Principles Mar 29 2022 #1 New York Times Bestseller

"Significant...The book is both instructive and surprisingly moving." —The New York Times Ray Dalio, one of the world's most successful investors and entrepreneurs, shares the unconventional principles that he's developed, refined, and used over the past forty years to create unique results in both life and business—and which any person or organization can adopt to help achieve their goals. In 1975, Ray Dalio founded an investment firm, Bridgewater Associates, out of his two-bedroom apartment in New York City. Forty years later, Bridgewater has made more money for its clients than any other hedge fund in history and grown into the fifth most important private company in the United States, according to Fortune magazine. Dalio himself has been named to Time magazine's list of the 100 most influential people in the world. Along the way, Dalio discovered a set of unique principles that have led to Bridgewater's exceptionally effective culture, which he describes as "an idea meritocracy that strives to achieve meaningful work and meaningful relationships through radical transparency." It is these principles, and not anything special about Dalio—who grew up an ordinary kid in a middle-class Long Island neighborhood—that he believes are the reason behind his success. In Principles, Dalio shares what he's learned over the course of his remarkable career. He argues that life, management, economics, and investing can all be systemized into rules and understood like machines. The book's hundreds of practical lessons, which are built around his cornerstones of "radical truth" and "radical transparency," include Dalio laying out the most effective ways for individuals and organizations to make decisions, approach challenges, and build strong teams. He also describes the innovative tools the firm uses to bring an idea meritocracy to life, such as creating "baseball cards" for all employees that distill their strengths and weaknesses, and employing computerized decision-making systems to make believability-weighted decisions. While the book brims with novel ideas for organizations and institutions, Principles also offers a clear,

straightforward approach to decision-making that Dalio believes anyone can apply, no matter what they're seeking to achieve. Here, from a man who has been called both "the Steve Jobs of investing" and "the philosopher king of the financial universe" (CIO magazine), is a rare opportunity to gain proven advice unlike anything you'll find in the conventional business press.

Principles for Dealing with the Changing World Order Aug 02 2022 Examines history's most turbulent economic and political periods to reveal why the times ahead will likely be radically different from those in recent memory.

Principes Nov 05 2022 In 'Principes' deelt Dalio de vele inzichten die hij in de loop van zijn opmerkelijke carrière heeft opgedaan en laat vervolgens tot in detail zien hoe die worden toegepast in zijn eigen bedrijf. De honderden praktische lessen in dit boek gaan onder meer over het creëren van een goede bedrijfscultuur, effectieve besluitvorming, samenwerking, goed management en het bouwen van sterke teams. Iedereen kan de heldere levenslessen en inzichten die Ray Dalio in 'Principes' deelt toepassen om zijn eigen doelen te bereiken. In 1975 richtte Dalio vanuit zijn tweekamerappartement in New York een investeringsbedrijfje op: Bridgewater Associates. Veertig jaar later heeft Bridgewater meer geld verdiend voor zijn klanten dan ieder ander hedgefonds in de geschiedenis. Dat is deels te danken aan de buitengewoon effectieve cultuur bij Bridgewater, gebaseerd op wat Ray Dalio 'radicale waarheid' en 'radicale transparantie' noemt. Het zijn deze principes, niet zijn bijzondere kwaliteiten, die volgens hem de basis vormen van zijn succes.

Het oneindige spel Jul 29 2019 We kiezen het spel niet. We bepalen de regels niet. Maar we kiezen wel hoe we spelen. Simon Sinek bereikte miljoenen lezers met zijn bestseller 'Begin met het Waarom', nu is er de langverwachte opvolger 'Het oneindige spel'. In 'Het oneindige spel' laat Sinek zien dat ondernemen en werken wel een duidelijk begin hebben, maar geen echt einde: ze vormen een oneindig spel. Anders dan bij voetbal of schaken, met hun heldere spelregels en duidelijke einde, kun je nooit van een eindoverwinning spreken; telkens vind je nieuwe uitdagingen op je pad. De beste leiders spelen instinctief volgens de regels van het oneindige spel. Ze beseffen dat het niet gaat om de volgende kwartaalcijfers of de volgende verkiezingsresultaten; het gaat om de volgende generatie. Aan de hand van vele voorbeelden laat Sinek zien hoe zij organisaties bouwen die sterker, innovatiever en inspirerender zijn en waar mensen elkaar en hun leiders vertrouwen. Ze kunnen iedere storm trotseren en leiden ons de toekomst in.

Changing World Order Jul 01 2022 Learning the lessons from the past helps us to understand how we can make the most of the opportunities in the turbulent times ahead

Principles Jan 27 2022 From Ray Dalio, the legendary investor and #1 New York Times bestselling author of Principles—whose books have sold more than five million copies worldwide—comes a guided reflection journal that empowers readers everywhere to develop their own principles for success in work and life. "Principles are fundamental truths that serve as the foundations for behavior that gets you what you want out of life." —Ray Dalio In his #1 New York Times bestseller

Principles, legendary investor Ray Dalio introduced millions of readers around the world to the unconventional approach he developed as the founder and builder of Bridgewater Associates, the largest and most successful hedge fund in the world. Dalio attributes his unique success to his process of recording, refining, and acting on a set of well-defined principles, which are effectively decision-rules for getting what you want out of life and work. His goal in publishing the book was to show readers the value of principle-based thinking so that they could develop their own principles, aligned with their own values, for getting whatever they wanted out of life. With this new journal, Dalio takes his goal one step further to help readers reflect on and record their own principles. He does that by providing a series of guided exercises and questions for reflecting on what you're like, what you value, and what principles will best help you achieve your goals. These exercises draw from key concepts in the original Principles book, including: 1. How to identify your strengths, weaknesses, motivations, and preferences 2. How to use the "five-step process" to achieve your goals 3. How to become both "assertive and open-minded at the same time" 4. How to maximize your learning from your mistakes (which are inevitable) All of these exercises can optionally be enhanced using the free Principles in Action iOS and Android app, which provides an even more interactive, multimedia experience, and they are followed by a number of blank journal pages containing thought-provoking and unconventional prompts from Principles aimed at helping you formulate your own principles. The experience concludes with a structured reflection on where you and your loved ones are along life's journey, leaving you with a highly personalized, practical playbook for achieving success in the years ahead.

Wereldorde Sep 22 2021 Provocerend en uitgesproken In Wereldorde neemt Kissinger ons mee op een wereldreis langs de historische opvattingen over de ordening van de wereld. Hoe uiteenlopend deze opvattingen ook zijn, iedere beschaving zag zichzelf als het middelpunt van de wereld en beschouwde de eigen normen en waarden als universele standaard. In onze tijd speelt de internationale politiek zich af op wereldniveau. Tegenstrijdige historische opvattingen over de hoe de wereld in elkaar zit, of zou moeten zitten, komen met elkaar in aanraking. Maar de belangrijke spelers zijn onbekend met elkaars spelregels en een gemeenschappelijk doel is er niet. Wereldorde is een

uniek boek waarin Kissinger laat zien hoe oude opvattingen terug te vinden zijn in hedendaagse conflictsituaties en hoe we - mogelijk - tot een vreedzame oplossing kunnen komen. Henry Alfred Kissinger werd geboren in Fürth (Duitsland) in 1923. Zijn familie verhuisde in 1938 naar New York, op de vlucht voor het naziregime. Als politicus en diplomaat is hij overal op de wereld geweest, stond presidenten met raad en daad terzijde en was nauw betrokken bij de grote politieke gebeurtenissen van onze tijd. Hij schreef vele boeken waaronder zijn memoires (Classic Memoirs), uitgegeven in drie boeken (2011-2012). In 1973 werd hem de Nobelprijs voor de Vrede toegekend.

Action workbook, based on "Principles" by Ray Dalio.

Stieg Larssons erfenis Jan 03 2020 Op 28 februari 1986 werd de Zweedse premier Olof Palme op straat in Stockholm doodgeschoten. Een moord die tot de dag van vandaag onopgelost is en waarover de meest wilde complottheorieën bestaan. Stieg Larsson, de latere auteur van de wereldberoemde Millennium-trilogie, is overtuigd van de betrokkenheid van extreemrechtse groeperingen en buitenlandse veiligheidsdiensten en begint zelf in het diepste geheim een intensief onderzoek. Hij houdt zijn zoektocht jarenlang vol en doet onthutsende ontdekkingen, maar voor hij de vermoedelijke daders kan aanwijzen overlijdt hij in 2004 plots aan een hartaanval. In 2014 vindt journalist en documentairemaker Jan Stocklassa in een opslagbox twintig kartonnen dozen met daarin Stieg Larssons aantekeningen over de moord. Hij besluit het onderzoek voort te zetten en zet zorgvuldig de puzzelstukjes uit het archief in elkaar. Hij volgt alle aanwijzingen over mogelijke daders en stuit daarbij op nieuwe en overtuigende aanwijzingen naar wie verantwoordelijk is geweest voor de moord op Olof Palme. Dit boek - bloedstollende true crime, onderzoeksjournalistiek en biografie in één - onthult niet alleen onbekende feiten en nieuwe verdachten in de moord op Palme, maar duikt ook in de wereld van Stieg Larsson, wiens leven en werk opvallende gelijkenissen vertoont met dat van Mikael Blomkvist, de hoofdpersoon in zijn wereldberoemde Millennium-reeks.

Action Workbook Based on Principles for Success by Ray Dalio Feb 13 2021 I read someone's review of the book "Principles for Success" by Ray Dalio, in which he was really angry with the author: "This book is completely misleading. Not worth the price, and I wasn't expecting this from Ray Dalio. This book is for kids who know nothing about success or life or leadership." But I saw something completely different in this book! I met an inspirational book, highlighting principles of success and accompanied by stunning illustrations. As usual, I turned Ray Dalio's theory into an applicable practice that would give practical value to those who would follow it.

Flitshandel Apr 05 2020 Flitshandel viel als een bom in de financiële wereld. Binnen een mum van tijd stond de FBI op Wall Street en riep senator John McCain om een onderzoek door het Amerikaanse Congres. Wat maakt Flitshandel zo explosief? Het gaat over supercomputers, geprogrammeerd door de allerslimste en geniaalste nerds, die hierdoor een nanoseconde sneller zijn dan andere computers en zo tientallen miljarden extra verdienen voor hun bazen op de beurs. Is het strafbaar? Is het handelen met voorkennis? En wie is de dupe? Bestsellerauteur Michael Lewis schreef met Flitshandel een waargebeurde thriller van wereldformaat. MICHAEL LEWIS is de grootste nonfictie auteur van Amerika en heeft diverse internationale best sellers op zijn naam staan, waaronder: The Big Short, Moneyball en Liar's Poker. 'Een groot voorbeeld' Jeroen Smit 'Een bom in de financiële wereld. (...) Een topjournalist.' - Matthijs van Nieuwkerk 'Verrukkelijke non-fictie. Als lezer krijg je soms het idee dat je een thriller van John le Carré leest, in plaats van een boek over algoritmen, dark pools en rebate arbitrage. (...) Lewis kan als geen ander laten zien hoe de financiële markten van gezicht zijn veranderd.' - De Groene Amsterdammer 'Met een oerknal staat ook zijn nieuwste werk op de kaart.' - Het Financieele Dagblad 'Dit is wat ik wil. (...) Een groot voorbeeld.' - Jeroen Smit 'Niet veel schrijvers weten een hoorzitting in de senaat te veroorzaken met hun boek. Michael Lewis wel. Zijn explosieve Flash Boys, over de corrupte beurshandel, veroorzaakte dit voorjaar veel opschudding.' - NRC Q 'Flash Boys leest als een spannend jongensboek: met een antiheld, een geheime samenzwering en mysterieuze dark pools. Het is ook nog eens op echte gebeurtenissen gebaseerd. (...) Nog altijd is een enkel ouderwets, spannend geschreven boek in staat de hightech aandelenhandel flink op zijn kop te zetten. (...) Het beschrijft op pakkende wijze het fenomeen flitshandel.' - Het Financieele Dagblad In de zomer van 2009 was de lijn een eigen leven gaan leiden. Tweeduizend mannen groeven en boorden de merkwaardige behuizing die de lijn nodig had om te overleven. 205 ploegen van acht man elk, plus allerlei adviseurs en inspecteurs, stonden dagelijks voor dag en dauw op om te bedenken welke explosieven ze nodig hadden om een gat te maken in een onschuldige berg, hoe ze een tunnel konden aanleggen onder een rivierbedding, of hoe ze een geul moesten graven naast een landweg zonder berm. Dat deden ze zonder een alleszins voor de hand liggende vraag te beantwoorden: waarom? De lijn was een buis van hard plastic met een dikte van nog geen vier centimeter en was ontworpen om vierhonderd flinterdunne strengen glas te beschermen. Toch kreeg je het gevoel dat het een levend wezen was, een onderaards reptiel met specifieke behoeften en verlangens. De geul waarin de lijn zou komen te liggen moest kaarsrecht zijn. Er was misschien nog nooit een pad zo compromisloos door de aarde gegraven. De lijn moest een datacentrum in het zuiden van Chicago verbinden met een aandelenbeurs in het noorden van de staat New Jersey. Het was van cruciaal belang dat de hele onderneming geheim zou blijven.

Big Debt Crises Jul 09 2020 "Ray Dalio's excellent study provides an innovative way of thinking about debt crises and the policy response." - Ben Bernanke "Ray Dalio's book is must reading for anyone who aspires to prevent or manage through the next financial crisis." - Larry Summers "A terrific piece of work from one of the world's top investors who has devoted his life to understanding markets and demonstrated that understanding by navigating the 2008 financial crisis well." - Hank Paulson "An outstanding history of financial crises, including the devastating crisis of 2008, with a very valuable framework for understanding why the engine of the financial system occasionally breaks down, and what types of policy actions by central banks and governments are necessary to resolve systemic financial crises. This should serve as a play book for future policy makers, with practical guidance about what to do and what not to do." - Tim Geithner "Dalio's approach, as in his investment management, is to synthesize information, and to convert a sprawling and multi-faceted issue into a clear-cut process of cause and effect. Critically, he simplifies without oversimplifying." - Financial Times For the 10th anniversary of the 2008 financial crisis, one of the world's most successful investors, Ray Dalio, shares his unique template for how debt crises work and principles for dealing with them well. This template allowed his firm, Bridgewater Associates, to anticipate events and navigate them well while others struggled badly. As he explained in his #1 New York Times Bestseller, Principles: Life & Work, Dalio believes that most everything happens

over and over again through time so that by studying their patterns one can understand the cause-effect relationships behind them and develop principles for dealing with them well. In this 3-part research series, he does that for big debt crises and shares his template in the hopes reducing the chances of big debt crises happening and helping them be better managed in the future. The template comes in three parts:: 1) The Archetypal Big Debt Cycle (which explains the template), 2) 3 Detailed Cases (which examines in depth the 2008 financial crisis, the 1930's Great Depression, and the 1920's inflationary depression of Germany's Weimar Republic), and 3) Compendium of 48 Cases (which is a compendium of charts and brief descriptions of the worst debt crises of the last 100 years). Whether you're an investor, a policy maker, or are simply interested, the unconventional perspective of one of the few people who navigated the crises successfully, Principles for Navigating Big Debt Crises will help you understand the economy and markets in revealing new ways.

De slag om Europa Feb 02 2020 Naast geopolitieke en financiële crisissen, de klimaatverandering, Brexit en corona, proberen Rusland en China de EU uit elkaar te spelen. Is Europa sterk genoeg om al deze uitdagingen aan te kunnen? 'Verplichte kost.' - Het Financieele Dagblad 'Uiterst leesbaar en leerzaam.' - China.nu Ooit deelde Europa de lakens uit in de wereld, maar op dit moment wordt het continent van alle kanten belaagd, ook van binnenuit. De Chinese president Xi Jinping ziet het continent als een wingewest. Hij is al jaren bezig invloed op de Westelijke Balkan te kopen en probeert de Europese Unie uit elkaar te spelen. Rusland voelt zich bedreigd en president Poetin voert de druk op om de NAVO te ontwrichten. President Trump maakte het de Russen en Chinezen intussen gemakkelijk door zich van zijn trouwste bondgenoten af te keren en zelf ook de aanval op Europa te openen. Premier Johnson dacht buiten de Europese Unie beter af te zijn en de Hongaarse en Poolse leiders ondermijnen de democratische rechtsstaat. Allemaal menen ze dat een sterke Europese Unie hun ambities in de weg staat. Politieke leiders worstelen met een antwoord. De coronacrisis en de oorlog in Oekraïne hebben de uitdaging nog verder vergroot. Kunnen we deze slag om Europa winnen? Kan Biden de schade die Trump aanrichtte repareren? Wordt Nederland vermalen tussen Duitsland en Frankrijk? Blijft de EU een speler in de wereld of wordt het continent de speeltuin van de wereldmachten? De dreiging is groot, maar in het fascinerende en verrassend optimistische De slag om Europa laat een van de grootste geopolitieke denkers van deze tijd zien hoe velen hun tanden op Europa stuk bijten.
