Remedy for Human Rights Abuses under Tort and International Law Apr 04 2020 This second volume examines laws relating to the civil liabilities of corporations and states in connection with torts or other breaches of international law and human rights law. It illustrates how particular legal principles or rules can be applied or developed to promote corporate accountability, with legal duties that arise under tort law or statutory law. Businesses operate within particular legal regulatory regimes and also within the framework of obligations imposed in tort law. Such laws aim to shape or constrain behaviour for the protection of others in society. There are also environmental protection laws which aim to prevent the release of noxious or hazardous substances, and occupational health and safety laws for the protection of employees. The law of negligence in tort imposes general obligations on persons to take reasonable care to prevent harm to others in circumstances where there is a duty of care. Companies, as legal persons, are required to comply with such legal obligations. The book looks at the role of courts in upholding human rights

obligations and providing a forum to resolve corporate human rights abuses issues. If the state does not regulate a specific issue of corporate human rights violations, then the court will address any lacuna in the domestic law by having recourse to (I) rules of international law; (II) general principles of international human rights law; (III) general principles of human rights law common to the major legal systems of the world; (IV) general principles of law that is in agreement with the fundamental requirements of rule of law, and the protection of human dignity and justice; and (V) the general principle of a duty of care (tort of negligence). The book will help lawyers, scholars, and students to see how corporate human rights violations can involve multiple legal principles.

Rediscovering the Law of Negligence Feb 12 2021 Rediscovering the Law of Negligence offers a systematic and theoretical exploration of the law of negligence. Its aim is to re-establish the notion that thinking about the law ought to and can proceed on the basis of principle. As such, it is opposed to the prevalent modern view that the various aspects of the law are and must be based on individual policy decisions and that the task of the judge or commentator is to shape the law in terms of the relevant policies as she sees them. The book, then, is an attempt to re-establish the law of negligence as a body of law rather than as a branch of politics. The book argues that the law of negligence is best understood in terms of a relatively small set of principles enunciated in a small number of leading cases. It further argues that these principles are themselves best seen in terms of an aspect of morality called corrective justice which, when applied to the most important aspects of the law of negligence reveals that the law - even as it now exists - possesses a far greater degree of conceptual unity than is commonly thought. Using this method the author is able to examine familiar aspects of the law of negligence such as the standard of care; the duty of care; remoteness; misfeasance; economic loss; negligent misrepresentation; the liability of public bodies; wrongful

conception; nervous shock; the defences of contributory negligence, voluntary assumption of risk, and illegality; causation; and issues concerning proof, to show that when the principles are applied and the idea of corrective justice is properly understood then the law appears both systematic and conceptually satisfactory. The upshot is a rediscovery of the law of negligence.

Law of Tort Nov 04 2022 John Cooke's Law of Tort is a trusted, clear and engaging explanation of the main principles of tort law, written specifically with the student in mind. It also includes a statute section at the end of the text and summaries of the main cases throughout meaning that students have everything they need to gain a good understanding of the law at their fingertips.

EU Internet Law in the Digital Single Market Oct 11 2020 With the ongoing evolution of the digital society challenging the boundaries of the law, new questions are arising - and new answers being given - even now, almost three decades on from the digital revolution. Written by a panel of legal specialists and edited by experts on EU Internet law, this book provides an overview of the most recent developments affecting the European Internet legal framework, specifically focusing on four current debates. Firstly, it discusses the changes in online copyright law, especially after the enactment of the new directive on the single digital market. Secondly, it analyzes the increasing significance of artificial intelligence in our daily life. The book then addresses emerging issues in EU digital law, exploring out of the box approaches in Internet law. It also presents the latest cyber-criminality law trends (offenses, international instrument, behaviors), and discusses the evolution of personal data protection. Lastly, it evaluates the degree of consumer and corporate protection in the digital environment, demonstrating that now, more than ever, EU Internet law is based on a combination of copyright, civil, administrative, criminal, commercial and banking laws.

with an emphasis on explaining the key topics covered on tort law courses with clarity. The book includes helpful learning features to guide students through the material in an interesting and interactive way.

Nursing: Transition to Professional Practice Jan 14 2021 To successfully complete the transition from being a final year pre-reg nursing student to becoming a qualified staff nurse, students need to understand and practice the responsibilities and roles of the registered nurse. This book outlines the principles of professional practice and the skills of the qualified nurse.

Tort Law Sep 09 2020 Tort Law: Text, Cases, and Materials offers a stimulating overview of tort law. It provides a sound analysis of the key principles before exploring a wide range of critical perspectives through an extensive selection of cases and materials. This is a complete stand-alone resource designed to map directly to undergraduate courses.

Accountability and Corporate Human Rights Violations in Tort and International Law Mar 04 2020 This volume identifies a coherent legal principle in order to establish a novel duty of care for corporate human rights violations and environmental damages. It examines whether tort and civil law offer better accountability and remedies for victims of corporate human rights abuses, and carries out an in-depth and critical analysis of the concept of corporate accountability. Moreover, a fundamental part of this book is devoted to examining the extent to which international criminal law influences international human rights law in its use of tort law and civil law remedies. Finally, the book sets out a theoretical mechanism for duty of care, as well as a proposal for the establishment of a 'Hybrid International Transnational Corporation Court' that would have the potential to effectively interpret the concept of the corporate duty of care under tort law.

that illustrate the substantive law and places it in its legal and commercial context. It demonstrates how the rules work both inside and outside the courtroom.

Comparative Law Dec 25 2021 Uwe Kischel's comprehensive treatise on comparative law offers a critical introduction to the central tenets of comparative legal scholarship. The first part of the book is dedicated to general aspects of comparative law. The controversial question of methods, in particular, is addressed by explaining and discussing different approaches, and by developing a contextual approach that seeks to engage with real-world issues and takes a practical perspective on contemporary comparative legal scholarship. The second part of the book offers a detailed treatment of the major legal contexts across the globe, including common law, civil law systems (based on Germany and France, and extended to Eastern Europe, Scandinavia, and Latin America, among others), the African context (with an emphasis on customary law), different contexts in Asia, Islamic law and law in Islamic countries (plus a brief treatment of Jewish law and canon law), and transnational contexts (public international law, European Union law, and *lex mercatoria*). The book offers a coherent treatment of global legal systems that aims not only to describe their varying norms and legal institutions but to propose a better way of seeking to understand how the overall context of legal systems influences legal thinking and legal practice.

Exclusion Clauses and Unfair Contract Terms Dec 01 2019 For anyone working with business and consumer contracts, this book provides essential information and advice on the statutory controls available to guard against the misuse of exclusion clauses.

Misleading Silence Jun 06 2020 This collection brings together a team of outstanding scholars from across the common law world to explore the treatment of misleading silence in private law doctrine and theory. Whereas previous studies have been contractual in focus, here the topic is explored from across the full spectrum of private law. Its approach encompasses equitable and common law principles, as well as taking an integrated approach to key statutory regimes. The highly original contributions draw on rich theoretical, historical, comparative, cross-disciplinary and doctrinal perspectives. This is truly a landmark publication in private law, with no counterpart in the common law world. Contributors: Professor Elise Bant, Professor Jeannie Paterson, Professor Rick Bigwood; Professor Michael Bryan; Professor John Cartwright; Professor Mindy Chen-Wishart; Professor Simone Degeling; Professor Pamela Hanrahan; Professor Luke Harding; Professor Matthew Harding; Professor Catharine MacMillan; Professor Hector MacQueen; Professor Donna Nagy; Justice Andrew Phang; Professor Pauline Ridge; Professor Andrew Robertson; Ms Anna Williams.

European Intermediary Liability in Copyright: A Tort-Based Analysis Jun 26 2019 In step with its rapid progress to the centre of modern social, political, and economic life, the internet has proven a convenient vehicle for the commission of unprecedented levels of copyright infringement. Given the virtually insurmountable obstacles to successful pursuit of actual perpetrators, it has become common for intermediaries –providers of internet-related infrastructure and services – to face liability as accessories. Despite advances in policy at the European level, the law in this area remains far from consistently applicable. This is the first book to locate and clarify the substantive rules of

European intermediary accessory liability in copyright and to formulate harmonised European norms to govern this complicated topic. With a detailed comparative analysis of relevant regimes in three major Member State jurisdictions – England, France, and Germany – the author elucidates the relationship between these rules and the demands of EU law on fundamental rights and the principles of European tort law. She clearly presents the interrelations between such areas as the following: - accessory liability in tort; - joint tortfeasance; - European fault-based liability: fault, causation, defences; - negligence; - negligence balancing: rights-based or utility-based?; - Germany’s “disturbance liability” (Störerhaftung); - fair balance in human rights; - end-users’ fundamental rights; - The European Commission’s 2015 Communication on a Digital Single Market Strategy for Europe; - The E-Commerce Directive and other relevant provisions; - Safe harbours: mere conduit, caching, hosting; - Intermediary actions: monitoring, filtering, blocking, removal of infringing content; and - application of remedies: damages and injunctions. The strong points of each national system are highlighted, as are the commonalities between them, and the author uses these to build a proposed harmonised European framework for intermediary liability for copyright infringement. She concludes with suggestions for the future possible integration of the proposed framework into EU law. The issue of the liability of internet intermediaries for third party copyright infringement has entered into the political agenda across the globe, giving rise to one of the most complex, contentious, and fascinating debates in modern copyright law. This book offers an opportunity for a re-conceptualisation and rationalisation of the applicable law, in a way which additionally better accounts for the cross-border nature of the internet. It will be of inestimable value to many interested parties – lawyers, internet intermediaries, NGOs, policymakers, universities, libraries, researchers, lobbyists – in matters regarding the information society.

Mental Health Nursing May 06 2020 Pre-registration nurse training across the UK is now competency based and this is the first mental health nursing text devoted to this approach. It explores the practical application of a competency based Exit Profile for mental health nursing students, which ensures that there is consistency in the essential knowledge, skills and attitudes that mental health nursing students will acquire by the end of their training programmes. This timely and contemporary text will be an essential resource for all Mental Health Branch nursing students.

Modern Tort Law 6/e Feb 24 2022 The sixth edition of this well-liked textbook provides a comprehensive update and a clear analysis of all aspects of the law of tort. Substantially revised since the last edition, this new edition maintains the popular student friendly style that seeks to explain the principles of tort law in an interesting and thought-provoking manner.

Tort Law Sep 29 2019 Written by two leading scholars, Tort Law combines detailed coverage of the legal principles, supported by hypothetical case scenarios and guided further reading, with critical discussion of the key academic debates and literature in the subject making it ideal for use by anyone studying tort law at undergraduate or postgraduate level. Extensively updated, this new edition covers all important case-law and legislative developments, including the expansion of vicarious liability in *Mohamud v Wm Morrison Supermarkets*, the treatment of the notion of 'defect' under the Consumer Protection Act 1987 in *Wilkes v Depuy International Ltd*, the reinvigoration of the tort in *Wilkinson v Downton by O (a child) v Rhodes*, the recognition of a tort of the malicious institution of civil proceedings in *Willers v Joyce*, and the attempts to reform the law on the defence of illegality in *Patel v Mirza*.

organizations, cannot depend only on the law and their organizations to make moral business decisions. The authors explore why making ethical business decisions is harder than is generally understood, and explores the difficulties leaders face as a result of differences in context, circumstances, and other challenges to ethical behavior, such as misleading rhetoric, inappropriate role models, cognitive dissonance and motivated forgetting. They argue that individuals need to establish ethical baselines that they will not cross when making decisions and explain how to do this systematically. *The Challenge of Leading an Ethical and Successful Organization* offers ways of handling ethical dilemmas successfully. It explores the need to determine in advance the potential areas of ethical conflict, and the potential costs of such conflicts and provides leaders with a practical ethical framework to reconcile ethics with business success. This book is essential reading for professionals, consultants, and academics interested in the ethics of leadership and management.

[Tort Law](#) Apr 16 2021 Law Express: Tort Law is designed to help you to relate all the reading and study throughout your course specifically to exam and assignment situations. areas such as: The liability towards passengers and employees
The Prosecution of offenders
Comparative analysis of corporate manslaughter in the wider, global industry

Breach of Confidence Nov 11 2020 'The authors of this important book have done a great service to our understanding of this fascinating area of law. Their shrewd and scholarly study traces the development and "myriad reinventions" of this protean doctrine from its eighteenth century origins through to its most recent manifestation as a private-facts "tort" in English law, enriching legal analysis with consideration of the philosophical, social and economic contexts. Common law privacy scholars in particular will find that this book directly illuminates contemporary debates.' Gavin Phillipson, University of Durham, UK 'The authors breathe new life into this complex, recondite branch of the law. An illuminating and penetrating study of an ancient remedy whose importance endures and even increases.' Raymond Wacks, University of Hong Kong This concise yet detailed book explores the historical foundations and modern developments of the ancient doctrine of breach of confidence. The authors show that despite its humble beginnings, stilted development and air of quaintness the doctrine has modern relevance and influence, its sense of 'trust and confidence' still resonating with the information society of today. Topical chapters include, 'Inventing an equitable doctrine', 'Privacy and publicity in early Victorian Britain', 'Searching for balance in the employment relationship', as well as many others. Breach of Confidence will make insightful reading for all those interested in issues of privacy and information, and will appeal strongly to practicing lawyers and judges as well as academic researchers and postgraduate law students.

Medicine, patients and the law Oct 23 2021 Embryo research, cloning, assisted conception, neonatal care, saviour siblings, organ transplants, drug trials - modern developments have transformed the field of medicine almost beyond recognition in recent decades and the law struggles to keep up. In this highly acclaimed and very accessible book, now in its sixth edition, Margaret Brazier and Emma Cave provide an incisive survey of the legal situation in areas as diverse as fertility treatment, patient consent, assisted dying, malpractice and medical privacy. The book has been fully revised and updated to cover the latest cases, from assisted dying to informed consent; legislative reform of the NHS, professional regulation and redress; European regulations on data protection and clinical trials; and legislation and policy reforms on organ donation, assisted conception and mental capacity. Essential reading for healthcare professionals, lecturers, medical and law students, this book is of relevance to all whose perusal of the daily news causes wonder, hope and consternation at the advances and limitations of medicine, patients and the law.

International Medical Malpractice Law Aug 09 2020 This monograph is the most comprehensive comparative law study of legal responsibility arising from medical care presently available. It is written for doctors as well as health care administrators and legal professionals. Focusing on the problems of civil liability, it presents the development, points of contact with, and differences between the modern law of medical liability stemming from both the Common Law and Civil Law traditions of England, Scotland, Eire, New Zealand, Australia, Canada, the United States, South Africa, France, Belgium, West Germany, Switzerland, and Austria. It demonstrates the extent to which both problems of medical law and trends towards their solution are already familiar in these legal systems. The work describes principles and trends, not by confronting the reader with national reports' and separate chapters on different legal systems; rather, the relevant legal problems are

analyzed from an integrative, comparative viewpoint. The main thrust of the presentation is the analysis of numerous court decisions -- the number of which is rising ominously in the United States -- on the civil liability of doctors and hospitals for damages arising from substandard treatment or inadequate disclosure of information to the patient. References to the legal and medical literature, indexes, and a refined system of cross-references, together with an important collection of appendices covering legal and ethical declarations make this work accessible as a handbook and reference work for the legal and social problems encountered today in the wide area of law, ethics, and medicine.

Delict Essentials May 18 2021 From defamation to dangerous animals, and from negligence to nuisance, Delict Essentials will introduce you to the Scots law of delict. Fully updated for the third edition, this concise guide will give you the key facts that you need, whether you're a busy law student revising for those all-important exams or a professional practitioner looking to brush up on your knowledge. It will also be useful for those studying comparative criminal law or tort across different jurisdictions.

Inleiding tot de rechtsvergelijking May 30 2022 Deze inleiding tot de rechtsvergelijking wil de student vertrouwd maken met de algemene beginselen van de rechtsvergelijkende methode en hem inleiden in de kennis van het buitenlands recht. In het eerste deel worden het voorwerp en de eigenheid, de raakpunten en het onderscheid met de verschillende rechtsdisciplines besproken, wordt de historische ontwikkeling geschetst, het nut van de rechtsvergelijking met haar mogelijkheden en grenzen besproken. Vervolgens wordt aandacht besteed aan het onderscheid tussen micro- en macrovergelijking, aan de vergelijkende methodes en aan de indeling in rechtsfamilies. Het tweede deel brengt een overzicht van enkele belangrijke rechtsstelsels: het

Franse, Duitse, Engelse, Amerikaanse, Japanse en islamitische recht. Elk rechtsstelsel wordt uiteengezet aan de hand van de belangrijkste historische ontwikkelingen, de beschrijving en evaluatie van de rechtsbronnen, de staatsstructuur, de gerechtelijke organisatie en de uitstraling van het rechtssysteem. De rechtsbronnen worden in hun historisch perspectief gesitueerd. Inhoudelijk worden enkele rechtsfiguren kort besproken, die typisch zijn voor het bestudeerde rechtsstelsel. Deze macroanalyse van de rechtsstelsels mondt uit in een kort onderzoek naar de toenadering van de rechtsstelsels dat het inzicht in de materie dient te bevorderen door het duidelijker stellen van de verschillen en door het identificeren van de schijntegenstellingen. Deze inleiding heeft dus geenszins de bedoeling de lezer een exhaustieve kennis van het buitenlands recht bij te brengen. Dit handboek is geen encyclopedie. Het wil veel meer de lezer een kijk geven op de betekenis en op het nut maar ook op de gevaren van de rechtsvergelijking. Daarenboven wil ze de lezer niet alleen vertrouwd maken met de grote structuren, maar ook met de geest van de belangrijkste buitenlandse rechtsstelsels. Alhoewel bij de bestudering van de rechtsstelsels de privaatrechtelijke ontwikkelingen centraal staan, worden ook de staatsstructuren en de gerechtelijke organisatie beknopt besproken. In dit laatste kader komen soms ook enige aspecten van het straf- en het strafprocesrecht aan bod.

Divergences in Private Law Sep 02 2022 This book is a study of doctrinal and methodological divergence in the common law of obligations. It explores particular departures from the common law mainstream and the causes and effects of those departures. Some divergences can be justified on the basis of a need to adapt the common law of contract, torts, equity and restitution to local circumstances, or to bring them into conformity with local values. More commonly, however, doctrinal or methodological divergence simply reflects different approaches to common problems, or

[Download File](#)
[fietsersbondhaagseregio.nl](#) on
December 5, 2022 Free Download Pdf

different views as to what justice or policy requires in particular circumstances. In some instances divergent methodologies lead to substantially the same results, while in others particular causes of action, defences, immunities or remedies recognised in one jurisdiction but not another undoubtedly produce different outcomes. Such cases raise interesting questions as to whether ultimate appellate courts should be slow to abandon principles that remain well accepted throughout the common law world, or cautious about taking a uniquely divergent path. The chapters in this book were originally presented at the Seventh Biennial Conference on the Law of Obligations held in Hong Kong in July 2014. A separate collection, entitled *The Common Law of Obligations: Divergence and Unity* (ISBN: 9781782256564), is also being published.

Legal Technique Oct 03 2022 This title is no longer stocked by us. It is now available directly from Christopher Enright: cenrigh2@une.edu.au How should lawyers go about their tasks in working with law, in making, interpreting, using, reading and writing law? Enright's book describes clear and simple techniques for working with law. It explains why the technique is needed and what it achieves, and then provides a model for doing it. Each model consists of a step by step guide for performing the relevant task. Legal Technique is structured to be the textbook in an introductory law course where the techniques are described, and intended for re-use in later courses on substantive law where these techniques must be further taught and practised in the context of those subjects. Legal Technique is accompanied by a free Legal Technique eWorkbook (see Supplement) containing materials, questions and answers. Included are exercises for working with statutes, cases, legal texts and for solving legal problems; further exercises to practise approaches to common law and statutory law subjects generally; and specific exercises for the subjects 'Introduction to Law', 'Constitutional Law', and 'Property Law'.

Tort Law in Hong Kong Apr 28 2022 Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides ready access to how the legal dimension of prevention against harm and loss allocation is treated in Hong Kong. This traditional branch of law not only tackles questions which concern every lawyer, whatever his legal expertise, but also concerns each person's most fundamental rights on a worldwide scale. Following a general introduction that probes the distinction between tort and crime and the relationship between tort and contract, the monograph describes how the concepts of fault and unlawfulness, and of duty of care and negligence, are dealt with in both the legislature and the courts. The book then proceeds to cover specific cases of liability, such as professional liability, liability of public bodies, abuse of rights, injury to reputation and privacy, vicarious liability, liability of parents and teachers, liability for handicapped persons, product liability, environmental liability, and liability connected with road and traffic accidents. Principles of causation, grounds of justification, limitations on recovery, assessment of damages and compensation, and the role of private insurance and social security are all closely considered. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for lawyers Hong Kong. Academics and researchers will also welcome this very useful guide, and will appreciate its value not only as a contribution to comparative law but also as a stimulus to harmonization of the rules on tort.

How to Do Things With Rules Aug 01 2022 "Demystifies legal method by combining a wide variety of concrete examples with a general account of rules in general." - cover.
