of Ovid, and the obscenity of Martial.--From publisher description. *Shadows on the Silver Strings* Feb 24 2022 A quest to close an interdimensional portal to the shadow people pushes a group of teens to the limit. Out of the shadows, a leader will rise... It was inevitable. As more and more shadows infiltrate their world, Aaron, Wendy, Jake, and Eddie learn that what was once just silhouette and smoke has become something much more terrible, tangible, and horrifying. In Book II: Cave in the Rock, we saw the interdimensional portal torn open, releasing a flood of darkness upon the world. Now, our intrepid teens must find a way to close it again, before it's too late. Their job won't be easy either, as the Shadow People have found a way to manifest as creatures from myth and legend, wreaking havoc everywhere they go behind their new leader, Apscind. This may be the best time--or the worst--for Aaron to rise up as a full-fledged Folkteller. He'll need a lot of help from friends and strangers to stop spreading evil and seal the portal that should never have been open in the first place. In Book III: *Shadows on the Silver Strings*, there's music in the air, and the sound our heroes hear may be the hopeful melody of a brand new day, or a death knell tolling--a harbinger of their impending doom.

Beckman's Folly: Tales of the Vampire Hadley Price Jul 28 2019 Fierce and fabulous. The fiery 400-year-old Vampire Hadley Price lives a very private and passionate personal life with her lover, Nathan and adopted daughter, Svetlana, 200 years in the future on the planet New Melbourne. Her world is ruled by a few simple things: family, good manners, a protective blood lust for her victims, and her innate sense of justice. When the delicate balance of that world is challenged by an invasion of zombies from another part of her universe, Hadley responds with a fierceness few have seen before. In an epic battle, Svetlana emerges as a force for good, with Nathan leading the charge to save the innocents - with disastrous results. That battle also reveals Hadley's unique gift -- one even she was not aware of.

The Glitter of Gold Jul 08 2020 This book studies the so far unexplored operation of the international monetary system that prevailed before the emergence of the international gold standard in 1873. Conventional wisdom has it that the emergence of gold as a global anchor was both an inescapable and desirable evolution, given the exchange rate stability it provided and Britain's economic predominance. This study draws on a wealth of archival sources and abundant new statistical evidence (fully detailed in the appendix) to demonstrate that global exchange rate stability always prevailed before the making of the gold standard. This was despite the heterogeneity among national monetary regimes, based on gold, silver, or both. The reason for the stability before the establishment of the gold standard is France's bimetallic system. France, by being in a position to trade gold for silver, and vice versa, effectively pegged the exchange rate between gold and silver at its legal ratio of 15.5. Part I of the book studies exactly how this mechanism worked. Part II focuses on the respective behaviour of private concerns and arbitrageurs on the one hand, and authorities such as the Bank of France on the other hand, in order to underline the constraints and opportunities that were associated with bimetallism as an international regime. Finally, Part III provides a new view on the collapse of bimetallism and its replacement by a gold standard. It is argued that bimetallism might well have survived, and that the emergence of the gold standard was by no means inescapable. Rather, it resulted from a massive coordination failure at both national and international levels - a failure that was a preview of the interwar collapse of the gold standard.

Mining Latin America / Minería Latinoamericana Sep 29 2019 In November, 1986, the Institution of Mining and Metallurgy held the 'Mining Latin America/Minería Latinoamericana' conference in Chile - a conference covering a broad range of topics relevant to South America and, in that sense, complementary to its regional 'Asian Mining' and 'African Mining' series of events. first conference proved to be a resounding success and confirmed that Chile, in particular, and South America, in general, were indeed ideal for the Institution in the pursuit of its objective of disseminating information related to the international minerals industry. In relation to South America, the Chilean conference was followed, in 1988, by that entitled 'Silver - exploration, mining and treatment', * which was held in Mexico City; in February, 1995, Caracas will host the 'Mineral resources of VenezuelalRecursos minerales de Venezuela' conference, serious planning for which is under way as I write. The Institution of Mining and Metallurgy, in association with the Instituto de Ingenieros de Minas de Chile, Minería Chilena and Latinominería agreed that the second 'Mining Latin AmericaMinería Latinoamerica' conference should be held, again in Santiago, in May, 1994, on the occasion of the 1994 Expomin show, which had been particularly successful in attracting visitors from mining countries worldwide in 1992 and which will continue, at two-yearly intervals, to the year 2000 and, no doubt, beyond.

A Systems Perspective on Financial Systems Feb 01 2020

This book is devoted to a systems-theoretical presentation of the main results of applying the systemic yoyo model and relevant analytical tools to the topics of money and financial institutions. The author presents the main concepts and results of the subject matter in the language of systems science, which has in the past century prompted revolutionary applications of systems research in various subfields of traditional disciplines. This volume applies a brand new logic of reasoning to some of the unsettled problems in the area of money and banking. Due to the particular systemic approach employed, the reader will be able to see how different economic activities are implicitly related to each other and how financial decisions are holistically made in reference to seemingly unrelated events. That is, the learning of this particular subject matter takes place at a different, more elevated level, from which, among others, economies are respectively seen as both closed and open systems; their interactions emulate those of rotational pools of fluids. This book can be used as a textbook for researchers and graduate students in economics, finance, systems science, and mathematical / systems modeling. It will also be useful as a reference book for applied economists and various policy makers.

Libre, a Silver Ships Novel Jan 26 2022 The saga of the Reveur continues in this second novel in The Silver Ships series. The surviving Meridiens have returned to Confederation space, aided by their recently discovered cousins, the New Terrans. They expect a celebration after their 71-year absence. Instead, they're shocked to find the silver ships have destroyed half the Confederation. The Meridiens are fleeing in advance of the horde of alien ships. But Alex Racine and his crew didn't come this far to run away from humanity's enemy. They intend to hunt the silver ships. But, to succeed, they need help. Renee de Guirnon, the leader of the Reveur's Meridiens, reveals a sordid secret of Meridien society: citizens who defy their House, for any reason, are stripped of their rights, declared "Independents," and imprisoned on the planet Libre. But the Independents aren't everyone's pariahs, especially if you're Alex Racine and you're looking for allies against the silver ships. An entire colony of independent, free-thinking radicals offers just the sort of people Alex wants on his side, and an alliance is struck. Soon the enemy ships will swarm off the planet Bellamonde, so the race begins for Alex and the Librans. The planet must be evacuated and the military force readied before the silver ships attack. Alex knows a battle is coming, but will they have enough time to prepare?"

Ecclesiastical Silver Plate in Sixth-century Byzantium Mar 04

2020 The twenty papers included in this volume were presented at an international symposium held in Baltimore and Washington in May, 1986. Planned to coincide with the exhibition of the two largest treasures of Early Byzantine church silver to survive from antiquity, the Kaper Koraon Treasure (found in Syria) and the Sion Treasure (found in Turkey), the symposium sought to place these and other church treasures in their broader contexts examining them from the point of view of economy, history, society, and manufacture. While a number of the papers focus on specific aspects of these two treasures--including six articles devoted to the Sion Treasure--others examine more general questions regarding silver mining, the manufacture of silver vessels, the state control of silver in Byzantium and the Sasanian Empire, the economic and cultural role of silver objects, and the financial power of the institutional church through its vast holdings of silver plate. The precedent offered by pagan cult treasures is also examined. To ensure a broad interdisciplinary

The Silver Mask Oct 03 2022 A highly significant movement within the Silver Age, harlequinade did not surface in Russian high culture until the turn of the twentieth century, when it suddenly began to attract the close attention of symbolist authors. In the present work, an attempt is made to show that the proliferation of the new cultural idiom was indicative of the fundamental concerns of the time and intimately related to the development of artistic thought. Although the theme is considered in its cultural totality (visual arts, literature and drama), the work is focused on symbolist poetry. It provides a close analysis of the 'harlequinade' verse of Blok and Belyi - two leading figures of the movement, in whose writings the symbolist theory found its maturity and perfection. The poems in question are conceptually centred on the dialectical unity of self and other - one of the key-notes in the new symbolist outlook. This is traced at various levels of poetic representation: in the imagery system and the principles of text construction, in linguistic features and poetic devices employed by the authors. Special attention is given to

Corelli was an established writer who had been criticized for her style and subject matter. In *The Silver Domino; or Side Whispers and Literary*, she adopts an anonymous persona to present a series of observations regarding the state of the industry and its most notable figures. She paints a vivid picture of hypocrites who target some writers but elude others. She also challenges the press and her male counterparts while touting her own genius. *The Silver Domino; or Side Whispers and Literary* is a brutally honest portrait of Corelli's many thoughts. It is a captivating and necessary addition to satirical literature. She offers a revealing look at the industry and its true state of affairs. With an eye-catching new cover, and professionally typeset manuscript, this edition of *The Silver Domino; or Side Whispers and Literary* is both modern and readable.

Islamic Arms and Armor in The Metropolitan Museum of Art Dec 01 2019 Armor and weaponry were central to Islamic culture not only as a means of conquest and the spread of the faith, but also as symbols of status, wealth, and power. The finest arms were made by master craftsmen working with the leading designers, goldsmiths, and jewelers, whose work transformed utilitarian military equipment into courtly works of art. This book reveals the diversity and artistic quality of one of the most important and encyclopedic collections of its kind in the West. The Metropolitan Museum's holdings span ten centuries and include representative pieces from almost every Islamic culture from Spain to the Caucasus. The collection includes rare early works, among them the oldest documented Islamic sword, and is rich in helmets and body armor, decorated with calligraphy and arabesques, that were worn in Iran and Anatolia in the late fifteenth century. Other masterpieces include a jeweled short sword (yatagan) with a blade of "watered" steel that comes from the court of Süleyman the Magnificent, a seventeenth-century gold-inlaid armor associated with Shah Jahan, and two gold-inlaid flintlock firearms belonging to the guard of Tipu Sultan.

The Silver of the Sierra Madre Sep 02 2022 In the great barranca known today as Copper Canyon, the small mining town of Batopilas once experienced a silver bonanza among the largest ever known. American investors, believing that Mexico offered an unexploited cornucopia, began purchasing mines in the Sierra Madre, seeking to expand their hold on natural resources outside U.S. borders. From 1861 until the Revolution of 1910, the men of the Batopilas Mining Company ruled the region using their wealth, armed might, and extensive connections. The technology, industrialism, and politics their interests brought to this remote community tied the Tarahumara, Yaqui, Mayo, and other peoples of the barrancas directly to the economies of the United States and China. Local society was revolutionized, and a dramatic tapestry of human interactions was created. Based on many volumes of mining company records, The Silver of the Sierra Madre exposes the mentality and methods of mine owners.

Empire of the Superheroes Jun 06 2020 Superman may be faster than a speeding bullet, but even he can't outrun copyright law. Since the dawn of the pulp hero in the 1930s, publishers and authors have fought over the privilege of making money off of comics, and the authors and artists usually have lost. Jerry Siegel and Joe Shuster, the creators of Superman, got all of \$130 for the rights to the hero. In *Empire of the Superheroes*, Mark Cotta Vaz argues that licensing and litigation do as much as any ink-stained creator to shape the mythology of comic characters. Vaz reveals just how precarious life was for the legends of the industry. Siegel and Shuster—and their heirs—spent seventy years battling lawyers to regain rights to Superman. Jack Kirby and Joe Simon were cheated out of their interest in Captain America, and Kirby's children brought a case against Marvel to the doorstep of the Supreme Court. To make matters worse, the infant comics medium was nearly strangled in its crib by censorship and moral condemnation. For the writers and illustrators now celebrated as visionaries, the "golden age" of comics felt more like hard times. The fantastical characters that now earn Hollywood billions have all-too-human roots. *Empire of the Superheroes* digs the **Download File**

The Silver Moon Aug 21 2021 Each of us has a place to return to in our minds, a place of clarity and peace, a place to think, to create, to dream. For Bryce Courtenay this place was a waterhole in Africa where he used to escape to as a boy, in search of solitude. One evening, while lingering there, he witnessed the tallest of the great beasts drinking from the waterhole in the moonlight, and was spellbound. Ever since, he drew inspiration from this moment. The Silver Moon gathers together some of the most personal and sustaining life-lessons from Australia's favourite storyteller. In short stories and insights, many written in his final months, Bryce reflects on living and dying, and how through determination, respect for others and taking pleasure in small moments of joy, he lived life to the fullest. From practical advice on how to write a bestseller to general inspiration on how to realise your dreams, The Silver Moon celebrates Bryce Courtenay's lifelong passion for storytelling, language and the creative process, and brings us closer to the man behind the bestsellers.
