Trade Law (UNCITRAL) is aiming to ensure enforcement of international commercial settlement agreements resulting from mediation. The first investor-State disputes are mediated under the International Bar Association (IBA) rules. The International Centre for Settlement of Investment Disputes (ICSID)'s conciliation mechanism is resorted to more often than in the past. The International Chamber of Commerce (ICC) has recently administered its first mediation case based on a bilateral investment treaty, and a new training market on mediation is flourishing. Mediation in Commercial and Investment Disputes brings together a line-up of outstanding, highly-qualified experts from academia, mediation and arbitration institutions, and international legal practice, to address this highly topical, complex subject from a variety of angles.

There is scope for considerable argument about principles, research programmes, the Nature of Things, as well as room for compromise and synthesis. **International Investment Law and Arbitration** Oct 28 2019 International investment law and arbitration is a rapidly evolving field, and can be difficult for students to

acquire a firm understanding of, given the considerable number of published awards and legal writings. The first edition of this text, cited by courts in Singapore and Colombia, overcame this challenge by interweaving extracts from these arbitral decisions, treaties and scholarly works with concise, up-to-date and reliable commentary. Now fully updated and with a new chapter on arbitrators, the second edition retains this practical structure along with the carefully curated end-of-chapter questions and readings. The authors consider the new chapter

an essential revision to the text, and a discussion which is indispensable to understanding the present calls for reform of investment arbitration. The coverage of the book has also been expanded, with the inclusion of over sixty new awards and judicial decisions, comprising both recent and well-established jurisprudence. This textbook will appeal to graduates studying international investment law and international arbitration, as well as being of interest to practitioners in this area.
