Management Control Systems and Cross-Cultural Research Jul 23 2022 A fundamental challenge that management faces in the twenty-first century is how to exercise adequate control, i. e. how to guide and direct the behaviour of their subordinates. With increasing globalisation firms witness a cross-cultural impact too. Of particular interest is the question of whether to use the standardized form of control similar to the home base of firms or whether to adapt their control practices to the local specificities. Given the meagre state of the literature in management control with a cross-cultural emphasis, this study addresses a real world problem, namely the question whether management control practices are configured similarly or differently across cultures. Relying on a generalized industry sample across four countries (Belgium, Canada, Germany and Poland), this study sought to shed light on one of the more intriguing questions – "does culture matter" – for specific control areas, in particular for performance measurement, performance evaluation and reward systems. The theoretical foundations are grounded in the cultural framework of the GLOBE project accompanied by thoughts of new institutionalism, stakeholder theory and contingency thoughts. Hypotheses are tested by mean comparisons (ANOVA, ANCOVA). The empirical findings highlight cultural differences for a broader set of control practices and deliver new insights into the intersection of culture and management control. This dissertation crafts a novel topic with high relevance for both researchers and practitioners. The study demonstrates areas for which management control practices should be adapted to the local needs and areas for which those practices could be harmonized in the whole company. This monograph stresses some areas in which future empirical cross-cultural research can benefit, and some areas where conceptual thoughts could be advanced.

Blijf bij me Aug 20 2019 Er zijn dingen die zelfs de liefde niet kan doen. Als de last te zwaar is en te lang aanhoudt, krijgt zelfs de liefde barsten, scheuren, tot zehij bijna breekt en dat soms ook doet. Maar zelfs als zehij in duizend stukjes aan je voeten ligt, wil dat nog niet zeggen dat het niet langer liefde is. br? Yejide hoopt op een wonder, op een kind. Dat is het enige wat haar echtgenoot en schoonmoeder willen en ze heeft alles al geprobeerd: zware pelgrimstochten, medische afspraken, dansen met profeten en vurige gebeden. Als haar schoonfamilie aandringt op een echtgenote erbij, knapt er iets in Yejide. Hoe moet haar huwelijk standhouden onder deze druk? Ze raakt uiteindelijk zwanger, maar tegen een veel hogere prijs dan ze ooit had gedacht.br

Chapter 6 lists 30 teaching strategies drawn from the cross-cultural literature and adapted for teacher preservice and inservice training. It also details exercises for role playing, critical incidents, case studies, simulation, and group discussion. Chapter 7 presents procedures for the evaluation of cross-cultural training and education. The manual also includes a 65-item annotated bibliography and film list. (CM)

Cross-Cultural Marketing May 29 2020 Cross-cultural marketing is an important element of the contemporary business environment. Many conventional accounts of the topic have conflated cross-cultural and cross-national marketing, but in this groundbreaking, new book, Burton argues that these generalizations have little meaning given the extent of multi-culturalism in many societies. Given the importance of new emerging markets in the Far East, Middle East, Asia and Latin America, this book raises important questions about the applicability of existing marketing theory and practice, which was originally developed using the model of Western society. An extensive range of cross-cultural marketing issues is addressed, including: Cross-cultural consumer behaviour Cross-cultural management practice Promotional

strategies Product development Distribution Marketing research methods Cross-cultural Marketing offers a new, more complex and sophisticated approach to the important challenges for existing marketing theory and practice and their continued relevance for stakeholders. As such, it is an invaluable text for students of international and cross-cultural marketing, as well as for practitioners who wish to assess new developments in the field.

A Cross-Cultural Analysis of Help-Seeking for Symptoms of Depression in Japanese Primary School Teachers May 09 2021 This cross-cultural study investigates help-seeking for depression among Japanese primary school teachers. Help-seeking for depressive symptoms is examined quantitatively by administering the Help-Seeking Scale for Depression among participants. In addition, this study qualitatively examines the help-seeking pathways of participants according to Kleinman's explanatory model of help-seeking. The objective of the study was to determine possible motivators for Japanese and other Asian people to seek professional help for symptoms of mental illness. The participants consisted of 71 Japanese school teachers from four primary schools located in the Kansai region of Japan. Participants' conceptualizations of depression were assessed using the Help-Seeking Scale for Depression (HSSD) after reading a vignette describing depressive symptoms. Participants' perceived severity of depressive symptoms (hypothesis 1) and prior therapy/counseling experience (hypothesis 2) significantly predicted professional help-seeking. The prevalence of depression was significantly higher in female participants (hypothesis 3); results indicating prevalence were non-significant for males. Hypotheses 1 and 2 were supported at p

Management of Cross Cultural Teams Aug 12 2021 Seminar paper from the year 2015 in the subject Business economics - Business Management, Corporate Governance, grade: 1,3, University of Applied Sciences Essen, language: English, abstract: The future development makes clear that to work on a global level becomes indispensable for companies with a specific size. To get a grip on that task it is necessary to find a strategy beforehand. For this, in the management of MCTs, it is required to have an overview of the all kinds of problems to process matching solutions. In relation to the culture of the team members there are several specific forms of behavior and perception distributed onto multiple levels. The manager or the project leader has to observe the variables and the interactions and it is necessary to be open-minded. The knowing of the cultural diversity can also help the employees themselves to avoid team internal problems and get a better understanding of their team members. The main problem with the topic is that the cultural aspect is only one part of the challenge. In addition there are personality-based factors. So the introduced strategies can just be considered as guidelines. It is essential to adjust the strategy accordingly. When a manager does this conscientious he can lead the team to a high performance level. It is also possible that the performance of MCTs gets higher than the performance of same cultural teams because some team members are able to settle the weaknesses while the strengths of all team members can be combined.

Global Perspectives in Cross-Cultural and Cross-National Consumer Research Jan 05 2021 Global Perspectives in Cross-Cultural and Cross-National Consumer Research deals with several important issues crucial for greater understanding of international and cross-cultural consumer behavior. This understanding in turn can provide international marketers with valuable insights, such as conditions under which globalization may or may not work. The coverage in this book is interdisciplinary in nature, and the chapters discuss several constructs (intermediary variables, processes, and also other environmental influences) related to social, personal, and psychological components or consequences of culture. The book begins with a conceptual model of the effect of culture on consumer behavior, with the components and consequences of the cultural influences clearly identified in terms of social, personal, and psychological factors. The following chapters discuss general issues related to globalization and standardization, present conceptual approaches to propositions relating to multicultural contexts, and address consumer complaining behavior and responses to advertising.

There are five chapters on empirical and methodological studies conducted in specific pairs of countries, with data obtained from Canada, Denmark, Japan, Germany, Poland, Romania, and the United States. In presenting readers with new information, Global Perspectives in Cross-Cultural and Cross-National Consumer Research spans these specific topics: the nature of cultural influence on consumer behavior globalization versus customization of international marketing strategy individualism versus collectivism right versus left symbolism product involvement consumer response to information technology interdependent versus independent cultures The contributors are well-known scholars in the international/cross-cultural marketing field; their chapters present state-of-the-art developments in this area. The coverage of the material is interdisciplinary in nature and is likely to benefit a broad audience, especially academic researchers in international or cross-cultural consumer research and librarians of research-oriented schools, universities, or organizations.

Organizational Psychology in Cross Cultural Perspective Nov 15 2021 The last two decades have seen an explosive increase in the ethnic diversity of the workforce, growth in international business, and the emergence of many more multinational companies. The potential for problems as companies operate across borders and managers manage in countries which have different values, norms and cultural behaviors is great. By looking at organizational psychology in a cross-cultural context, we can gain an understanding of the challenges facing organizations and business today. This text breaks new ground in introducing organizational psychology from a cross cultural perspective. It provides a foundational overview of the current major theories in organizational psychology, and illuminates the impact of cultural differences on organizational dynamics. It also makes available specific research concerning our current understandings of how these dynamics play out in particular regions and countries, such as autocratic versus democratic leadership styles in Africa and Europe or conflict management in Asia. The volume offers a welcome introduction to the topic to those in industrial/organizational psychology, international relations and management, and international business/MBA programs focusing on international issues.

The Cross-cultural Communication Trainer's Manual Sep 01 2020 The global market means that many organizations now have offices, affiliates, suppliers, call centres, clients and customers in a wide range of countries and cultures. Employees at a variety of levels are expected to have as good skills in cross-cultural working as in any other key competency. The Cross-Cultural Communication Trainer's Manual provides a complete toolkit for the trainer/facilitator needing to design and deliver cross- or inter-cultural training, for both mono- and multicultural audiences. Volume One: Designing Cross-Cultural Training The first volume in this two-volume set opens with an outline of useful information on cross-cultural training content, design and delivery. This is followed by a series of readings that flesh out many of the concepts important for trainers and learners alike and provide important facts, theory and practical background on an area in question. They can be used as a basis for facilitator presentations or given to learners as reading exercises. The manual concludes with (1) a series of action planning activities to help consolidate what learners have experienced and (2) evaluation forms for assessing and evaluating the effectiveness of any cross-cultural training events. The Appendix offers outline designs for seven half-day, one-day and two-day workshops using activities from Volume Two: Activities for Cross-Cultural Training along with a detailed bibliography. Volume Two: Activities for Cross-Cultural Training With 80 activities (covering skills such as understanding culture and differences, stereotypes, cultural self-awareness, cultural influences, barriers to communication) this varied and imaginative collection is a must-have resource for anyone involved in cross- or inter-cultural training. The collection concludes

with a detailed bibliography of further reading and references.

Cross-Cultural Psychology Oct 26 2022 Third edition of leading textbook offering an advanced overview of all major perspectives of research in cross-cultural psychology.

American Cultural Patterns Apr 20 2022 A fully revised edition of the seminal classic This classic study was originally written by Edward Stewart in 1972 and has become a seminal work in the field of intercultural relations. In this edition, Stewart and Milton J. Bennett have greatly expanded the analysis of American cultural patterns by introducing new cross-cultural comparisons and drawing on recent reseach on value systems, perception psychology, cultural anthropology, and intercultural communication. Beginning with a discussion of the issues relative to contact between people of different cultures, the authors examine the nature of cultural assumptions and values as a framework for cross-cultural analysis. They then analyze the human perceptual process, consider the influence of language on culture, and discuss nonverbal behavior. Central to the book is an analysis of American culture constructed along four dimentions: form of activity, form of social relations, perceptions of the world, and perception of the self. American cultural traits are isolated out, analyzed, and compared with parallel characteristics of other cultures. Finally, the cultural dimentions of communication and their implications for cross-cultural interaction are examined.

Cultivating Cross-Cultural Acumen Jun 10 2021 In today's Interdependent world, practitioners working in the international environment, can no longer just acknowledge the economic background of potential partners. In order to enact successful cross-cultural collaboration it is essential to understand how cultural factors can affect business processes. This first edition of 'Cultivating Cross-Cultural Acumen' provides you with a comprehensive, theoretical and practical introduction to the various aspects of intercultural management, negotiating and meeting styles for the countries: Brazil, Argentina, China, Denmark, Emirates, France, Germany, Ireland, Israel, Italy, Japan, Malaysia, Mexico, the Netherlands, Norway, Poland, Russia, Singapore, South Africa, South Korea, Spain, Switzerland, Taiwan, Turkey and the United Kingdom. The authors conducted surveys on relevant management and meeting behaviour in each of these countries and interviewed many native professionals. In Search of Self in India and Japan Feb 18 2022 "This book addresses a fundamental question - the universality of human nature ... Drawing upon work with patients and therapists in both India and Japan, he describes the profound difference between the Western individualized self and the familial self so central to Asian culture ... Of particular value is Roland's sensitive treatment of the evolving identity of women in the two cultures, as well as his exploration of the deeply significant spiritual self, a topic that is largely neglected in Western theory and practice."--Choice.

and analysis that a negotiator might find useful, whatever the national identity, is suggested. The first of six sections presents a broad overview of the social psychology of cross-cultural negotiation; the next five sections each deal with a particular "consideration" involved in the process. The first consideration involves understanding the way that negotiators view the negotiation encounter itself (the session's social meaning, who should attend, what kind of conversations should take place, with what courtesy, and with what expected style of debate). The second consideration is concerned with ways that cultural background affects decision making style. The effect of "national character" on the negotiation process, a third consideration, involves the effect of national self-image on negotiation, specific values and implicit assumptions of negotiators, and cultural differences in styles of logic, reasoning, and persuasion. The fourth consideration, "coping with cross-cultural noise," covers the background distractions, including noise, the presence of other people, and habits or idiosyncracies that bother one party or the other. A fifth consideration, "trusting interpreters and translators" is the topic of the final section. This section examines actual limits in translating ideals, concepts, meanings, and nuances; the subjective meaning on each side of a translation; and built-in styles of reasoning that resist translation. (LH) Eastern and Cross Cultural Management Oct 02 2020 This path-breaking book liberates management thinking from a century of Western subjugation. It is a comparative exposition of culture and management styles in India, Japan, China and major Western countries. There is a need to protect and sustain each country's identity and positive strengths in values while interlinking global business with cross cultural empathy. The book explores profiles of culture-management axis through secondary literature study in various languages of the East, empirical research conducted with nearly one thousand managers and 375 organizations in India. The effective management in the next millennium will be mission-based strategic integration of the team, combined with people-sensitive approach. In spite of growth of hi-tech, the emotional human issues will dominate the coming decades. Happiness and health in institutions will largely depend on successive sacrifice of greed and possessiveness in creation of wealth for human development. The meltdown in the US and its repercussions in the world are direct outcome of failure to learn these lessons. Already the world is witnessing acute consciousness of interdependence and universal linkages. This is the quintessence of Vedanta, Zen-Buddhism and Sufi order in the Eastern globe. West-dominated management technology must now synthesize with Eastern intuition and values. The book is divided into three parts: First part delves into East-West psyche; second part presents Integration-Affection Model as potential approach to effective Management. Third part shows the author's successful applications of the approach in different organizations while working as Chief Executive or Consultant.
Handbook of Cross-cultural Counseling and Therapy Feb 06 2021 This is a comprehensive and well elaborated review of conceptual frameworks for counseling and therapy in cross-cultural problems.

Most of the widely-spread literature is organized into groups, methodology is presented in an even flow with access to diagnostic considerations, and the variety of racial and cultural parameters encountered in the subject is thus made clear. . . . All the concepts developed in this book can be applied to a client population of a variety of ethnic groups. Readings: A Journal of Reviews and Commentary in Mental Health This handbook is intended to help meet the need for information on and training in cross-cultural counseling and therapy. Pedersen has provided a convenient reference source that reviews the history, present status, fundamental assumption's fundamental theories, and future directions of forty different specializations within the broad field of cross-cultural counseling. Each chapter is written by a recognized specialist in the field. The chapters are evenly divided into five parts covering perspectives, counseling methods, client populations, key issues of controversy and research, and guidelines for education and training. By including so many of the most prominent authors in one volume and by condensing their most important messages, the book becomes a virtual encyclopedia for a rapidly changing field.
English for Cross-Cultural Communication Dec 16 2021
Becoming Intercultural Sep 13 2021 This book looks at the movements of immigrants and refugees and the challenges they face as they cross cultural boundaries and strive to build a new life in an unfamiliar place. It focuses on the psychological dynamic underpinning of their adaptation process, how their internal conditions change over time, the role of their ethnic and personal backgrounds, and of the conditions of the host environment affecting the process. Addressing these and related issues, the author presents a comprehensive theory, or a "big picture,"of the cross-cultural adaptation phenomenon.
Localising Leadership Jun 17 2019 'Localising Leadership' provides an invaluable reference point for senior executives or those striving towards a successful cross-border career, to understand how cultural differences impact upon leadership styles and practices. Each semester, we publish a report on our quantitative survey-based global study, alongside our review of extant in-country leadership literature, preferably written by local scholars and professionals in their native language. Moreover, we attempt to empirically validate these findings by conducting expert interviews with native specialists. This new issue of our ongoing leadership series presents country-specific analyses of culturally endorsed leadership practices and styles in the following countries: Bangladesh, Brunei, France, Germany, Liechtenstein, Macau, Malta, Norway, Papua New Guinea, Peru, Qatar, Saint Martin, Saudi Arabia, Slovakia, Sri Lanka, Trinidad and Tobago, Turkey, United Kingdom and Zimbabwe.This publication contains contributions from around 100 researchers from sixteen countries who participated in the Cross-Cultural Business Skills elective offered by the Part-time Academy of the Faculty of Business and Economics at the Amsterdam University of Applied Sciences (HvA).
Cross-Cultural Management Feb 24 2020 Cross-Cultural Management: Essential Concepts, Fourth Edition introduces readers

to the fundamentals of cross-cultural management by exploring the influence of culture on interpersonal interactions in organizational settings and examining the ever-increasing number of cross-cultural management challenges that global managers face in today's workplace. Instead of taking a country specific approach, authors David C. Thomas and Mark F. Peterson offer a predominantly psychological perspective—focusing on the interactions of people from different cultures in organizational settings. This approach shows readers the effects culture has on a wide variety of cross-cultural interactions across organizational contexts.

International Handbook of Cross-Cultural Neuropsychology Nov 22 2019 The role of culture is significant when measuring cognitive abilities during neuropsychological assessments. However, cultural diversity is a frequently overlooked moderating variable. The International Handbook of Cross-Cultural Neuropsychology emphasizes major distinctions among cultural groups in North and South America, Europe, Africa, Asia, and Australia to heighten awareness of nuances, as well as culturally-influenced differences and similarities. The goal of this important handbook is to view assessments and rehabilitation from different perspectives, thereby offering opportunities for increasing knowledge and understanding, while improving clinical skills and laying the groundwork for establishing international and cross-culture collaborations. Clinical judgment can be colored by previous experiences from different cultures, expectancy rates of pathology among certain groups, and differences in socioeconomic levels. As clinical experiences increase with people from different cultures, the limitations of neuropsychological tools to make accurate assessments become evident. It is through gaining knowledge about the values of a different culture that neuropsychologists can develop a cross-cultural understanding. Professionals in areas such as neuropsychology, cross-cultural psychology, and social psychology, to name a few, will find the

material in this volume to be a stimulating addition to existing literature.

Death, Mourning, and Burial Jan 17 2022 The definitive reference on the anthropology of death and dying, expanded with new contributions covering everything from animal mourning to mortuary cannibalism Few subjects stir the imagination more than the study of how people across cultures deal with death and dying. This expanded second edition of the internationally bestselling Death, Mourning, and Burial offers cross-cultural readings that span the period from dying to afterlife, considering approaches to this transition as a social process and exploring the great variations of cultural responses to death. Exploring new content including organ transplantation, institutionalized care for the dying, HIV-AIDs, animal mourning, and biotechnology, this text retains classic readings from the first edition, and is enhanced by sixteen new articles and two new sections which provide increased breadth and depth for readers. Death, Mourning, and Burial, Second Edition is divided into eight parts reflecting the social trajectory of death: conceptualizations of death; death, dying, and care; grief and mourning; mortuary rituals; and remembrance and regeneration. Sections are introduced through foundational texts which provide the ideal introduction to this diverse field. It is essential reading for anyone concerned with issues of death and dying, as well as violence, terrorism, war, state terror, organ theft, and mortuary rituals. A thoroughly revised edition of this classic anthology featuring twenty-three new articles, two new sections, and three reformulated sections Updated to include current topics, including organ transplantation, institutionalized care for the dying, HIV-AIDs, animal mourning, and biotechnology Must reading for anyone concerned with issues of death and dying, as well as violence, terrorism, war, state terror, organ theft, and mortuary rituals Serves as a text for anthropology classes and provides a genuinely cross-cultural perspective to all those studying death and dying

A Cross-cultural Investigation of Window Preferences Jul 31 2020 Elasticity in Healthcare Communication Dec 24 2019 Elastic language is a phenomenon in linguistics that refers to how we stretch the meanings of words, depending on the context in which they are used – for example many, about 20, perhaps, could be. This study looks specifically at elastic language in the fields of medicine and healthcare, showing how it is used to serve both the patient's and the professional's needs. It explores the pragmatics and metapragmatics of elasticity in the delivery of online medical information as a way of avoiding miscommunication. Based on data from Chinese and English sources, it takes a cross-cultural perspective, to present an account of harmony and disharmony between professional medical websites and their users. Adding exciting new dimensions to the fields of health communication and pragmatics, it is essential reading for scholars and advanced students in semantics, pragmatics, discourse analysis and interactional linguistics, as well as professionals involved in healthcare and communication.

Developing a Cross-cultural Law Curriculum Jul 11 2021 This work makes the case that cross cultural issues are central to the purposes of legal education, and no longer can such issues be seen as an add-on to the traditional curriculum. The authors argue instead for a critical multiculturalism that is attuned to questions of gender, class, sexuality and social justice, and that must inform the whole law school curriculum.
