De grit factor Oct 14 2021 Waarom hebben getalenteerde mensen vaak moeite om hun doelen te bereiken terwijl minder begaafde individuen soms zonder slag of stoot verbazingwekkende prestaties leveren? Op basis van haar eigen verhaal als dochter van een wetenschapper die zich vaak beklagde over haar vermeende gebrek aan intelligentie, beschrijft Angela Duckworth haar loopbaan door het onderwijs, de consultancybusiness en de neurowetenschap. Het leidde tot de hypothese dat werkelijk succes vooral ontstaat door een speciale mix van volledige overgave en de vastberadenheid om te werken aan je langetermijndoelen: grit. In dit boek doet Duckworth, winnaar van de prestigieuze MacArthur Genius Award, haar theorie uit de doeken en helpt ze iedereen om aan de hand van zes kernwaarden hun eigen grit-factor te bepalen: hoop, inspanning, precisie, passie, rituelen en prioriteiten. Grit gaat voorbij aan clichés als 'succes is vooral hard werken' en biedt een frisse en motiverende manier om zelf ongekende resultaten te behalen.

De kolibrie Jun 17 2019 Boek van het Jaar in Italië Corriere della Sera Al sinds zijn jeugd wordt Marco Carrera, die als kind een groeistoornis had, de kolibrie genoemd, naar een van de kleinste vogels ter wereld. Maar in zekere zin is Marco ook echt een kolibrie: hij lijdt een dramatisch bestaan, vol vreugdes, liefdes en de nodige pijn, maar hij blijft in evenwicht. Zijn hectische bewegingen stellen hem in staat de existentiële acrobatiek van het leven te doorstaan, net als de kolibrie, die twaalf tot tachtig vleugelslagen per minuut maakt, maar schijnbaar bewegingloos in de lucht blijft hangen. In De kolibrie volgen we ademoos de levensloop van Marco Carrera, een held van onze tijd zoals alleen Sandro Veronesi die uit zijn pen kan laten ontstaan. Het is een schitterende roman over pijn en de kwellende kracht van het leven, die door de belangrijkste krant van Italië, de Corriere della Sera, uitgeroepen werd tot Boek van het Jaar. Sandro Veronesi (1959) werd met romans als Kalme Chaos, XY en Zeldzame aarden wereldwijd een literaire publiekslieveling - en bestsellerauteur. Hij won in de loop der jaren verschillende grote prijzen, waaronder de Premio Strega, de Premio Campiello, de Prix Femina Étranger en de Premio Bagutta. 'Deze roman zou in de ruimte moeten worden gelanceerd om buitenaardse wezens te laten weten hoe we waren, hoe we zijn geweest, hoe we hadden willen zijn. Uit deze roman, vol toevalligheden en fatale en kwaadaardige botsingen, leer je de moeilijkste les van het leven: hoe je kunt sterven en toch kunt blijven leven.' Corriere della Sera 'Het is een krachtige roman die betovert en beweegt op voorouderlijke en onvoorspelbare levenskracht.' La Stampa 'Een krachtige roman.' Il Sole 24 Ore Over Kalme chaos: 'Meesterlijk, want scherpzinnig en onweerstaanbaar grappig door zijn feilloze gevoel voor schijnbaar onbenullige details, beschrijft Veronesi hoe Pietro de kalme chaos, dat wachten op de storm van verdriet die maar niet komt, ondergaat.' de Volkskrant

Influencing Organizational Effectiveness Jan 05 2021 In this book Linda Holbeche offers an historical narrative on the changing landscape of work since the 1980s and considers how definitions of organizational effectiveness have changed over time. She considers the characteristics and effects of the neo-liberal work culture of new capitalism, and how HRM practices have contributed to shaping this work culture. Influencing Organizational Effectiveness challenges mainstream thinking around business strategy, change and organizational effectiveness, and about the roles of HRM and management. While the overall tone of the book is critical, Holbeche argues that HRM can play an active role in giving voice to employees and advancing organizational effectiveness. Grounded in research, this book includes reflective questions, case studies and helpful guidelines to support HRM and organizational development professionals and master's-level students. It illustrates what 'better' might look like and how HRM can contribute to a new definition of effectiveness which is aligned to the needs of modern organizations.

Bullshit jobs Aug 24 2022 Dankzij de technologie kunnen we voor de werkelijke productiebehoefte ongeveer met een vijftienurige werkweek toe, en toch werken we allemaal volle dagen. Een groot deel van ons werk moet dus wel bullshit zijn, stelde antropoloog David Graeber in een online artikel. De reacties waren explosief: heel veel mensen – over de hele wereld – bleken het fenomeen te kennen. Nota bene: een bullshit job is een baan waarvan de persoon zelf weet en vindt dat het een onzinbaan is. Graeber beschrijft in dit boek het hoe en waarom van deze banen, die voortkomen uit het kapitalisme maar er eigenlijk haaks op staan (ze zijn niet productief en lijken dus meer op de werkverschaffing in het voormalige Oostblok). Een andere bron van onzinbanen is onze calvinistische overtuiging dat werkloos zijn slecht is. De geciteerde verhalen zijn hilarisch en tragisch tegelijk, en Graebers betoog is uniek in zijn helderheid en scherpte. Voor iedereen die anders wil kijken naar werk, kapitalisme en zingeving is dit boek een must-read.

The Dilemmas of Lone Motherhood Oct 02 2020 In today's society, women - having entered the workplace in growing numbers worldwide - are increasingly expected to earn wages whilst still being primarily responsible for raising children. While all parents confront the tensions of this double burden, for lone mothers, the situation can be especially acute as there is no other adult to share responsibilities and no access to a male wage. The revealing essays in this volume address a range of the dilemmas lone mothers routinely face, whilst also distinguishing important situational differences, and considering other social perspectives. It asks: * How can governments help without undermining their ability to enter the workforce? * Should the state indefinitely support lone mothers? * How should we measure the success of a policy? * What roles do ethnicity, race, religion, class and sexual orientation play? The

impressive range of contributors to this volume speak from numerous contrasting perspectives. Here they study a variety of international settings such as Sri Lanka, the US, Germany, England and Norway, and in so doing, they allow the reader to draw powerful conclusions by comparing such issues and potential resolutions in varying countries and contexts. This book was previously published as a special issue of *Feminist Economics*.

Married to the Job (RLE Feminist Theory) Feb 24 2020 Married to the Job examines an important but under-researched area: the relationships of wives to their husbands' work. Janet Finch looks both at the way women's lives are directly affected by the work their husbands do and how they can get drawn into it. These she sees as the two sides of wives' 'incorporation'. Dr Finch discusses a wide range of occupations, from obvious stereotypes – services, diplomatic, clergy and political wives – to more subtle but equally valid shades of involvement – the wives of policemen, merchant seamen, prison officers, the owners of small businesses and academics. She stresses that this process is by no means confined to the wives of professional men; she argues that the nature of the work done and the way it is organised are more important pointers to the ways in which wives will be incorporated. For specific illustrations, Dr Finch draws substantially on her own original research on wives of the clergy. *Married to the Job* clearly shows that marriage itself (not just child-bearing) is an important feature of women's subordination. Dr Finch points to the links between husband's work, the family and its relationship to economic structures, and suggests that wives are tied into those structures as much as anything through their vicarious involvement in their husband's work. She views any prospects for change with caution. The organisation of social and economic life makes it difficult for wives to break free from this incorporation even should they wish to; it makes economic good sense for them to continue in most cases; social life is organised so as to make compliance easy; and it provides a comprehensible way of being a wife. As an empirically-based survey of women's subordination within marriage, *Married to the Job* will prove essential reading to all those concerned about the position of women, whether feminists, academics or general readers. It will also provide important background material for undergraduate courses on women's studies, the sociology of the family, the sociology of work and family policy.

How to Create a Culture of Achievement in Your School and Classroom Apr 20 2022 What does it feel like to walk into your school? Is it a welcoming place, where everyone feels valued? Most school improvement efforts focus on academic goals, instructional models, curriculum, and assessments. But sometimes what can make or break your learning community are the intangibles--the relationships, identity, and connections that make up its culture. Authors Fisher, Frey, and Pumpian believe that no school improvement effort will be effective unless school culture is addressed. They identify five pillars that are critical to building a culture of achievement: 1. Welcome: Imagine if all staff members in your school considered it their job to make every student, parent, and visitor feel noticed, welcomed, and valued. 2. Do no harm: Your school rules should be tools for teaching students to become the moral and ethical citizens you expect them to be. 3. Choice words: When the language students hear helps them tell a story about themselves that is one of possibility and potential, students perform in ways that are consistent with that belief. 4. It's never too late to learn: Can you push students to go beyond the minimum needed to get by, to discover what they are capable of achieving? 5. Best school in the universe: Is your school the best place to teach and learn? The best place to work? Drawing on their years of experience in the classroom, the authors explain how these pillars support good teaching and learning. In addition, they provide 19 action research tools that will help you create a culture of achievement, so that your school or classroom is the best it can be. After reading this book, you'll see

why culture makes the difference between a school that enables success for all students and a school that merely houses those students during the school day.

Making War at Fort Hood Mar 07 2021 An intimate look at war through the lives of soldiers and their families at Fort Hood *Making War at Fort Hood* offers an illuminating look at war through the daily lives of the people whose job it is to produce it. Kenneth MacLeish conducted a year of intensive fieldwork among soldiers and their families at and around the US Army's Fort Hood in central Texas. He shows how war's reach extends far beyond the battlefield into military communities where violence is as routine, boring, and normal as it is shocking and traumatic. Fort Hood is one of the largest military

installations in the world, and many of the 55,000 personnel based there have served multiple tours in Iraq and Afghanistan. MacLeish provides intimate portraits of Fort Hood's soldiers and those closest to them, drawing on numerous in-depth interviews and diverse ethnographic material. He explores the exceptional position that soldiers occupy in relation to violence--not only trained to fight and kill, but placed deliberately in harm's way and offered up to die. The death and destruction of war happen to soldiers on purpose. MacLeish interweaves gripping narrative with critical theory and anthropological analysis to vividly describe this unique condition of vulnerability. Along the way, he sheds new light on the dynamics of military family life, stereotypes of veterans, what it means for civilians to say "thank you" to soldiers, and other questions about the sometimes ordinary, sometimes agonizing labor of making war. Making War at Fort Hood is the first ethnography to examine the everyday lives of the soldiers, families, and communities who personally bear the burden of America's most recent wars.

A Society Fit for Human Beings Sep 20 2019 Argues for a humanistic cultural reformation to counter our materialistic values and science-dominated intellectual life and shows how this would affect our lives and transform our society. A Society Fit for Human Beings contends that there is a profound incoherence in the foundations of modern Western civilization and that we are on a self-destructive course. With the quest for wealth and power our dominant concern, we find ourselves with a flourishing economy and a supreme military force based on science and technology, but with our moral, civic, and religious culture undermined by our way of comprehending the world. Our human identity is problematic, the wells of meaning that nourish the human spirit are polluted or drying up, and the social order is in disarray. This situation, E. M. Adams argues, requires nothing less than a historic cultural revolution based on a shift in priorities from wealth and power to humanistic values -- those grounded in selfhood and lived experience that are essential for human growth, meaningful lives, and a healthy society. Such a shift in our governing values would require a restructuring of our intellectual vision of humankind and the world in terms of humanistic categories This book shows the import of such a humanistic cultural revolution for our human identity, morality, the social order, and our major institutions, including the family and community, education, the economy, the government, the military, and religion. It outlines how we can work toward such a cultural revolution and develop a constructive postmodern civilization with a society fit for human beings.
