Traffic Aug 25 2022 Waarom gaan auto s in de andere rijstrook altijd sneller? Waarom belemmeren verkeerslichten het verkeer? Waarom gebeuren de meeste ongelukken bij warm en droog weer? Waarom staan mensen in de file maar mieren niet? Waar gaan al die mensen toch naartoe? Waarom rijden we zoals we rijden? Traffic analyseert alledaagse verkeerssituaties die automobilisten allemaal kennen: de ergernis over andere automobilisten, de file, de snelle flirt, toeter- en inhaalgedrag (van de anderen uiteraard). Traffic laat op fascinerende én komische wijze zien dat ons rijgedrag veel zegt over ons karakter en dat rijgedrag een uitgelezen mogelijkheid biedt om de menselijke natuur te onderzoeken. Door dit boek gaan we anders naar onszelf kijken, en wie weet maakt dat ons betere automobilisten. Wie Traffic heeft gelezen, zit voorgoed op een andere manier achter het stuur. De oorsprong van l'art nouveau Oct 23 2019
The opening of Sigmund Bing's gallery L'Art Nouveau had been an eagerly expected event in the Paris art world throughout the latter half of 1895, since Bing first announced that he would be soon exhibiting artistic furniture. The doors finally opened on 26 December 1895 as visitors poured in at 22 Rue de Provence to admire Bing's collection. Beginning with Bing's special feeling for Asian art, the author discusses his many other eclectic interests in art. Over 300 colour illustrations show the objects that were traded in his gallery: Tiffany glass, paintings and sculptures by Henri Toulouse Lautrec, Rodin, Claudel and Vuillard, as well furniture, ceramics and jewellery by Van de Velde, Colonna, De Feure and Gaillard. The book is based on extensive archive research, tracing destinations of the art objects that Bing traded to collectors and museums or sponsored personally. The authors show how one man, an art dealer, became an international trendsetter who influenced the canon in Europe and the US. The result is a renewed appreciation of Sigmund Bing's role as the principal founder of the new style that carries the name of his gallery: Art Nouveau.

Introduction to Business and Industrial Security and Loss Control May 30 2020 This book presents a treatise on the topic of business and industrial security and loss control as it applies to the protection of assets and personnel. The material in this thoroughly revised and updated second edition will enable law enforcement officers, security/loss control personnel and business managers to view security/loss control needs from a broad perspective and thus devise security measures that will reflect a well-thought-out systems approach. The book contains a wide range of information, and is presented in terms that will be meaningful to readers that do not have formal training or experience in the field of security and loss control. The information is of a practical nature which, if applied in a variation that is consistent with specific needs, will tailor a program that will result in a well-understood balanced systems approach. Through further understanding, the effectiveness of police and security personnel is enhanced as they perform crime prevention duties and assist local businesses in upgrading security measures. Replete with numerous illustrations and tables, the author provides a security/loss control survey for businesses, plus an overview of security for both businesses and industries. Specialized chapters on executive protection, fire dynamics and hazardous materials, security cameras, loss control surveys, loss control

manager participation, and managerial leadership are included. This book will help the officer fine-tune investigative techniques when a crime, such as a burglary, has been committed at a business.
Commercial Drivers License Pre-Trip Inspection Training Manual Jun 23 2022 Most training manuals skip and bounce around the truck in a manner that's both confusing and disorganized. This manual, however, systematically guides the trainee in a logical, orderly method that works and makes sense. From the start of the inspection to its end, the driver will never have to guess about where to go or what to inspect next. This is accomplished by displaying the truck and trailer components in sections that are logically and numerically organized followed by a thorough discussion of the components following the same logical, numerical order--making the pre-trip inspection far less intimidating and less confusing. While most manuals barely mention the components to be inspected, this manual discusses the components in great detail by first explaining their purpose and then by further explaining the multitude of problems that one could possibly find while inspecting a tractor and/or trailer or straight truck. Instead of black and white sketches that lack clarity and detail, this manual includes color photographs of every component covered. Never again will you have to wonder what a component really looks like nor will you have to embarrass yourself by asking someone. Also included are a sample

score sheet and an inspection checklist that can be used for practice while training. This manual also contains several bonus pictures, compliments of the world champion extreme turbine race team Miss GEICO and AMF Offshore Racing. More importantly, this manual includes all the information needed to successfully pass the pre-trip inspection exam on the first try and also serves as a good refresher to those who already have a commercial driver's license using an approach that has worked time and time again.

Leerjaren in Topeka Oct 03 2020 In 'Leerjaren in Topeka' van Ben Lerner doet Adam Gordon halverwege jaren negentig eindexamen in Topeka, Kansas. Zijn ouders zijn beroemde psychotherapeuten; de gesprekken 's avonds aan de eettafel zijn indringend. Op school geniet Adam enige faam als debater, als aspirant-dichter en als gewichtheffer. Hij is ook een van de leerlingen die de zonderlinge klasgenoot Darren bij wijze van experiment in hun 'coole' kliekje opnemen. Zijn aanwezigheid op een van de tienerbacchanalen die Adam in het weekend bezoekt, zal desastreuze gevolgen hebben. 'Leerjaren in Topeka' is het wordingsverhaal van ons huidige politieke moment. Lerner laat op meesterlijke wijze zien

hoe het nieuwe rechts zijn oorsprong vindt in de verveling van een Amerikaans voorstedelijk tienerbestaan. Bovenal is dit het verhaal van een Amerikaanse familie: van twee ouders die het beste willen voor hun enig kind, dat op zijn beurt nauwelijks kan wachten om Topeka voorgoed achter zich te laten.
