Documentation for Rehabilitation Oct 03 2022 Better patient management starts with better documentation! *Documentation for Rehabilitation: A Guide to Clinical Decision Making in Physical Therapy, 3rd Edition* shows how to accurately document treatment progress and patient outcomes. Designed for use by rehabilitation professionals, documentation guidelines are easily adaptable to different practice settings and patient populations. Realistic examples and practice exercises reinforce concepts and encourage you to apply what you've learned. Written by expert physical therapy educators Lori Quinn and James Gordon, this book will improve your skills in both documentation and clinical reasoning. A practical framework shows how to organize and structure PT records, making it easier to document functional outcomes in many practice settings, and is based on the International Classification for Functioning, Disability, and Health (ICF) model - the one adopted by the APTA. Coverage of practice settings includes documentation examples in acute care, rehabilitation, outpatient, home care, and nursing homes, as well as a separate chapter on documentation in pediatric settings. Guidelines to systematic documentation describe how to identify, record, measure, and evaluate treatment and therapies - especially important when insurance companies require evidence of functional progress in order to provide reimbursement.

Workbook/textbook format uses examples and exercises in each chapter to reinforce your understanding of concepts. NEW Standardized Outcome Measures chapter leads to better care and patient management by helping you select the right outcome measures for use in evaluations, re-evaluations, and discharge summaries. UPDATED content is based on data from current research, federal policies and APTA guidelines, including incorporation of new terminology from the Guide to Physical Therapist 3.0 and ICD-10 coding. EXPANDED number of case examples covers an even broader range of clinical practice areas.

Documentation Manual for Writing SOAP Notes in Occupational Therapy Aug 09 2020 This exciting new manual presents a systematic approach to writing one form of documentation, the SOAP note. The purpose of this text is to teach readers to write SOAP notes that will be reimbursable under Medicare, Part B, and managed care. With the current changes in healthcare, documentation of patient care is essential to meet standards for reimbursement of services. SOAP notes prepare students for real-world clinical practice, effectively teaching the mechanics of writing problem statements and goals, and addressing documentation in different stages of treatment and practice settings. The author walks the reader through each step of the documentation process, effectively teaching the mechanics of writing problem statements and goals and addressing documentation in different stages of treatment and practice settings. Written in a manual format, this book provides the reader with: A step-by-step "how to" approach to documenting the occupational therapy process. Skills broken down into small steps and taught individually. A format or "template" for writing problems, goals, and each section of the SOAP note. A list of common abbreviations and symbols used in documentation. Examples of notes from many practice areas and stages of the documentation process. Worksheets that provide quick checklist and summary that can be carried into clinical situations to remind the reader of the essential requirements for SOAP

notes. Documentation Manual for Writing SOAP Notes in Occupational Therapy is the only manual that teaches a skill focusing on the specific requirements of OT application, and then provides the opportunity for practice with exercises and examples presented throughout the book.
