Vascular Neurosurgery Nov 22 2021 This book is a guide dedicated to vascular pathologies affecting the central nervous system. It uses a multiple-choice format with more than 340 genuine MCQs in a convenient format that is ideal for self-study. Seven chapters provide comprehensive coverage of core concepts in vascular neurosurgery. The questions are structured and organized so as to offer a step-by-step description of each disease, from the definition, related anatomy, pathology, clinical features, radiology to surgical decisions and operative tricks. Answers and explanations appear directly below the questions to make reading easy. This book is essential for residents across neurosurgical disciplines as it includes most of the neurovascular information neurosurgical residents need to prepare for their certification exam. It is also beneficial for those seeking a refresher or for those preparing for certification maintenance.

**MCQs and Short Answer Questions for Surgery** Apr 27 2022 This text has been designed as a supplement to the Textbook of Surgery to assist readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery. There are two types of Multiple Choice Questions: Type A and Type X. Type A have a single best response from five alternatives and are designed to test judgmental ability. Type X questions contain a stem with suggested answers that are either true or false and are designed to test factual knowledge and its application. The text is set out in three sections, the first containing Type A questions, the second containing Type X questions and the third containing short answer questions that emphasize clinical management

problems. In each section, the questions are presented in the sequence used in Textbook of Surgery. The number of questions for each general topic relate to the relative importance ascribed to each topic in order to provide balance. The answers are accompanied by a reference to the chapter(s) in the Textbook of Surgery where the information required to answer the specific question is presented.

**Self-assessment & Review Plastic Surgery** Jan 13 2021

**SBA MCQs for the MRCS** Dec 24 2021 Specifically designed to help candidates revise for the MRCS exam, this book features 350 Single Best Answer multiple choice questions, covering the whole syllabus. Containing everything candidates need to pass the MRCS Part A SBA section of the exam, it focuses intensively on the application of basic sciences (applied surgical anatomy, physiology, and pathology) to the management of surgical patients. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to Single Best Answer multiple choice questions are used, giving effective exam practice and guidance through revision and exam technique. This includes clinical case questions, 'positively-worded' questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as 'factual recall' questions, prompting basic recall of facts.

**EMQs and MCQs for Medical Finals** Jun 17 2021 EMQs and MCQs for Medical Finals is a unique revision and study tool for Final Examination preparation. Practice questions cover a variety of key topics in both medicine and surgery, with the mixture of questions reflecting the general weighting in real exams. Comprehensive answer notes are provided for each question, explaining why a particular answer is correct and why others are not. Useful mnemonics and tips on remembering key facts help to consolidate learning.

**Surgery MCQs and EMQs** Nov 03 2022 Surgery MCQs and Vivas is designed as a companion to *Fundamentals of Surgical Practice*, by Aljafri Majid and Andrew Kingsnorth, and is split into two main sections; multiple choice questions and viva topics, reflecting the structure of two of the key components of many postgraduate surgical examinations worldwide, including the MRCS and AFRCSEd. The MCQ and viva questions provided are typical of those that will appear in the MRCS examination, and answers, along with detailed explanatory notes are provided throughout. Each of the two sections is further subdivided into sub-sections reflecting the topics covered in *Fundamentals of Surgical Practice*, and the model answers in all cases are cross-referenced to the relevant sections of this comprehensive text to enhance the learning experience for the reader, who can instantly get detailed information on a topic of interest.

**MCQs in General Surgery** Oct 10 2020 In late 1996, the format of the examinations for surgical trainees in the UK will change. The existing FRCS diploma examination will be replaced by a new MRCS (Membership of the Royal College of Surgeons) qualification. These changes will be phased in over a period of time. The first major change will be in the existing Part I Applied Basic Sciences examination, which will now consist of two MCQ papers covering both basic and clinical aspects of surgery.

**MCQs and EMQs for the Diploma in Otolaryngology** Oct 22 2021 This book by former DOHNS candidates focuses on topics that are likely to be examined. Each answer is accompanied by an explanation using current evidence-based research wherever possible. This will be an essential revision text for all DOHNS candidates.

*1,000 Practice MTF MCQs for the Primary and Final FRCA* Jan 31 2020 A single, comprehensive text covering all the MCQs required to prepare for both the Primary and Final FRCA exams.

**ENT MCQs for Medical Students** May 17 2021 Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma
