Un Law, Fundamental Rights Oct 11 2020 In its forty-fourth session the General Assembly of the United Nations proclaimed the 1990s as the Decade of International Law. One of the main purposes of the decade is the promotion of effective means for peaceful international dispute settlement, and, especially, strengthening the role of & respect for the International Court of Justice, the principal judicial organ of the United Nations. The editors of this book contribute to this aim by bringing together a variety of opinions by international legal experts on peaceful dispute settlement. The subject is approached from different angles, ranging from the role of the International Law Commission & the Non-Aligned Movement to human rights & space law disputes, in order to identify areas of international law where room exists for further development of existing means for peaceful settlement of international disputes. A general conclusion which can be drawn from this survey is that the focus of attention should not be aimed primarily at strengthening the role of the International Court of Justice, e.g. by amending some of its rules or by trying to increase its political acceptability through diplomatic efforts. Instead, the focus should be on small scale improvements within specific areas of international law with an emphasis on the relation between dispute settlement & supervision. Furthermore, it seems essential for a real improvement to give non-governmental organisations or private persons a greater role in upholding the rule of international law, whether in domestic courts or in international fora. This work has been published previously in the Leiden Journal of International Law, Special Issue (3 LJIL 90).

Disputed Territories and International Criminal Law Jul 28 2019 It has been over 50 years since the beginning of the Israeli occupation of the Palestinian Territories. It is estimated that there are over 600,000 Israeli settlers living in the West Bank and East Jerusalem, and they are supported, protected, and maintained by the Israeli state. This book discusses whether international criminal law could apply to those responsible for allowing and promoting this growth, and examines what this application would reveal about the operation of international criminal law. It provides a comprehensive analysis of how the Rome Statute of the International Criminal Court could apply to the settlements in the West Bank through a close examination of the potential operation of two relevant Statute crimes: first, the war crime of transfer of population; and second, the war crime of unlawful appropriation of property. It also addresses the threshold question of whether the law of occupation applies to the West Bank, and how the principles of individual criminal responsibility might operate in this context. It explores the relevance and coherence of the legal arguments relied on by Israel in defence of the legality of the settlements and considers how these arguments might apply in the context of the Rome Statute. The work also has wider aims, raising questions about the Rome Statute's capacity to meet its aim of establishing a coherent and legally effective system of international criminal justice.

Five Masters of International Law Sep 21 2021 This book consists of interviews with five distinguished international lawyers from the UK, USA, Uruguay and France, conducted by the editor, Antonio Cassese, between 1993 and 1995. Each interview is preceded by a brief 'intellectual portrait' of the interviewee. In his general introduction Cassese stresses that the interviews, all based on the same questionnaire, were intended to bring out not only the main ideas associated with each scholar in the fields of international law and international relations, but also his intellectual and philosophical background, his general outlook and his views of the prospects for the evolution of the international community. In his final essay, Cassese brings together the main threads of the interviews and points to the parallels and divergences appearing from them. This book offers a unique and important insight into the legal minds and outlook of a select group of prominent scholars of international law and legal institutions during the last years of the twentieth century.

Change and Stability in International Law-Making May 18 2021

The International Rule of Law Apr 04 2020 This edited volume examines the role of international law in a changing global order. Can we, under the current significantly changing conditions, still observe an increasing juridification of international relations based on a universal understanding of values? Or are we, to the contrary, facing a tendency towards an informalization or a reformation of international law, or even an erosion of international legal norms? Would it be appropriate to revisit classical elements of international law in order to react to structural changes, which may give rise to a more polycentric or non-polar world order? Or are we simply observing a slump in the development towards an international rule of law based on a universal understanding of values? In eleven chapters, distinguished scholars reflect on how to approach these questions from historical, system-oriented and actor-centered perspectives. The contributions engage with the rise of European international law since the 17th century, the decay of the international rule of law, compliance as an indicator for the state of international law, international law and informal law-making in times of populism, the rule of environmental law and complex problems, human rights in Europe in a hostile environment, the influence of the BRICS states on international law, the impact of non-state actors on international law, international law's contribution to global justice, the contestation of value-based norms and the international rule of law in light of legitimacy claims.

The Prosecutor and the Judge Aug 21 2021 Earlier this year, the Praemium Erasmianum Foundation bestowed its annual award—the Erasmus Prize—on Benjamin Ferencz and Antonio Cassese, two pioneers in the field of international law. Ferencz, a leading American prosecutor, author, and lecturer, was present at the American war crimes trials in Dachau and was the chief prosecutor in the Einsatzgruppen trials in Nuremberg. Like Ferencz, Cassese was a key figure in the development of international criminal law, serving as the first president of the International Criminal Tribunal for the former Yugoslavia and president of the European Committee for the Prevention of Torture, and chairman of the UN Commission of Inquiry into Violation of Human Rights and Humanitarian Law in Darfur. Cassese is currently the president of the Special Court for Lebanon. In The Prosecutor and the Judge, Heikela Verrijn Stuart and Marlies Simons provide in-depth, revealing interviews with these two advocates of international law. Supplementing the interviews are several key articles written by Ferencz and Cassese that

highlight the two men's achievements and set the development of international law in context.

The Defence of Mistake of Law in International Criminal Law Oct 23 2021 The adage 'ignorance of the law is no excuse' is significantly inaccurate. Ignorance and mistake of law do, under certain circumstances, exclude responsibility both in national and international criminal law. This monograph updates the existing reviews of law and practice on the topic, aiming to go a step further: it takes the analysis of mistake of law as a starting point for systematic observations about international criminal law in general. First, the volume defines the contours of the defence of mistake of law in general theory of criminal law, distinguishing it from cognate defences and highlighting, most notably, its connection with superior orders. Secondly, it gives an overview of the possible approaches to the defence, offering examples from national law as terms of reference for the subsequent analysis of international criminal law. Thirdly, it surveys the relevant law and practice of international criminal tribunals, with a focus on the International Criminal Court, and it contemplates offences for which a defence of mistake of law may potentially succeed. Finally, the author tries to interpret what the rules on mistake of law applicable before international criminal tribunals imply about the purpose of punishing individuals and to the legitimacy of such punishment. Whilst the discourse on international criminal law is more and more concerned with global politics, The Defence of Mistake of Law in International Criminal Law brings back the focus on the appropriateness of imposing a guilty verdict on the individual defendant, a human being constituting the basic unit of each society.

International Law in a Divided World May 30 2022 A general introduction to international law in its political and historical context, this work identifies the ideological motivations behind legal rules and institutions. Self-Determination of Peoples Mar 28 2022 The self-determination of peoples is a major issue in the world community: both radical and subversive, it serves to grant statehood to oppressed peoples, but also to disrupt existing State structures. This book, the first comprehensive legal account, sets out to trace how this political ideal has turned into an international legal standard. Scrutinising State practice through national digests and UN proceedings the author pinpoints the limits within which this political postulate has gained a foothold in the body of international law and assesses the extent to which it has had an impact on existing legal norms. This is primarily a legal inquiry which, however, looks at law within its historical and political context and, given its judicial underpinning, makes an important contribution to the study of the interplay of law, history, and politics in international relations.

International Criminal Law Feb 24 2022 Critical Concepts in Law, addresses the acute need for an authoritative reference work that traces the evolution of the emerging discipline of international criminal law. This four-volume collection assembles the best scholarship from the time of Nuremberg and Tokyo to the present day.

Convention on the Prevention and Punishment of the Crime of Genocide, Oct 30 2019 The 1948 UN Convention on the Prevention and Punishment of the Crime of Genocide (Genocide Convention) has a special standing in international law and international politics. For 60 years, the crime of genocide has been recognised as the most horrendous crime in international law, famously designated the 'crime of crimes'. On the occasion of the 60th anniversary of its adoption the UN High Commissioner for Human Rights stated that 'genocide is the ultimate form of discrimination'. In the same context the chief prosecutor of the International Criminal Court described the Genocide Convention as a 'visionary and founding text for the Court'. The Convention has as such influenced the subsequent development of many different areas of international law. For example, the 1951 Advisory Opinion on the Genocide Convention enabled the International Court of Justice to shape the modern regime of reservations to treaties. More recently, the prohibition against genocide has become a crucial pillar of the regime of international criminal law developing since the 1990s, with genocide being one of the core crimes falling under the jurisdiction of the UN ad hoc tribunals, the Extraordinary Chambers in the Courts of Cambodia and the permanent International Criminal Court. In this work the 19 provisions of the Convention are analysed article-by-article, with abundant references to state practice and case law.

Necessity or Nuisance? Nov 11 2020 Welche Chancen und Probleme bietet der Verweis auf Menschenrechte bei der Definition völkerstrafrechtlich relevanter Verbrechen? Unter welchen Voraussetzungen ist ein Verweis auf den Katalog des internationalen Menschenrechtsschutz dogmatisch angemessen und praktisch wahrscheinlich? Diese Fragen werden sowohl rechtstheoretisch, in der tatsächlichen Rechtsanwendung als auch empirisch durch Gespräche mit Richterinnen und

Richtern an völkerstrafrechtlichen Gerichten ergründet. Durch das Aufzeigen der Gemeinsamkeiten und Unterschiede der beiden Rechtsgebiete, der vorherrschenden dogmatischen Unschärfen sowie Ansätzen zu deren Lösung, leistet der Band einen entscheidenden Beitrag zur Debatte über Rechtssicherheit und Innovation im Bereich des Völkerstrafrechts.

The Oxford Handbook of International Criminal Law May 06 2020 In the past twenty years, international criminal law has become one of the main areas of international legal scholarship and practice. Most textbooks in the field describe the evolution of international criminal tribunals, the elements of the core international crimes, the applicable modes of liability and defences, and the role of states in prosecuting international crimes. The Oxford Handbook of International Criminal Law, however, takes a theoretically informed and refreshingly critical look at the most controversial issues in international criminal law, challenging prevailing practices, orthodoxies, and received wisdoms. Some of the contributions to the Handbook come from scholars within the field, but many come from outside of international criminal law, or indeed from outside law itself. The chapters are grounded in history, geography, philosophy, and international relations. The result is a Handbook that expands the discipline and should fundamentally alter how international criminal law is understood.
