[Faith, Identity and Homicide](#) Sep 15 2021 This book explores the role that religion plays in the lives of imprisoned homicide offenders. Drawing on interviews in an English prison, the author examines how they narrate their life stories and how religion intersects with other categories to rebuild their personal identities after committing a crime and being labelled as murderers or killers. This book seeks to bridge the gap between macro and micro phenomena, examining religion as both a social institution and a personal experience. It also explores the mediating role of institutions with regards to the nature and extent of their influence upon individual choices and actions, and provides insights into the nature of the therapeutic prison. It seeks to create some clarity of understanding the complex nature of religiosity, narrative, identity, desistance and rehabilitation whilst critically examining elements of social identity that may restrict or enhance this process. It provides a series of recommendations for organisations working with convicted homicide offenders/offenders and speaks to academics and practitioners in the fields of criminology, sociology, psychology and religious/theological studies.

Beyond Evil - Inside the Twisted Mind of Ian Huntley Sep 22 2019 The horrific murders of Holly Wells and Jessica Chapman shocked and sickened the nation. The man found guilty of their murders is now one of the most reviled men in the country. This in-depth book is written by investigative journalist Nathan Yates, who witnessed the murder hunt first-hand and even interviewed Huntley and former girlfriend Maxine Carr. Yates also has an exclusive source for contact with Ian Huntley and will have further revelations about how far Huntley has lied about what happened that tragic day.

[Cases on Crimes, Investigations, and Media Coverage](#) Feb 20 2022 Media has a great influence on the perceptions and opinions of the public throughout varying areas, particularly for crimes, investigations, and trials. People receive information about these key events through some form of media, and the way the facts are represented is crucial to what people will

believe. To fully understand the sway media has on public opinion, further study is required. *Cases on Crimes, Investigations, and Media Coverage* examines famous crime cases and the media coverage that surrounded them including film, television, and wider media coverage of major crimes, such as murders, the investigations that followed, and the subsequent trials. Covering critical topics such as press coverage, television, biases, news, perceptions, and film, this reference work is ideal for criminal justice professionals, forensics specialists, criminal justice advocates, journalists, media professionals, psychologists, sociologists, researchers, scholars, academicians, practitioners, instructors, and students.

Looking for Laura Aug 02 2020 As featured on the BBC Radio 2 Jeremy Vine Show. David Wilson is one of the 1st's best-known and most innovative criminologists. An 'insider' view of the construction of a news agenda for crime and punishment. This superb read from Professor David Wilson looks at how the "news" agenda for crime and punishment is constructed. It also contains analysis of media stereotypes, narratives and depictions together with insights connecting these to real life. Media portrayals set the agenda for public discourse and popular debate. Academics in their 'ivory towers', professionals and other crime experts ignore this at the risk of seeing their more informed understandings side lined. The book builds on the author's experiences of covering high profile cases and populist issues for TV, radio, newspapers and other media. It also contains telling inside accounts of police-media relations at murder scenes in Gloucester, Soham, Whitehaven, Rothbury and Ipswich. A must in grasping the equally 'hot topic' of Public Criminology With a Foreword by the award-winning investigative journalist Donal MacIntyre.

Shallow Graves Dec 06 2020 The murder of Sarah Payne, Adam the Thames Torso, the London bombings, the Night Stalker and the poisoning of Alexander Litvinenko... The solving of all these cases can be linked to one man: Ray Fysh, a beer-swigging Charlton Athletic fan from Woolwich, a natural raconteur and also one of the finest forensic detectives the country has ever seen. Ray began work for the Met Police in the 1970s when forensic investigation was seen as little more than a geeky side show, only in existence to confirm or eliminate evidence. But by the mid 90s Ray and his team had made huge progress in their field, contributing to the UK becoming a world-leading innovator in forensic techniques, with Ray himself being named as Special Adviser to the Forensic Science Service. As the SA, Ray worked alongside Senior Investigating Officers from day one of a case, directing his team to identify forensic opportunities and harvest case-cracking clues. As Ray looks back over his career at the cases he worked on, the reader is given unparalleled insight into the highs and lows of an astonishing career, the historic classist snobbery of the Met and the stunning realities of crime and forensics

The Public Woman Dec 26 2019 Women have never had more freedom yet questions of inequality persist from the bedroom to the workplace. A quarter of a century after the publication of her seminal text *Misogynies*, Joan Smith looks at what women have achieved - and the price they've paid for it. From Amy Winehouse to Pussy Riot, from the veil to domestic violence, a war is being fought over women's bodies and minds. Smith shows how misogyny has assumed new and dangerous forms as we confront an economic, social and religious backlash. But that's only part of the story. The female eunuch has become the public woman, and she isn't going to go quietly. Written with wit and passion, this forensic analysis sets out what we're up against - and how to fight back. 'Brilliant ... A compelling rap sheet of 21st century misogynies and a reprimand to anyone who declares the battle for gender equality is over' - Robin Ince 'Joan Smith dares to expose woman-hating in all its forms. She does not shy away from naming religion and cultural relativism as barriers to liberation, and names men and the system of patriarchy as the problem. Read this book, not least because it will open your eyes to how much needs to be done before we consign male supremacy to the museum of ancient reli.' - Julie Bindel

An Evil Love: The Life and Crimes of Fred West Oct 16 2021 The reverberations from Fred West's crimes continue to this day. The story never dies. West was perhaps one of Britain's most evil, feared serial killers. His horrifying compulsion to kidnap, rape and torture his victims before murdering them showed a savagery and cruelty that can barely be believed. His 'House of Horrors' at 25 Cromwell Street, Gloucester, became a burial ground for the women who fell into his hands. This new publication of Geoffrey Wansell's iconic, bestselling true crime masterpiece comes thirty years after West was arrested, in 1992. Dead by suicide by 1994, he never truly faced justice for the twelve murders he was charged with. Wansell, chosen as West's official biographer, gained exclusive access to all West's police interviews, prison diaries, papers, solicitor interviews - and his private collection of video tapes, as well as all the interviews given by his wife, Rose West. Once and for all, he reveals the full story of Fred and Rose West's lives and crimes, in a chilling book that sets the standard for exploring the minds of our most feared serial killers - up close and personal.

Manhunt May 23 2022 On 21st March, 2002, Milly Dowler left her school in Surrey for the last time. Less than an hour later, she was to be abducted and murdered in the cruelest fashion, sparking a missing person investigation that would span months before her body was found. In the two years that followed, two more young women - Marsha McDonnell and then Amélie Delagrangé - were murdered in unspeakably brutal attacks. Yet with three murdered women on their hands, and few leads open to them, investigating officers were running out of ideas and options, until SIO Colin Sutton was drafted into the investigation for the murder of Delagrangé. Seeing a connection between the three women, and thriving under the pressure of a serial killer hunt, Sutton was finally able to bring their murderer to justice after the case had begun to seem hopeless.

The Real Silent Witnesses May 11 2021 WITH A FOREWORD BY NIGEL McCrery, Creator of Silent Witness Going beyond the popular TV show, this is the true story

of forensic science from those who solve crimes without witnesses. How do you identify a serial killer? What are the tell-tale signs of guilt? Can we now solve the unsolvable? Since even before the first season of *Silent Witness* in 1996, forensic science has played an increasingly important role in the investigation of violent crimes. With a boom in cold-blooded cases throughout the 1980s, police began to rely on DNA evidence to help them find perpetrators and since then forensic science has taken off as a powerful tool in solving murders. Bestselling true crime author Wensley Clarkson takes us beyond the headlines to examine the real-life stories where forensics have played a crucial role. He speaks to experts who have worked on the most gruesome, most chilling and most shocking crime scenes and explains how notorious criminal cases from across the world were solved. And he shows how the silent witness is often the one who screams the loudest.

Dial M for Murdoch Jun 19 2019 'This book uncovers the inner workings of one of the most powerful companies in the world: how it came to exert a poisonous, secretive influence on public life in Britain, how it used its huge power to bully, intimidate and cover up, and how its exposure has changed the way we look at our politicians, our police service and our press.' Rupert Murdoch's newspapers had been hacking phones, blagging information and casually destroying people's lives for years, but it was only after a trivial report about Prince William's knee in 2005 that detectives stumbled on a criminal conspiracy. A five-year cover-up then concealed and muddied the truth. *Dial M for Murdoch* gives the first connected account of the extraordinary lengths to which the Murdochs' News Corporation went to "put the problem in a box" (in James Murdoch's words), how its efforts to maintain and extend its power were aided by its political and police friends, and how it was finally exposed. The book is full of details which have never been disclosed before in public, including the smears and threats against politicians, journalists and lawyers. It reveals the existence of brave insiders who pointed those pursuing the investigation towards pieces of secret information that cracked open the case. By contrast, many of the main players in the book are unsavoury, but by the end of it you have a clear idea of what they did. Seeing the story whole, as it is presented here for the first time, allows the character of the organisation which it portrays to emerge unmistakably. You will hardly believe it.

We Know All About You Apr 29 2020 *We Know All About You* shows how bulk spying came of age in the nineteenth century, and supplies the first overarching narrative and interpretation of what has happened since, covering the agencies, programs, personalities, technology, leaks, criticisms and reform. Concentrating on America and Britain, it delves into the roles of credit agencies, private detectives, and phone-hacking journalists as well as government agencies like the NSA and GCHQ, and highlights malpractices such as the blacklist and illegal electronic interceptions. It demonstrates that several presidents - Franklin D. Roosevelt, Lyndon B. Johnson, Richard M. Nixon - conducted political surveillance, and how British agencies have been under a constant cloud of suspicion for similar reasons. *We Know All About You* continues with an account of the 1970s leaks that revealed how the FBI and CIA kept tabs on anti-Vietnam War protestors, and assesses the reform impulse that began in America and spread to Britain. The end of the Cold War further undermined confidence in the need for surveillance, but it returned with a vengeance after 9/11. The book shows how reformers challenged that new expansionism, assesses the political effectiveness of the Snowden revelations, and offers an appraisal of legislative initiatives on both sides of the Atlantic. Micro-stories and character sketches of individuals ranging from Pinkerton detective James McParlan to recent whistleblowers illuminate the book. *We Know All About You* confirms that governments have a record of abusing surveillance powers once granted, but emphasizes that problems arising from private sector surveillance have been particularly neglected.

The Serial Killer Next Door Dec 18 2021 How well do you know your neighbors? Maybe you should get to know them better! Growing up, we are taught that monsters are easy to identify, but the truth is very different. Too often, the serial murderer does not stand out. Otherwise, he, or she, would get caught. The contrast between the ordinary-seeming lives that provided cover for their cruel secrets is exposed in *The Serial Killer Next Door: The Double Lives of Notorious Murderers*. To their coworkers, neighbors, and others who knew them, they led unremarkable lives. They had careers as military pilots, police officers, landscapers, small business owners, farmers, realtors, reporters, authors, veterinary technicians, nurses, doctors, handymen, painters, and chefs, while they simultaneously stalked city suburbs, college campuses, trailer parks, and red-light districts. This chilling book looks at the horrifying stories of nearly 30 malevolent killers (and hundreds of innocent victims) who were mistakenly trusted, including ... Genevieve Jones, a nurse responsible for the murder of 60 infants and children in her care. She's said to be the inspiration for Stephen King's iconic character of Annie Wilkes, in *Misery* - and her nephew broke into King's home, threatening to blow up the writer and his family because of it! Robert Lee Yates, a helicopter pilot in the Army National Guard who, when caught, buried one body outside his bedroom window as his wife slept. Gary Ridgway, also known as the Green River Killer, went undetected for 20 years, working for 30 years as a painter for a truck company and married for 17 years. Kathleen Folbigg, whose three children were at first thought to have died from natural causes. She only got caught when her husband found her personal diary. Joseph James DeAngelo, who worked various jobs, including as a police officer and a truck mechanic. He went on a decades-long crime spree and was finally caught with the help of DNA evidence. His case was instrumental in the establishment of California's DNA database. And dozens of other serial killers! It's chilling to realize that many serial killers have created second lives that are completely divorced from the brutality and evils they commit. It's incomprehensible to think that they are able to flip a switch, transforming them from apparently loving, ordinary men and women into torturous, homicidal slaughterers. With more than 120 photos and graphics, *The Serial Killer Next Door* is richly illustrated. Its helpful bibliography and extensive index add to its usefulness. We trust our neighbors, coworkers, and acquaintances. Of course, we do. It's ominous to think that we can't!

Bus Stop Killer Jun 24 2022 Levi Bellfield was an English serial killer-dubbed the "Bus Stop Killer"-because of his practice of staking out bus stops to find his victims; usually young blonde women who he would then stalk after they rejected him while they walked home before attacking them with a hammer. One victim, Kate Sheedy, did not like the looks of Bellfield or his vehicle and attempted to cross the street to get away. She was subsequently run over by Bellfield-twice. Bellfield was ultimately convicted of killing two young blonde women-Marsha McDonnell and Amelie Delagrangé-as well as the attempted murder of Sheedy. He was sentenced to life in prison on 26 February 2008 with a recommendation that he should never be released. Then, evidence of a third murder victim, 13-year-old Amanda "Milly" Dowler, emerged and Bellfield was subsequently convicted of her murder and given another life sentence. Since then he has been implicated in dozens of additional assaults and murders and unsuccessfully tried for three of them.

Journalism Ethics Oct 24 2019 *Journalism Ethics: Arguments and Cases for the 21st Century* explores the major ethical dilemmas facing journalists in the digital age. Engaging with both the theory and practice of journalism ethics, this text explains the key ethical concepts and dilemmas in journalism and provides an international range of examples and case

studies, considering traditional and social media from a global perspective. Journalism Ethics offers an introductory philosophical underpinning to ethics that traces the history of the freedom of expression from the time of Greek philosophers like Aristotle, through the French and American revolutions, to modern day. Throughout the book Patching and Hirst examine ethically-challenging issues such as deception, trial by media, dealing with sources and privacy intrusion. They also explore continuing ethical fault lines around accuracy, bias, fairness and objectivity, chequebook journalism, the problems of the foreign correspondent, the conflicts between ethics and the law and between journalists and public relations consultants. Concluding with a step-by-step guide to ethical thinking on the job, this textbook is an invaluable resource for students of journalism, media and communication.

Tia Sharp - A Family Betrayal: The True Story of how a Step-Grandfather Murdered the Young Girl Who Trusted Him. Feb 26 2020 On 3 August 2012, as London was gripped by the Olympics, Tia Sharp, a 12-year old schoolgirl, was reported missing from her grandmother's home in New Addington, south London. A call made by her mother, Natalie, alerted police to Tia's disappearance and so began a massive search operation to find the missing girl. Police were seconded from the Olympic village to make house-to-house enquiries, while locals searched the nearby area. A Twitter campaign began, sparking a nationwide appeal to find Tia. It was reported that Tia had disappeared after being dropped off at a train station to go shopping, but in the days that followed a different story emerged. Only seven days after Tia was reported missing, the terrible news came that the family hoped they would never have to hear; Tia's body, wrapped in bin bags, had been found in her grandmother's attic. The truth that unfolded over the course of the day horrified the public; not only had the police searched the house on three separate occasions before discovering Tia's body, late the following evening, Stuart Hazell - the man who Tia trusted, the man who appealed for her return - was charged with her murder. *Tia Sharp: A Family Betrayal* examines the appalling case of an evil step-grandfather who betrayed his families trust, deceived friends and neighbours, and cut short the life of a young, well-loved girl. An insight into the facts behind the murder, the court case and the aftermath of one of the most shocking crimes a family should never have to face.

Predator Jan 19 2022 "The powerfully-built nightclub bouncer kidnapped and murdered 13 year old Milly Dowler as she walked home from school in broad daylight. She had stopped for a bag of chips with friends at a railway station cafe. The case horrified the nation when six months later her body was found 25 miles away by mushroom pickers in a quiet wood in the Hampshire countryside. Her abduction and death was described as 'every parent's nightmare'. He also murdered, in an equally horrendous manner, 19-year-old Marsha McDonnell and 22-year-old French student Amelie Delagrangue with blows to the head after they got off late-night buses in South London. He attempted to kill Kate Sheedy, an 18 year old he deliberately hit with his car as she walked home shortly after midnight, before reversing over her body. She survived only after major surgery in hospital."--Publisher's description.

The Hunt for the Silver Killer Nov 17 2021 'A truly astonishing murder mystery – this is proper journalism' Jeremy Clarkson Following a long investigation by the world-famous Sunday Times Insight team, David Collins tells the truly unique story of a string of murder-suicides in north-west England and poses the terrifying question: are they the work of a serial killer who has been operating undetected since the mid-nineties? In 1996 and 1999, two elderly couples died in the small town of Wilmslow, Cheshire. In each case the husband was blamed for turning berserk and killing his wife using a horrifying level of violence. The police failed to make a link between the deaths – despite the similarities. That might have been the end of the matter. But when two coroner's officers began to piece together the evidence, it revealed a pattern which may prove the existence of a sadistic attacker known as 'the silver killer'. Using interviews with dozens of witnesses, including police investigators, forensic and crime scene experts, coroner's officers and family members, the author pieces together the clues in an attempt to solve the mystery of what really happened. A gripping true-crime investigation, the book reveals how suspicions were aroused and set investigators on a new trail to uncover the truth. Collins, whose reporting helped the police to convict the serial killer Levi Bellfield of killing Milly Dowler, has written a brilliant account of a crime that nearly went undiscovered which is sure to become a classic of the genre.

The Road to Murder Mar 21 2022 Why do serial killers gravitate towards certain kinds of occupation? Why do they pursue certain types of victim? How do they leave the radar and remain hidden? Through his wide knowledge of the topic honed at one of Britain's leading centres for criminological studies, Adam Lynes demonstrates how theory, practice, profiling and behaviour intertwine to identify the kind of people we should fear (and especially if we are vulnerable to predators). The book also looks at those personality-types most likely to become serial killers whilst hiding in plain sight. From Britain's serial killing studies centre of excellence. Looks in depth at eight of Britain's serial killer drivers, dealing with some of the most notorious crimes of modern times. A fresh and uniquely interesting perspective. Demonstrates the links between mobility, transience, recognisance, predatory behaviour and

acting out murderous fantasies. From the text "It is apparent that driving as a form of occupational choice is a "popular" form of employment for British serial murderers. In an effort to determine why this may be, [the] case studies of eight British serial murderers [in the book] demonstrate just how such an occupation can impact upon these offenders' criminal behaviour... These findings may prove to be of benefit to scholars of serial murder, and to those who attempt to apprehend them."

The Bus Stop Killer Oct 28 2022 Geoffrey Wansell's *The Bus Stop Killer* is chilling portrait of a notorious serial killer. On 23 Jun 2011 the convicted double-murderer Levi Bellfield was found guilty of the murder of 13-year-old school girl Milly Dowler. Milly disappeared on her way home from school in Walton-on-Thames, Surrey in 2002. Six months later her body was discovered many miles away. A massive police investigation, the largest manhunt in Surrey's history, got nowhere. Only when nightclub bouncer and bare-knuckle boxer Levi Bellfield was arrested for the murder of another young woman did it become clear to police that they had a serial killer on their hands. This is the full story of the murders, the victims and the pain-staking nine-year investigation and trial by police and prosecutors. It tells of Bellfield's terrifying, controlling personality - a man who went from charming to monstrous in the blink of an eye - and his depraved stalking of young women. *The Bus Stop Killer* is Geoffrey Wansell's terrifying portrait of the only man in modern British legal history to be given two whole-life sentences. Geoffrey Wansell has been acknowledged as one of Britain's leading authorities on serial killers. He was short-listed for the Whitbread Prize (now the Costa Book Award) for his biography of Terence Rattigan, and was appointed by the Official Solicitor to the Supreme Court to write the biography of Gloucester-based serial killer Frederick West. He lives in London, and is an award-winning freelance journalist who works principally for the Daily Mail. <http://www.geoffreywansell.com/>

Edited by Dan Rebellato, *Modern British Playwriting: 2000-2009* provides an authoritative and stimulating reassessment of the theatre of the decade, together with a detailed study of the work of David Greig (Nadine Holdsworth), Simon Stephens (Jacqueline Bolton), Tim Crouch (Dan Rebellato), Roy Williams (Michael Pearce) and Debbie Tucker Green (Lynette Goddard). The volume sets the context by providing a chronological survey of the decade, one marked by the War on Terror, the excesses of economic globalization and the digital revolution. In surveying the theatrical activity and climate, Andrew Haydon explores the response to the political events, the rise of verbatim theatre, the increasing experimentation and the effect of both the Boyden Report and changes in the Arts Council's priorities. Five scholars provide detailed examinations of the playwrights' work during the decade, combining an analysis of their plays with a study of other material such as early play drafts and the critical receptions of the time. Interviews with each playwright further illuminate this stimulating final volume in the Decades of Modern British Playwriting series.

Reputation, Stock Price, and You Aug 22 2019 "All of our working lives we have heard the mantra, 'a reputation lost is never regained.' Still, the firms we work for, admire and invest in seem to take costly reputation hits all too often. Everyone interested in managing, regulating or investing in public firms will find Nir Kossovsky's book a wonderful read through reputations won, lost and regained over the last 20 years. This is the first book which goes beyond platitudes to explain how to spot value-destroying reputation risk and how to manage it or live with its consequences. Couldn't be more timely." —Tom Skwarek, Managing Director|Structuring and Solutions Group, Unicredit Bank AG; previously Managing Director|Corporate Strategic Solutions, Swiss Re. "There are fiduciary reasons why corporate directors would benefit from reading this book. There is also a personal benefit. The collapse of a company's reputation can stain the personal reputation of its directors." —George Miles, Member of the Board of Directors, AIG, EQT, Harley Davidson, HFF, and Wesco. "Nir Kossovsky has written a gripping tale, first educating the reader by distinguishing between corporate branding and reputation, then alarming us with case histories of mismanagement of corporate reputational crises, and finally reassuring all with a unique solution, i.e., insuring against the risk of reputational loss." —John H. Bennett, Partner, Global Brand Positioning, previously Chief Marketing Officer, Visa, Inc. "While directors know reputation is important, it often is treated as a vague 'good' until something bad happens. Nir Kossovsky does a great job, with many examples, of connecting reputation to stock price and to behaviors, before and after crises. If you are a director, a senior manager, or a

regulator, you should read this book and remember the lessons it offers. There is no office which will restore reputation, but careful planning and quick response, as Nir points out, can make a big difference.” —Herbert S. Winokur, Jr., former chairman on Enron’s Board Finance Committee and a director of many for-profits and non-profits A company that takes a hit to its reputation—BP after the Gulf oil spill, Barclays after fiddling LIBOR, News Corp after the phone hacking scandal—enters a world of grief: market value falls along with employee morale, regulatory scrutiny increases, and customers defect and boycott. Reputation, Stock Price, and You: Why the Market Rewards Some Companies and Punishes Others shows how a company’s reputation is created and how reputational value impacts corporate P&L and the personal finances of its many stakeholders. Better yet, it shows what you can do to profit from, increase, protect, monitor, evaluate, restore, and even insure reputational value. If your job, bonus, options, salary, or investments depend on the stock price of a public company—or on the sales, profitability, or value of a private company—you need to read this book to understand the concrete steps you can take to improve your firm’s reputation, reduce risks to its finances and industry standing, and reap the highest reputational dividends. Using dozens of case studies, Reputation, Stock Price, and You: Explains how stakeholders, and their expectations, both shape and are shaped by a company’s reputation Describes how reputations for ethics, innovation, good governance, quality, safety, sustainability, and security are created and lost Explains why both corporate and individual stakeholder behavior affect reputational value Shows how you can influence the expectations and behaviors of stakeholders, which in turn can improve corporate finances, reduce operational risk, and increase stock price or market value Provides sensitive tools for tracking and predicting stock price as a function of reputational value metrics The majority of directors at U.S. public companies now count reputation as their firm’s #1 concern, and with good reason. A firm with a superior reputation gains many benefits: Customers are more willing to pay higher prices, vendors and employees offer better terms for their services, creditors and equity investors offer better terms for capital, and regulators tend to be more forgiving. This book shows how to achieve and sustain a stellar reputation and how to convert it into its tangible form: reputational value.
