Drive Jul 17 2021 Vergeet alles wat je weet over hoe je mensen moet motiveren, het zit anders in elkaar dan je dacht. Het geheim van goed presteren, plezier en zin in je leven en werk is de intrinsieke motivatie. Dat is je diepe wens om je eigen leven te bepalen, nieuwe dingen te leren en te creëren en bij te dragen aan zinvolle zaken. Daniel Pink toont aan dat de geaccepteerde wijsheid over mensen motiveren niet strookt met hoe wij thuis en op het werk elke dag te werk gaan. De oude manier van belonen en straffen werkt voor de meeste taken niet meer. Kijk maar naar de bonuscultuur bij bedrijven: een slecht middel voor een goed doel. Het gevolg van verkeerde beloning is dat we slechte kwaliteit leveren en uiteindelijk minder betrokken raken bij wat we doen. Grit May 27 2022 "A useful guide for parents or teachers looking for confirmation that passion and persistence matter, and for inspiring models of how to cultivate these important qualities." —The Washington Post In this young readers edition of the instant New York Times bestseller Grit, MacArthur Genius Award-winning professor Angela Duckworth offers insights into who succeeds in life and why the secret to achievement a special blend of passion and persistence she calls "grit." The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit: Passion, Perseverance, and the Science of Success Duckworth shows young people how they can achieve remarkable things not just by relying on natural talent but by practicing a unique form of focused persistence. She also teaches them how to be better at pursuing the small goals that will bring joy into their everyday life. Drawing on her powerful personal story, Duckworth describes how a youth spent smashing through every academic barrier resulted in the hypothesis that the real predictor of success may not be inborn "talent" but a special blend of resilience and single-mindedness. Through her descriptions of field research at venues as various as the National Spelling Bee (where students who score highest on the "Grit Scale" land in the final rounds) to work with Pete Carroll coach of the Seattle Seahawks, who was building the grittiest culture in the NFL, Duckworth shows how "grit" works in the real world. She also passes along insights gleaned from interviews with dozens of high achievers including the New York Times Crossword Editor, the Dean of Admissions at Harvard, and more.

Lead With Love May 15 2021 Life is tough: full of challenges, disappointments, failures, and losses. Yet it is also rewarding, with triumphs, milestones, close family relationships, and friends making it all worthwhile. The task of leaders is to remind people of life's upside by bringing out their best and helping them avoid getting sidetracked by inevitable setbacks. Lead with Love will help leaders appreciate how they can inspire others by reaching out to them with caring and sensitivity. Demonstrating this kind of positive attitude will stimulate followers to achieve, create, and bless the world with their gifts and talents. Yet leaders have a bigger task than just sharing a laugh or acting as the office cheerleader. They must also challenge others to reach for their full potential, or confront them when they make bad choices. In his foreword to the book, ESPN football analyst Dan Orlovsky notes that leading is a continuing, ever-changing challenge. As he puts it, leading is no simple walk in the park, twenty-five yard chip shot field goal, or cruise down interstate, but a no-holds barred, complex, often mysterious challenge. "Chances are you have read other devotionals or reflections on how to survive life's maze," Orlovsky says. "But this one is different. Lead with Love is a fantastic resource, one that will fit into your busy days at a pace suited for twenty-first century life. It will help equip you for the days, weeks, and months ahead." Leading is a universal challenge. In some way, everyone is a leader. It can be a team, a family, a child, a mentee, or a small group. The words people speak, the actions they take, and the thoughts they think will ultimately be communicated to others. This leaves leaders with a clear choice--use this power in loving ways or employ it negatively through harmful words or actions that can destroy more effectively than bombs or bullets. The short, concise meditations in these 40 devotionals are shaped around the themes of purpose, passion, perseverance, and perspective. They will help readers to contemplate how their words, actions, and thoughts affect others. And, create a desire to encourage others to reach for the stars instead of settling for below average. Author Brian Catanella writes from a well-rounded background of business expertise, community service, and coaching abilities that enable him to distill life's daily events into meaningful, teachable moments. Lead with Love is designed for a twenty-first century audience that wants to transform the world.

De grit factor Nov 01 2022 Waarom hebben getalenteerde mensen vaak moeite om hun doelen te bereiken terwijl minder begaafde individuen soms zonder slag of stoot verbazingwekkende prestaties leveren? Op basis van haar eigen verhaal als dochter van een wetenschapper die zich vaak beklagde over haar vermeende gebrek aan intelligentie, beschrijft Angela Duckworth haar loopbaan door het onderwijs, de consultancybusiness en de neurowetenschap. Het leidde tot de hypothese dat werkelijk succes vooral ontstaat door een speciale mix van volledige overgave en de vastberadenheid om te werken aan je langetermijndoelen: grit. In dit boek doet Duckworth, winnaar van de prestigieuze MacArthur Genius Award, haar theorie uit de doeken en helpt ze iedereen om aan de hand van zes kernwaarden hun eigen grit-factor te bepalen: hoop, inspanning, precisie, passie, rituelen en prioriteiten. *Grit* gaat voorbij aan clichés als 'succes is vooral hard werken' en biedt een frisse en motiverende manier om zelf

ongekende resultaten te behalen.

Offering an informed call to citizen engagement, Stitzlein directly addresses presidential campaigns, including how to select candidates who support citizens in enacting and sustaining hope. Drawing on examples from American history and pragmatist philosophy, this book explains how hope can be cultivated in schools and sustained through action in our communities -- it describes what hope is, why it matters to democracy, and how to teach it. Passion for Work Jan 29 2020 Passion is a pervasive concept in the work domain. Workers aspire to be passionate in the hope of finding meaning and satisfaction from their professional life, while employers dream of passionate employees who will ensure organizational performance. Does passion for work matter? Does passion invariably bring about the anticipated positive outcomes or is there a darker side to passion for work that can also lead to negative outcomes for individuals and organizations? The goal of this book is to address these issues. This volume reviews major theories of work passion, focusing specifically on the dominant theory: the Dualistic Model of Passion. This theory distinguishes between two types of passion--harmonious and obsessive--and their associated determinants and consequences. This volume provides a comprehensive understanding of passion for work by addressing the origin of the concept and its theoretical issues: how can passion for work be developed, what are the consequences to be expected at the individual and organizational levels, and how can passion for work shed new light on contemporary issues in the workplace. *Passion for Work: Theory, Research, and Applications* synthesizes a vast body of existing research in the area, provides insights into new and exciting research avenues, and explores how passion for work can be cultivated in work settings in order to fulfill both workers' and employers' hopes for a productive and satisfying work life.

Passion and Entrepreneurship Apr 13 2021 Providing new perspectives on the interface between passion and entrepreneurship, this book recognizes that entrepreneurship is not just based on the search for profit. Instead, the entrepreneurial experience incorporates more complex processes, often based on less rational behavior motivated by reasons other than revenue. 'Passion' refers both to emotional elements that may fuel an entrepreneurial effort as well as something that feeds the business. The book challenges established views and shows the complexity of the link between passion and entrepreneurship. The authors discuss the main implications for businesses, and explore how passion at the individual and community level influences entrepreneurial efforts. Offering case studies from multiple sectors alongside conceptual frameworks, this edited volume is a useful tool for scholars, practitioners, and policymakers working on entrepreneurship.

Grit to Great Feb 21 2022 It is not native intelligence or natural talent that makes people excel, it's old-fashioned hard work, sweat equity, and determination. In *Grit to Great*, Linda Kaplan Thaler and Robin Koval tackle a topic that is close to their hearts, one that they feel is the real secret to their own success in their careers--and in the careers of so many people they know and have met. And that is the incredible power of grit,

perseverance, perspiration, determination, and sheer stick-to-it-tiveness. We are all dazzled by the notion that there are some people who get ahead, who reach the corner office because they are simply gifted, or well-connected, or both. But research shows that we far overvalue talent and intellectual ability in our culture. The fact is, so many people get ahead--even the gifted ones--because they worked incredibly hard, put in the thousands of hours of practice and extra sweat equity, and made their own luck. And Linda and Robin should know--they are two girls from the Bronx who had no special advantages or privileges and rose up through their own hard work and relentless drive to succeed to the top of their highly competitive profession. In a book illustrated with a cornucopia of stories and the latest research on success, the authors reveal the strategies that helped them, and countless others, succeed at the highest levels in their careers and professions, and in their personal lives. They talk about the guts--the courage--necessary to take on tough challenges and not give up at the first sign of difficulty. They discuss the essential quality of resiliency. Everyone suffers setbacks in their careers and in life. The key, however, is to pick yourself up and bounce back. Drawing on the latest research in positive psychology, they discuss why optimists do better in school, work, and on the playing field--and how to reset that optimistic set point. They talk about industriousness, the notion that Malcolm Gladwell popularized with the 10,000-hour rule in his book *Outliers*. Creativity theorist Mihaly Csikszentmihalyi believes it takes a minimum of 10 years for one's true creative potential to be realized. And the authors explore the concept of tenacity--the quality that allows us to remain focused and avoid distraction in order to get the job done--an increasingly difficult task in today's fragmented, cluttered, high-tech, connected world. Written in the same short, concise format as *The Power of Nice* and leavened with the natural humor that characterizes Linda's and Robin's lives--and books--*Grit to Great* is destined to be the book everyone in business needs.

The secret to outstanding achievement is not talent, but a passionate persistence. In other words, grit. "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. Perseverance Nov 28 2019 With the current social upheaval in the world today, some individuals seem to become exhausted with life choices and goals, leading people not to pursue their dreams. Grit is missing from our society. However, there is an answer to achieving one's objectives and improving as individuals. Indeed, the answer is God, who helps us, as Christians, overcome obstacles, and reach our full potential, to serve God, who gives us the perseverance in overcoming earthly barriers. Dr. William G. Covington, Jr, provides a template to follow, which combines Bible teachings and other forms of application, such as extensive research, theory, and real-world applications, to negate the psychological noise that continues to impede our progress as both Christians and Homo Sapiens. Dr. Covington's book, *Perseverance: The power that gets results*, he challenges the reader to remove toxic thoughts through Biblical readings, which transform individuals in reaching their full potentials through the Word of God. The book highlights how by submitting to God, we as Christians, develop into warriors on earth, who can both design, and transform ourselves and others, through perseverance, which allows us to be free, and practice Christian principles, thus overcoming earthly obstacles. Implementing these practices allows for a paradigm shift in a world that tells us we can achieve goals without effort. This is especially valid in our modern-day world of social media technologies, which informs society; technology can take something complicated and make it accessible by only exerting minimal effort. Dr. Covington's timely book showcases that through the combination of God's Word's and principles, and incorporating these principles into His followers' lives, Dr. Covington creates a reality that develops character and submission to God. This is an inspirational book that is timely for a generation that needs God's teachings. These principles, which urge us, as individuals, to persevere through this world and develop our characters, by changing the template, from instant gratification to working diligently to overcome roadblocks, which produce success. Dr. Covington's book helps to create people equipped to sustain and prosper in modern society, thus building a robust, Christian world, where individuals are unafraid of meeting this legacy, by removing toxic thoughts through perseverance.
