The Heart And The Fist Nov 01 2022 **THE HEART AND THE FIST** shares one man's story of extraordinary leadership and service as both a humanitarian and a warrior. In a life lived at the raw edges of the human experience, Greitens has seen what can be accomplished when compassion and courage come together in meaningful service. As a Rhodes Scholar and Navy SEAL, Greitens worked alongside volunteers who taught art to street children in Bolivia and led US Marines who hunted terrorists in Iraq. He's learned from nuns who fed the destitute in one of Mother Teresa's homes for the dying in India, from aid workers who healed orphaned children in Rwanda, and from Navy SEALs who fought in Afghanistan. He excelled at the hardest military training in the world, and today he works with severely wounded and disabled veterans who are rebuilding their lives as community leaders at home. Greitens offers each of us a new way of thinking about living a meaningful life. We learn that to win any war, even those we wage against ourselves; to create and obtain lasting peace; to save a life; and

even, simply to live with purpose requires us—every one of us—to be both good and strong.

Educational Leadership of Immigrants Jun 15 2021 This book prepares current and future educational leaders to adapt to the changing terrain of U.S. demographics, education, and immigration policy. *Educational Leadership of Immigrants* highlights the educational practices and discourses around immigration that intersect with policies and laws, in order to support K-12 students' educational access and families' participation in schooling. Drawing primarily on research from the fields of educational leadership and educational policy, this book employs a case study approach to address immigration in public schools and communities; school leaders' responses to ethical dilemmas; the impact of immigration policy on undocumented students; and the varying cultural, sociopolitical, legal and economic contexts affecting students' educational circumstances. Special features include: • case narratives drawn from real-life experiences to support the educational needs of immigrant students; • teaching activities and reflective discussion questions pertaining to each case study to crystallize leaders' knowledge and facilitate their comfort levels in practice; • discussions of current challenges in education facing immigrant students, their families, educators, and school leaders, especially with changing immigration law.

**Occupying Schools, Occupying Land** Apr 01 2020 Over the past thirty-five years the Brazilian Landless Workers Movement (MST), one of the largest social movements in Latin America, has become famous globally for its success in occupying land, winning land rights, and developing alternative economic enterprises for over a million landless workers. The movement has also linked education reform to its vision for agrarian reform by developing pedagogical practices for schools that foster activism, direct democracy, and collective forms of work. In *Occupying Schools, Occupying Land*, Rebecca Tarlau explores how MST activists have pressured municipalities, states, and the federal government to implement their educational program in public schools and universities, affecting hundreds of thousands of students. Contrary to the belief that movements cannot engage the state without demobilizing, Tarlau shows how educational institutions can help movements recruit new activists, diversify their membership, increase technical knowledge, and garner political power. Drawing on twenty months of ethnographic field work, Tarlau documents how the MST operates in different regions working at times with or through the state, at other times outside it and despite it. She argues that activists are most effective using contentious co-governance, combining disruption and public protest with institutional pressure to defend and further their goals. Through an examination of the potentials, constraints, failures, and contradictions of the MST's educational struggle, *Occupying Schools, Occupying Land* offers insights into the ways education can promote social change, the interactions between social movements and states, and the barriers and possibilities for similar reforms in democratic contexts throughout the world.

**White Coat, Clenched Fist** Sep 30 2022 In the sixties, Fitzhugh Mullan was an activist in the civil rights struggle. While in medical school, Mullan was shocked by gaps in what the students learned, and the lack of humanity in the classroom. Later, Dr. Mullan was outraged at the conditions he discovered when he began to practice. He helped found the Student Health Organization, organized the Controversial Medical Collective at Lincoln Hospital in the Bronx, and struggled to offer improved medical care to those who needed it most and could afford it least. This landmark book charts the state of medical school and practices in the 1960s and 70s. This new edition is updated with a preface in which Dr. Mullan reflects on the changes in the medical field over the last thirty-plus years. Fitzhugh Mullan is Murdock Head Professor of Medicine and Health Policy at George Washington University. He worked at the U.S. Public Health Service where he attained the rank of Assistant Surgeon General (1991-1996). Dr. Mullan is the co-founder of the National Coalition for Cancer Survivorship and the author of numerous books, including *Plagues and Politics: The Story of the United States Public Health Service*, and his most recent book, *Narrative Matters: The Power of the Personal Essay in Health Policy*.

*This Fist Called My Heart* Sep 06 2020 A volume in Marxist, Socialist, and Communist Studies in Education Series Editors: Curry Stephenson Malott, West Chester University of Pennsylvania and Derek R. Ford, Syracuse University *This Fist Called My Heart: The Peter McLaren Reader, Volume I* is "at the same time an homage, a gathering, an intellectual activist's...toolkit, a teacher's bullshit detector, a parent's demand list and an academic's orienting topography. This collection of essays...represents some of the most central and important work of Peter McLaren; work he has done on behalf of people's liberation and humanization over more than three decades. [It provides] readers with an opportunity to develop a deep understanding of McLaren's intellectual history and academic development, and the thinking processes that lead to his current framework and intellectual/philosophical/political situatedness in humanist Marxism. Through these gathered and sequentially presented essays, readers will be able to 'see' McLaren in the process of his theory construction, over time, without missing his essence of struggling for a just society that promotes the full humanity and liberation of all people. [Here, ] we have curated some of the most exemplary essays along the trajectory of Peter McLaren's long and impactful career. These pieces track and document Peter's intellectual grow as one of North America's most important intellectuals and advocates for critical pedagogy; his theorizing of the discursive and the everyday through post-modernist and post-structural lenses; his contributions to the literature and practice of critical multiculturalism; his stirring work on capitalist empire, and valiant struggles to resist it; through to his foundational, long held connection and cutting edge contribution to the field of humanist Marxism." "Whether you are a neophyte to McLaren's work or a long time student of it; an Enlightenment modernist or an avid poststructuralist; a liberal, social democrat, Anarchist or Marxist; an undergraduate, emeritus professor or a community activist; a feminist, critical race theorist or LGBT scholar; an educationalist, sociologist, engineer or physicist, it is our sincere hope and belief that you will find provocation, inspiration, solidarity and hope in the work of Peter McLaren that we present here." Marc Pruyn & Luis Huerta-Charles "This Fist Called My Heart: The Organization of These Volumes."

*The Saber-Tooth Curriculum, Classic Edition* Dec 10 2020 The 65th-anniversary edition of an educational classic proves its relevance in examining today's educational quandaries McGraw-Hill first published *The Saber-Tooth Curriculum* in 1939, and it has remained a classic bestseller to this date. The book is just as relevant and applicable to the key questions in education today as it was when it was first published. With tongue firmly in cheek, Peddiwell takes on the contradictions and confusion generated by conflicting philosophies of education, outlining the patterns and progression of education itself, from its origins at the dawn of time to its culmination in a ritualistic, deeply entrenched social institution with rigidly prescribed norms and procedures. This fascinating exploration is developed within a fanciful framework of fictional lectures, given by Professor J. Abner Peddiwell, doyen in the History of Education at Petaluma State College. In a humorous fable, Peddiwell illustrates the progress of education and give valuable insights into how it could continue to develop in the decades to come.

Students see the diversity of educational research since the journals vary in their standards for publication. • New to this edition: Thirteen new articles keep this popular research reader up-to-date.

**Educational Developments in South Kashmir Since Indian Independence** Mar 13 2021 Since the emergence of civilization, man has been marching in search of knowledge and wisdom. Various research studies have been proposed through education so that humanity, brotherhood and harmony are wedded together. Education is central for making life meaningful and purposeful. Education in India is provided by the public sector as well as the private sector, with control and funding coming from three levels: central, state, and local. Takshasila was the earliest recorded centre of higher learning in India from at least 5th century B.C. and it is debatable whether it could be regarded a university or not. The Nalanda University was the oldest university system of education in the world. Western education became ingrained into Indian society with the establishment of the British Raj. Since gaining independence, India has made considerable progress in education with reference to overall literacy, infrastructure and universal access and enrolment in schools. This book covers a wide range of important topics on the development of education and its progress at National level. The author is extremely grateful to the number of authors and scholars whose material has been consulted and referred to in this book. The author would heartily welcome and acknowledge queries, suggestions and comments, both from the teachers and the students for further improvement in the next edition.

Cognitive and Affective Perspectives on Immersive Technology in Education Aug 06 2020 Immersive technology as an umbrella concept consists of multiple emerging technologies including augmented reality (AR), virtual reality (VR), gaming, simulation, and 3D printing. Research has shown immersive technology provides unique learning opportunities for experiential learning, multiple perspectives, and knowledge transfer. Due to its role in influencing learners' cognitive and affective processes, it is shown to have great potential in changing the educational landscape in the decades to come. However, there is a lack of general cognitive and affective theoretical framework to guide the diverse aspects of immersive technology research. In fact, lacking the cognitive and affective theoretical framework has begun to hamper the design and application of immersive technology in schools and related professional training. *Cognitive and Affective Perspectives on Immersive Technology in Education* is an essential research book that explores methods and implications for the design and implementation of upcoming immersive technologies in pedagogical and professional development settings. The book includes case studies that highlight the cognitive and affective processes in immersive technology as well as the successful applications of immersive technology in education. Featuring a wide range of topics such as curriculum design, K-12 education, and mobile learning, this book is ideal for academicians, educators, policymakers, curriculum developers, instructional designers, administrators, researchers, and students.
