Routledge Handbook on Victims' Issues in Criminal Justice Aug 26 2019 The Routledge Handbook on Victims' Issues in Criminal Justice is a comprehensive and authoritative handbook on current issues, with a distinctive emphasis on the delivery of suitable and effective services. The editor provides an

introduction and conclusion to the handbook, synthesizing original contributions from current leaders in the field, surveying victims' rights in the United States, victim participation in the criminal justice system, victims' welfare and needs, and most notably the services that have been developed in response. A section on special populations in the United States brings focus to current and emerging issues faced within the country, while a section covering international and transnational victimization explores globalization and the implications of other legal traditions and systems. This handbook addresses the crucial and complex topic of victims' issues, examining both societal and governmental reactions to victims' concerns and acquainting readers with the issues that discord may cause, and how they affect the provision of services. This book will serve as an essential reference for academics and practitioners working with crime victims, as well as for students taking courses in victimology, criminology, sociology, and related subjects.

**Crime, Victims and Policy** Nov 21 2021 **Crime, Victims and Policy** brings together the work of leading international scholars to examine how the experience of victims of crime, and the formulation of policies and theory that impact upon them, are translated and experienced within specific local contexts. The collection examines questions of key concern to scholars interested in the contexts and experiences of 'victims of crime' both within and beyond criminal justice systems. The chapters assembled here cover crucial questions, including the Eurocentric nature of conventional victimological approaches, the limitations of legal definitions of victims, the construction of victim identities, experiences of the criminal justice system, the policy making process and the 'discovery' of new victims. Importantly, a central theme of this collection is how the local contexts of postcolonial societies within the southern hemisphere both reflect and diverge from international developments in victim experience, policy and practice.

**Criminal Investigation on the Street** Jun 28 2022 **Criminal Investigation on the Street** presents investigative principles and techniques—and applies them to solving real-world crimes—in an engaging, student-friendly style centered on the Investigative Triangle: legal aspects, evidence, and behavioral analysis. Students and instructors alike will benefit from this book's comprehensive coverage and accessible writing style. Along with the Investigative Triangle model, which provides a solid framework for approaching investigations, students will also learn about Criminal Investigative Analysis, a range of behavior-based services and strategies to help solve crimes. Chapters 1–7 (Section I) present the principles and techniques of criminal investigation—history and theory, legal background, forensics, crime scene, witnesses and informants, interviews and interrogations—including a chapter on crime analysis and Criminal Investigative Analysis. Chapters 8–13 (Section II) apply these principles and techniques to specific types of crime, beginning with assault and death investigations and a separate chapter on culpable homicide. Section II also covers sex crimes; theft, burglary, robbery, and arson; enterprise and white-collar crime, and terrorism. The book is illustrated throughout with a variety of Exhibits: photographs and drawings, flowcharts, facsimiles of police documents, and other instructive visuals. Each chapter begins with an engaging vignette, some based on high-profile news articles and others drawn from the author's extensive experience. Interactive features—Case Focus, You Call It, and You Write It—occur at strategic points in every chapter, challenging students to answer questions and apply concepts to actual cases and fictional scenarios. Each chapter ends with a return to the Investigative Triangle, assessing how it applies to the chapter's main topics. Chapters 1–7 (Section I) each include a list of Important Cases (court decisions relevant to the chapter's key concepts). At the end of every chapter (Sections I and II), the Investigate Further feature provides an annotated list of readings, films, and other resources appropriate for class projects, term papers, and special assignments. Each chapter concludes with review questions and a chapter summary. This book is geared to students in the Criminal Investigation course at both two- and four-year institutions, and will appeal to those aspiring to a career in any field related to criminal investigation.

***Violence Against Children in the Criminal Justice System*** Sep 27 2019 Children who come into conflict with the law are more likely to have experienced violence or adversity than their non-offending peers. Exacerbating the deleterious effects of this childhood trauma, children's contact with the criminal justice system poses undue risks of physical, sexual, and psychological violence. This book examines the specific forms of violence that children experience through their contact with the criminal justice system. Comprising contributions from leading scholars and practitioners in children's rights and youth justice, this book profiles evidence-based prevention strategies and case studies from around the world. It illustrates the diversity of contexts in which various forms of violence against children unfold and advances knowledge about both the nature and extent of violence against children in criminal justice settings, and the specific situational factors that contribute to, or inhibit, the successful implementation of violence prevention strategies. It demonstrates that specialised child justice systems, in which children's rights are upheld, are crucial in preventing the violence inherent to conventional criminal justice regimes. Written in a clear and accessible style, this book will be of interest to students and researchers engaged in studies of criminology and criminal justice, youth justice, victimology, crime prevention, and children's rights.

***The Rehnquist Court and Criminal Justice*** May 04 2020 By analyzing the perspectives and influential decisions of individual justices on the Rehnquist Court (1986-2005), this volume reveals how a divided Supreme Court limited the scope of rights affecting criminal justice without fulfilling conservatives' goal

of eliminating foundational concepts established during the Warren Court era. The era's generally conservative Supreme Court preserved rights in several contexts because individual justices do not necessarily view all constitutional rights issues through a simple, consistent philosophical lens.

*The Science of Crime Scenes* Jun 16 2021 The recent National Research Council's report on forensic science calls for more fundamental education and training in the science behind the discipline. Nowhere is this need greater than in crime scene investigations. Long seen as merely "bagging and tagging," crime scene investigation and processing is now a complex process involving numerous sciences and methods. The Science of Crime Scenes addresses the science behind the scenes and demonstrates the latest methods and technologies in depth. The Science of Crime Scenes covers the philosophy of crime scenes as historical events, the personnel involved at a scene (including the media), the detection of criminal traces and their reconstruction, and special crime scenes, such as mass disasters and terrorist events. Written by an international trio of authors with decades of crime scene experience, The Science of Crime Scenes is the next generation of crime scene textbooks.

Sexual Crime and the Experience of Imprisonment Jul 06 2020 This book focuses on the experience of imprisonment from the perspectives of individuals with sexual convictions. It stresses the importance of a positive and rehabilitative prison climate. The volume begins with an exploration of the theoretical underpinnings of a rehabilitative prison climate and discusses some of the practical ways of creating rehabilitative cultures in prisons housing people convicted of sexual offences. Four empirical chapters focus on the experience of stigmatisation, prison officers' attitudes towards prisoners' offences, negotiating the 'sex offender' identity in prisons and the varied experience of 'being' in prisons exclusively for individuals with sexual convictions. Throughout the authors discuss the specific benefits of peer-support, such as the chance to earn self-forgiveness, construct adaptive identities and consequently move away from harmful labels. The book also spotlights a chapter on the experience of imprisonment written by a former service-user, this unique position offers an insightful account of an individual's journey through the prison system.

Based on eight years of research with law enforcement officials, the media, and interviews with more than eighty Canadian and American bank robbers, *Behind the Bars* goes behind the facelessness of the crime itself and into the hearts and minds of the offenders. **Victims and Plea Negotiations Jul 26 2019** This book explores victims' views of plea negotiations and the level of input that they desire. It draws on the empirical findings of the first in-depth study of victims and plea negotiations conducted in Australia. Over the last 50 years, the criminal justice system has seen major changes in both the role that victims play in the justice process and in how the vast majority of criminal cases are finalised. Guilty pleas have become the norm, and many of these result from negotiations between the prosecutor and the defence. The extent to which the victim is one of the participating parties in plea negotiations however, is a question of law and of practice. Drawing from focus groups and surveys with victims of crime, *Victims and Plea Negotiations* seeks to privilege victims' voices and lived experiences of plea negotiations, to present their perspectives on five options for enhanced participation in this legal process. This book appeals to academics and students in the areas of law, criminology, sociology, victimology and legal studies, those who practice in the criminal justice system generally, those who work with victims, and policy makers.

**The Routledge Handbook of Women's Experiences of Criminal Justice Jul 30 2022** This Handbook brings together the voices of a range of contributors interested in the many varied experiences of women in criminal justice systems, and who are seeking to challenge the status quo. Although there is increasing literature and research on gender, and certain aspects of the criminal justice system (often Western focused), there is a significant gap in the form of a Handbook that brings together these important gendered conversations. This essential book explores research and theory on how women are perceived, handled, and experience criminal justice within and across different jurisdictions, with particular consideration of gendered and disparate treatment of women as law-breakers. There is also consideration of women's experiences through an intersectional lens, including race and class, as well as feminist scholarship and activism. The Handbook contains 47 unique chapters with nine overarching themes (Lessons from history and theory; Routes into the criminal justice system; Intersectionality; Sentencing and the courts and community punishments; Specific offences; Incarcerated women's experiences; Mothers and families; Rehabilitation and reintegration; Practitioner relationships), and each theme includes contributions from different countries as well as the experiences of contributors from different stages in their own journey. International and interdisciplinary in scope, this Handbook is essential reading for scholars and students of criminology, sociology, social policy, social work, and law. It will also be of interest to practitioners, such as social workers, probation officers, prison officers, and policy makers.

**CRIME SCENE STAGING** Apr 02 2020 This unique text has been written as a practical reference for detectives, crime scene investigators, and prosecutors on how to recognize a staged scene and how this offender behavior could be used as evidence in subsequent trials. The book is designed to help those actively engaged in conducting criminal investigations identify the red flags or those common findings at a crime scene that point to the scene being staged or altered and thereby assist the investigative process. The text is not only research based but also includes the authors' 30-year experience and personal observations in conducting hundreds of different crime scene investigations ranging from homicide and death, burglary and other property crimes, to rape and other sexual crimes. This experience also includes interviewing hundreds of victims and suspects, and conducting investigations from initiation of cases through prosecution. The authors have located hundreds of examples of staging and have included many of them as case studies throughout the text. Many of the case studies presented are based on the authors' personal involvement in them. In addition to defining and categorizing the various aspects of staging, the reader is also introduced to new terminology describing the different elements of staging based on offender motive and the dynamics of the events. Other major discussions include primary and secondary staging as well as the two subcategories of primary staging: premeditated and ad hoc staging. Staging by individuals other than the offender and victim, described as tertiary/incidental scene alterations, are included as are several chapters on a variety of crimes and how to identify the red flags relevant to them. A final chapter is written especially for prosecutors and offers suggestions and references on how the concept of staging might be introduced in court. A very thorough Appendix provides reviews of many appellate court decisions from across the U.S. and Canada specifically addressing issues of staging.

*A Victim Community* Jun 04 2020 Although historically ignored, crime victims are now very firmly on the map. For politicians, newspapers, the media and the public at large, criminal injury and loss are a source of constant concern and anxiety. Criminologists and media analysts have studied much of this concern in recent years but what has not been investigated is how communities experience high profile crimes and the media intrusion that inevitably follows. This book seeks to address this gap by exploring how the communities of Soham and Dunblane, that witnessed high profile crimes, lived with the tragic events at the time and the attention of the world's media afterwards. Based on a two-year qualitative study of these communities, this book looks beneath the surface of the relationships, dilemmas and unexpected triumphs of communities struggling to come to terms with the most harrowing of events, within the glare of the media spotlight. Combining empirical observations with media analysis and social theory, this book offers something new to the criminological audience: the concept of the victim community.

This is a trial book, which focuses on a charge of assault under the Offences Against the Person Act 1861. This case was about an assault, which took place outside a restaurant in convent garden. This was exacerbated when the complainant, his brother and two women all travelled back home after having a night out. After they had finished their night out they all made their way home in a taxi. They needed to pass the restaurant in order to make it home safely. The taxi pulled up across the road from the restaurant and when they arrived they noticed three Asian men standing outside. They all got out of the car, the brother and one of the girls got out the left side and both the complainant and the other girl got out the left on the right. The brother then paid the driver, there were cars passing and both the complainant and the other girl crossed the road making their way over to Royals. The girl stumbled and fell to the pavement so the complainant helped her up. The defendant went over to the complainant and started on him. The complainant asked the defendant to stay away so the defendant then went back into the restaurant. Shortly after this he re-emerged out of the restaurant and attacked the complainant from behind, with an object known to be coins, wrapped in a white cloth, causing three wounds in the back of his head.
