madame/housemaid relationship and the rules that govern it remain under the managerial hold of the Madame. *Sri Lanka Customs, Trade Regulations and Procedures Handbook Volume 1 Strategic and Practical Information* Mar 17 2021 2011 Updated Reprint. *Sri Lanka* Oct 04 2022 This Background Paper on Sri Lanka provides information on the economic developments during 1992-95.

Developments in the domestic and external sectors are discussed. The deficiencies of the official consumer price index that resulted in a substantial understatement of inflation performance in 1994 and alternative estimates of underlying inflation are described. The structural rigidities in the labor market that perpetuate high unemployment and limit job growth are also described. The paper also examines fiscal sustainability, which emerged as the key medium-term policy objective.

#### **Architecture and Nationalism in Sri Lanka**

Nov 24 2021 The role of the home, the domestic sphere and the intimate, ethno-cultural identities that are cultivated within it, are critical to understanding the polemical constructions of country and city; tradition and modernity; and regionalism and cosmopolitanism. The home is fundamental to ideas of the homeland that give nationalism its imaginative form and its political trajectory. This book explores positions that are vital to ideas of national belonging through the history of colonial, bourgeois self-fashioning and post colonial identity construction in Sri Lanka. The country remains central to related architectural discourses due to its emergence as a critical site for regional architecture, post-independence. Suggesting patterns of indigenous accommodation and resistance that are expressed through built form, the book argues that the nation grows as an extension of an indigenous private sphere, ostensibly uncontaminated by colonial influences, domesticating institutions and appropriating rural geographies in the pursuit of its hegemonic ideals. This ambitious, comprehensive, wide-ranging book presents an

*The Search for Justice* Sep 03 2022 At the end of a quarter century of conflict, over 100,000 Sri Lankans have died and thousands of survivors have been victims of sexual violence. The subsequent cry for justice cannot be ignored. In *The Search for Justice*, a collection of writers and activists look to history and contemporary politics to examine the root causes of sexual violence in Sri Lanka. Offering an analysis of the polarizations created around ethnic and linguistic identities during the war years and an examination of the routine violence toward women, the authors argue powerfully that Sri Lankan women must not be treated only as victims, but as potential and actual agents of change. Edited by Kumari Jayawardena and Kishali Pinto-Jayawardena, the volume points to a hitherto unaddressed aspect of sexual violence: that of the structures and systems that enable impunity on the part of perpetrators. Whether they are security personnel and paramilitary forces, members of armed groups and gangs, local politicians and police, or, often, ordinary citizens including close family members, perpetrators operate with impunity. *The Search for Justice* is a compelling new installment in the Zubaan Series on Sexual Violence and Impunity in South Asia.
