[The Origin of Species by DNA Coding](#) Mar 02 2020 Who are we? Where are we from? These questions have troubled people for centuries. The textbooks have long taught us that human beings evolved from anthropoid apes. Today, a new science, molecular anthropology, tells us this: 7 billion human beings in the world share a common grand, grand...father, the Y-chromosome Adam, and share a common grand,

grand...mother, the Mitochondrial Eve. After reading information in this book, you will be convinced that human beings could not be the result of evolution, sudden mutation, or in any way related to the anthropoid apes.

The Afterlife of al-Andalus May 16 2021 The first study to undertake a wide-ranging comparison of invocations of al-Andalus across the Arab and Hispanic worlds. Around the globe, concerns about interfaith relations have led to efforts to find earlier models in Muslim Iberia (al-Andalus).

This book examines how Muslim Iberia operates as an icon or symbol of identity in twentieth and twenty-first century narrative, drama, television, and film from the Arab world, Spain, and Argentina. Christina Civantos demonstrates how

agents in the present ascribe importance to the past and how dominant accounts of this importance are contested. Civantos's analysis reveals that, alongside established narratives that use al-Andalus to create exclusionary, imperial identities, there are alternate discourses about the legacy of al-Andalus that rewrite the traditional narratives. In the process, these discourses critique their imperial and gendered dimensions and pursue intercultural translation.

women lived happily ever after. But real princesses didn't always get happy endings. Sure, plenty were graceful and benevolent leaders, but just as many were ruthless in their quest for power, and all of them had skeletons rattling in their majestic closets. Princess Stephanie von Hohenlohe was a Nazi spy. Empress Elisabeth of the Austro-Hungarian Empire slept wearing a mask of raw veal. Princess Olga of Kiev slaughtered her way to sainthood. And Princess Lakshmibai waged war on the battlefield with her toddler strapped to her back.

The Last Princess May 28 2022 An engrossing biography of Queen Victoria's youngest daughter that focuses on her relationship with her willful mother--a powerful and insightful look into two women of significant importance and influence in world history. Beatrice was the last child born to Queen Victoria and Prince Albert. Her father died when she was four and Victoria came to depend on her youngest daughter absolutely, and also demanded from her complete submission. Victoria was not above laying it down regally even with her own children. Beatrice succumbed to her mother's obsessive love, so that by the time she was in her late teens she was her constant companion and running her mother's office, which meant that when Victoria died her daughter became literary executor, a role she conducted with Teutonic thoroughness. And although Victoria tried to prevent Beatrice even so much

as thinking of love, her guard slipped when Beatrice met Prince Henry of Battenberg. Sadly, Beatrice inherited from her mother the hemophilia gene, which she passed on to two of her four sons and which her daughter Victoria Eugenia, in marrying Alfonso XIII of Spain, in turn passed on to the Spanish royal family. This new examination will restore her to her proper prominence--as Queen Victoria's second consort.

The Last Princess Nov 02 2022 Beatrice Mary Victoria Feodore, later Princess Henry of Battenberg, was the last-born - in 1866 - of Victoria and Albert's children, and she would outlive all of her siblings to die as recently as 1944. Her childhood coincided with her mother's extended period of mourning for her prematurely deceased husband, a circumstance which may have contributed to Victoria's determination to keep her youngest daughter as close to her as possible. She would eventually marry Prince Henry of Battenberg in 1885, but only after overcoming her mother's opposition to their union. Beatrice remained Queen Victoria's favourite among her five daughters, and became her mother's constant companion.
