Help readers learn to think like nurses and visualize how to care for children To prepare today's students to begin thinking and acting like nurses, Principles of Pediatric Nursing, Seventh Edition presents a foundation of core pediatric nursing principles with an emphasis on growth and development, family-centered care, and health promotion and maintenance. Nursing students often bring an Adult Health mindset to Pediatric Nursing, which can obscure the special considerations needed to effectively care for children. Principles of Pediatric Nursing helps students visualize how to care for children and understand the ways caring for pediatric patients is similar to, and different from, adult patients. Also available with MyNursingLab MyNursingLab is an online self-study and class preparation program designed to engage students and improve results. Its personalized learning path helps students think like nurses as they move beyond memorization to true understanding through application.

Children and Their Families Aug 28 2019 Children and Their Families: The Continuum of Care provides a unique interdisciplinary perspective

that underscores the nurse's role in planning, coordinating, and working with all members of a pediatric health care team. It shows students how to make critical judgments and assessments to manage the care of children in a variety of community settings, including homes, schools, and medical centers. From infancy through adolescence, this text thoroughly covers the health promotion, surveillance, and maintenance needs of children. In this edition, threaded case studies follow a community of pediatric clients and continue throughout the chapter to show the interrelated dynamics of pediatric nursing care. A companion Website includes journal articles, NCLEX®-style chapter review questions, a Spanish-English audio glossary, Watch and Learn videos, a fluids and electrolytes tutorial, and much more.

Introductory Maternity & Pediatric Nursing Mar 28 2022 "This third edition of Introductory Maternity and Pediatric Nursing reflects the underlying philosophy of love, caring, and support for the childbearing woman, the child, and the families of these individuals. The content has been developed according to the most current information available. In

this text, we recognize that cultural sensitivity and awareness are important aspects of caring for the childbearing and child-rearing families. We also recognize that many children and pregnant women live in families other than traditional two-parent family homes and therefore refer to teaching and supporting the childbearing clients and family caregivers of children in all situations and family structures"--Provided by publisher.
